Democratizing Education and Educating Democratic Citizens Leslie J. Limage, 2013-10-08 The essays in the book are organized into three sections in order to address the conceptualization of democracy and citizenship reform efforts towards democratization in various societies and educational efforts to foster democratic citizens Each is written from a different historical and national perspective by an international panel of prominent comparative education scholars and each tackles the theme of democracy and civic duty in education

Social Studies Teacher Education Christopher C. Martell, 2017-10-01 Over the past decade the world has experienced a major economic collapse the increasing racial inequity and high profile police killings of unarmed Black and Brown people the persistence of global terrorism a large scale refugee crisis and the negative impacts of global warming In reaction to social instability there are growing populist movements in the United States and across the world which present major challenges for democracy Concurrently there has been a rise of grassroots political movements focused on increasing equity in relation to race gender class sexual orientation and religion The role of social studies teachers in preparing the next generation of democratic citizens has never been more important and the call for more social studies teacher educators to help teachers address these critical issues only gets louder This volume examines how teacher educators are or are not supporting beginning and experienced social studies teachers in such turbulent times and it offers suggestions for moving the field forward by better educating teachers to address growing local national and global concerns In their chapters authors in social studies education present research with implications for practice related to the following topics race gender sexual orientation immigration religion disciplinary literacy global civics and social justice This book is guided by the following overarching questions What can the research tell us about preparing and developing social studies teachers for an increasingly complex interconnected and rapidly changing world How can we educate social studies teachers to teach against the grain Cochran Smith 1991 2001b centering their work on social justice social change and social responsibility

Handbook of Research on Teaching Drew Gitomer, Courtney Bell, 2016-05-19 The Fifth Edition of the Handbook of Research on Teaching is an essential resource for students and scholars dedicated to the study of teaching and learning This volume offers a vast array of topics ranging from the history of teaching to technological and literacy issues In each authoritative chapter the authors summarize the state of the field while providing conceptual overviews of critical topics related to research on teaching Each of the volume's 23 chapters is a canonical piece that will serve as a reference tool for the field The Handbook provides readers with an unparalleled view of the current state of research on teaching across its multiple facets and related fields

Social Studies Education in East Asian Contexts Kerry J. Kennedy, 2020-07-28 The book explores the state of social studies education within selected East Asian societies and provides some insights into distinctive classroom practices In an increasingly volatile and unpredictable world the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is

a top priority This task falls to social studies education which carries the responsibility for inducting young people into their social world and helping them to see the role they can play within it This is particularly important in East Asia where strong economic growth long held cultural values and diverse political systems create an environment that challenges young people on multiple fronts This book with its team of regional authors shows how different societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies

Climate Change Education Across Disciplines K-12 Lauren Madden, 2025-02-15 Climate change is one of the greatest challenges humanity has ever faced One of the most effective ways to combat climate change is education In New Jersey standards to support teaching and learning about climate change were introduced for children of all ages beginning in 2022 In this edited volume experts from across the state offer strategies suggestions advice and vignettes to support educators as they begin to implement climate change instruction in their classrooms With a foreword by our state's First Lady Tammy S Murphy it also includes a scientific perspective on the effects of climate change in New Jersey the history of climate change education in the US and perspectives from colleagues in other states who are also beginning to adopt instructional practices to address this important topic

The Social Studies in Secondary Education Murry R. Nelson, 1994 This document contains a reprint of the 1916 The Social Studies in Secondary Education A Six Year Program Adapted Both to the 6-3-3 and the 8-4 Plans of Organization and Report of the Committee on Social Studies of the Commission on the Reorganization of Secondary Education of the National Education Association widely believed to be the most important document in the history of citizenship education in the United States It legitimated the term social studies to designate formal citizenship education and placed squarely in the field all of those subjects that were believed to contribute to that end While recognizing the importance of history and the social sciences as contributing to citizenship education the Committee's report recognized that citizenship education is something more than mastery of separate disciplines It recognized the study of social problems as a necessary part of the education of citizens and outlined a content for the social studies that was widely adopted and has remained remarkably unchanged to the present This book includes annotations by Murry R Nelson the editor of the present document on the 1916 report Commentaries include 1 The Social Contexts of the Committee on Social Studies Report of 1916 Murry M Nelson and 2 Thomas Jesse Jones Doing God's Work and the 1916 Report Stephen T Correia The book also contains a 35 page select annotated bibliography from the ERIC database on social studies reform The table of contents of the 1915 report on The Teaching of Community Civics is included in an appendix Author DK

Social Studies for the Twenty-First Century Jack Zevin, 2023-03-17 Now in its 5th edition this popular text offers practical interesting exciting ways to teach social studies and a multitude of instructional and professional resources for teachers Theory curriculum methods and assessment are woven into a comprehensive model for setting objectives planning lessons units and courses choosing classroom strategies and

constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem solving attitudes and behavior; and provokes analysis, reflection, and debate. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic, factual, reflective, analytical, and affective/judgmental components. These three components are seen as supporting one another, building the groundwork for taking stands on issues past and present. At the center is the author's belief that the heart and soul of social studies instruction perhaps all teaching lies in stimulating the production of ideas, looking at knowledge from others' viewpoints, and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion. This new edition is heavily revised and condensed to promote ease of use. Build Your Own Lesson additions to each chapter encourage improvisation and inquiry-based teaching and learning across subjects. A Companion Website offers additional activities, lessons, and resources for pre-service and practicing social studies teachers.

Teaching Middle Level Social Studies Scott L. Roberts, Benjamin R. Wellenreiter, Jessica Ferreras-Stone, Stephanie L. Strachan, Karrie L. Palmer, 2022-03-01. This textbook is a comprehensive and practical guide to teaching middle level social studies. Middle level students are just as capable as high school students at engaging in hands-on, progressive, reflective activities; yet pedagogical strategies designed specifically for the middle grades are often overlooked in teacher education programs. This text provides both progressive and traditional teaching methods and strategies proven effective in the middle level classroom. The content of this book consists of conventional chapters such as What is Social Studies and Unit and Curriculum Planning, as well as unique chapters such as The Middle Level Learner, Best Practices for Teaching State History, and Integrating the Core Subjects in Middle Level Social Studies. In addition to the unique chapters and lesson plans, many additional features of the book will be useful for middle level teaching and learning. These features include: A list of website resources that provide links to thousands of lesson plans, state and national standards, and other multimedia tools that can be used in the classroom; Individual, collaborative, and whole class activities that will help students develop a better understanding of the topics, lessons, and strategies discussed; High quality lesson ideas and classroom tested teaching strategies embedded throughout the book; Images of student work samples that will help students visualize the finished product that is being discussed; An examination of state and national standards that will help guide students in their lesson planning.

Teaching Social Studies in Middle and Secondary Schools Peter H. Martorella, 2001. This readable, accessible book offers prospective teachers a comprehensive introduction to teaching social studies to middle and secondary school students. With the purpose of social studies being the development of reflective, competent, concerned citizens, the book first examines the origins and evolution of social studies and citizenship education across the United States. Following this, targeted chapters address the art, science, and craft of social studies teaching as a means for engaging learners in knowledge construction. In the final section, the authors look at
