The Making of a Savior Bodhisattva Shi Zhiru, 2007-08-14 In modern Chinese Buddhism Dizang is especially popular as the sovereign of the underworld Often represented as a monk wearing a royal crown Dizang helps the deceased faithful navigate the complex underworld bureaucracy avert the punitive terrors of hell and arrive at the happy realm of rebirth The author is concerned with the formative period of this important Buddhist deity before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art mythology practices and texts of his cult were still replete with possibilities She begins by problematizing the reigning model of Dizang one that proposes an evolution of gradual sinicization and increasing

vulgarization of a relatively unknown Indian bodhisattva Ksitigarbha into a Chinese deity of the underworld. Such a model, the author argues, obscures the many faceted personality and iconography of Dizang. Rejecting it, she deploys a broad array of materials: art, epigraphy, ritual texts, scripture, and narrative literature to recomplexify Dizang and restore as much as possible from the fragmented historical sources what this figure meant to Chinese Buddhists from the sixth to tenth centuries. Rather than privilege any one genre of evidence, the author treats both material artifacts and literary works, canonical and noncanonical sources. Adopting an archaeological approach, she excavates motifs from and finds resonances across disparate genres to paint a vibrant, detailed picture of the medieval Dizang cult. Through her analysis, the cult far from being an isolated phenomenon is revealed as integrally woven into the entire fabric of Chinese Buddhism, functioning as a kaleidoscopic lens encompassing a multivalent religious-cultural assimilation that resists the usual bifurcation of doctrine and practice or elite and popular religion. *The Making of a Savior Bodhisattva* presents a fascinating wealth of material on the personality, iconography, and lore associated with the medieval Dizang. It elucidates the complex cultural, religious, and social forces shaping the florescence of this savior cult in Tang China while simultaneously addressing several broader theoretical issues that have preoccupied the field. Zhiru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history; she also brings both canonical and noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism.
