Towards Bicultural Competence Beyond Black And White:

Towards Bicultural Competence Gloria Gordon, 2007 This book draws on first person action research and inquiry research process to provide a cultural analysis of black experience in white dominated society The author uses her personal experience of working with the racial confusion with which she lived until she decided to engage with what it means to be black instead of avoiding and denying it Her research takes her back in time to a shared history of slavery and colonization outwards to her experiences in white society and inwards to explore the psychological costs of her long silence The outcome is a book which offers a visionary and futuristic view of how whites and blacks can begin to work with the visible and invisible legacies of their shared histories towards a better world and guides readers towards the goal of conscious bicultural competence It explores the experience of members of the African Diaspora today providing important insights into many of the social problems they face in contemporary society such as the widely espoused underachievement of black boys in the British school system The book is an important text for understanding black and white relationships across the world an essential dimension of global social process It is essential reading for teachers educators and policy makers teacher trainers parents and everyone black and white who wants to understand how social inequality is maintained And it is especially timely in the year marking Britain's 200th anniversary of the legal abolition of the slave trade ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management Vladlena Benson, Fraggiskos Filippaios, 2016-05-20 *Transforming Race Conversations* Eugene Ellis, 2024-07-30 A guide to supporting our emergence from the tight grip of race discomfort If we are to address the injustice of racism we need to have the race conversation All too often however attempts at this conversation are met with silence denial anger or hate This is largely because the construct of race resides not only in our minds but principally in the body In order to have productive conversations about race and racism a paradigm shift is needed one which will empower us to remain present and embodied rather than constricted with fear regardless of our racial identities Here psychotherapist Eugene Ellis explores what is needed for this bodily shift to occur as he unpacks the visceral experience of the race conversation He offers a trauma informed neurophysiological approach that emphasizes resourcing body awareness mindfulness and healing *Transforming Race Conversations* is essential reading for therapy practitioners as well as anyone looking to engage more effectively in the ongoing dialogue around race **Metaphor and Dialectic in Managing Diversity** C. Schwabenland, 2012-06-12 Metaphor and dialectic are modes of thinking that influence the ways in which we identify what we have in common with others how we differ and how we manage this diversity to achieve organizational goals This book explores how we can become more aware of these unconscious processes and challenge stereotypes **Understanding Cultural Diversity in the Early Years** Peter Baldock, 2010-03-31 Taking the discussion about cultural diversity beyond the usual topics of anti racism and inclusion but without overlooking these issues *Understanding Cultural Diversity in the Early Years* considers current debates around the

alleged failure of multiculturalism and encourages practitioners to utilize their own cultural backgrounds and experiences as a way of developing their teaching. With an optimistic outlook and focusing on the advantages for learning that cultural diversity can offer, the book discusses the concepts of culture, multiculturalism and intercultural competence and describes the principles that underpin good practice. It is packed full of case studies from a variety of early years settings with ideas to try out and interactive exercises to aid reflection.

First Person Action Research Judi Marshall, 2016-05-16 In *First Person Action Research* Judi Marshall invites her reader to join her in the rich world of first person inquiry, a reflexive approach to life and to one's own participation in research and learning. Written as a collage of interrelated chapters, fragments and voices, this is an important meditation on the nature of inquiring action. Judi Marshall's book provides an accessible introduction to self-reflective practice, exploring its principles and practices and illustrating with reflective accounts of inquiry from the author's professional and personal life. The book also considers action for change in relation to issues of ecological sustainability and corporate responsibility. Writing is reviewed as a process of inquiry and as a way to present action research experiences. Connections are made with the work of the literary authors Nathalie Sarraute and Kazuo Ishiguro to expand the scope of typical academic writing practices. *First Person Action Research* is an important and practical resource for students, teachers and practitioners of action research alike. It is a thoughtful and sensitive account of an emerging field in Research Methods.

Mixed Matters Denise Williams, 2011 More often than not, mixed race pupils are simply referred to as black and tend to be encompassed in a larger, more diverse group of black pupils, but the increased presence of mixed race pupils in schools needs to focus the efforts of education professionals to address issues of race, ethnicity and culture. *Mixed Matters* is essential reading for all educational professionals who want to get to grips with the issues that face mixed families and the pupils themselves as they share their personal experiences of what it is like to be them in the British schooling system. The young people featured in this book challenge some of the commonly held assumptions made about them, especially regarding their aspirations. This book contains some resources that can be used to support work with mixed race pupils as well as initial training and professional development of teachers. The book also details the approach of *Mixed*, formerly the Multiple Heritage Project, in organising youth conferences and training youth facilitators of mixed race to lead their peers in discussions about school and identity.

Ways of Being in Teaching Sean Wiebe, Ellyn Lyle, Peter R. Wright, Kimberly Dark, Mitchell McLarnon, Liz Day, 2017-09-13 As teachers, we share experiences with one another. It is a way to make sense of our teaching lives and teaching selves. *Ways of Being in Teaching* is that kind of sharing; it is a scholarly conversation that will appeal to teachers who are tired of the tips and tricks and want to talk more deeply about how to flourish in this profession. Most of us know ways to strengthen and sustain self, soul, heart, identity and how these key touchstones also strengthen teaching. This book recognizes that who we are, where we are and why is as much a social process as a personal one. Attending to life purpose is a way of attending to teaching. Chapters in this text are insightfully

forthright challenging us to undertake the rigorous work of discovering who we are as human beings and how this impacts who we are with our students Canadian curriculum scholar Cynthia Chambers asks us to listen for what keeps us awake at night and with Ways of Being in Teaching we bring what we have heard into the daylight into the conversation This collection of reflections and conversations does more than provide provocative reading for the reflective teacher It invites practitioners to find their own place at the table of sharing and to welcome the stories that will certainly come as a result of engaging with this community of life writers Carmen Schlamb Professor Seneca College **Handbook of Action Research** Peter Reason, Hilary Bradbury, 2006-01-17 With the Handbook of Action Research hailed as a turning point in how action research is framed and understood by scholars this student edition has been structured to provide an easy inroad into the field for researchers and students It includes concise chapter summaries and an informative introduction that draws together the different strands of action research and reveals their diverse applications as well as their interrelations Divided into four parts there are important themes of thinking and practice running throughout Beyond Black Kerry Ann Rockquemore, David L. Brunsma, 2008 The urgent debate over a multiracial category in the 2000 census forced the nation to reflect upon the important questions of what it means to construct and maintain a racial identity Using in depth interviews and survey data Beyond Black documents how biracial people develop many different racial identities and how these self understandings are derived from historical and contemporary social cultural interactional and psychological processes

Interdisciplinary Perspectives on Colorism Ronald E. Hall, 2022-07-22 This timely and unique book explores the concept of colorism which is discrimination based on the color of a person's skin in a world where arguably light skin is privileged over dark and one's wealth health and opportunities are impacted by skin color sometimes irrespective of one's racial background In the context of our multi cultural and increasingly global society and the historical backdrop of slavery the text takes a unique approach by moving from personal anecdotes to adopting a scientific perspective grounded in empirical evidence Hall explores how skin color is a more effective framework for examining prejudice and discrimination as racial identities become increasingly mixed due to inter racial unions and immigration He argues that racism as discrimination by race is contrived polarizing and non quantifiable and that it is often skin color that is used to identify race often inaccurately With skin color being a visual and physical characteristic with race based prejudices attached to it the author shows how skin color can be a loaded identifier of value and identity In a world where the objective measure of skin color crosses racial boundaries and where race will become increasingly indiscernible over time the ultimate aim of this book is to prepare for the social future of mankind that has already begun to take shape Split into three parts examining historical contemporary and potential future perspectives on colorism this is fascinating reading for students and academics in psychology social work education criminal justice and other social sciences The text will also be useful for providing validation for including colorism into the public domain Tell it Like it is Brian Richardson, 2007 **Race and Rhyme**
