Author Marilyn Corsianos examines different forms of corruption, including some behaviors that are generally not recognized as corruption by police departments, such as selective law enforcement, racial profiling, gender bias, and other discriminatory police practices against marginalized populations. The book also explores the role of police culture in preserving and defending misconduct and digs into the thorny question of why significantly fewer women are involved in police corruption.

Throughout the book excerpts from interviews with 32 former police officers illustrate the complex ways that gender construction is connected to police corruption and shows how policing as an institution creates corruption risks. The Complexities of Police Corruption is a challenging and insightful book about the intersections between gender and corruption.
