CHAPTER 9 – EVOLUTION OF TAXATION IN THE PHILIPPINES

OBJECTIVES

- A. To have an in-depth knowledge relating to issues in Philippine taxation through history.
- B. To propose recommendations or solutions to present-day problems.
- C. To understand the root causes and how we anticipate future scenarios in Philippine setting.

Taxation is a reality that all citizens must contend with for primary reason that governments raise revenue from the people they govern to be able to functionally fully. Taxation, as a government mechanism to raise funds, developed and evolved through time, and in the context of the Philippines, we must understand that it came with our colonial experience.

The arrival of the Spaniards altered a subsistence economy, for which they imposed the payment of tributos (tributes) from the Filipinos. The purpose is to generate resources to finance the maintenance of the islands, such as salaries of government officials and expenses of the clergy. Reduction was introduced by the Spaniards by creating pueblos, to collect revenue from the Filipinos. Exempted from payment of tributos were the principals: alcaldes, gobernadores, cabezas de barangay, soldiers, and members of the civil guard, government officials, and vagrants. In the sixteenth century, the Manila-Acapulco trade was established through the galleons, a way by which the Spaniards could make sure that European presence would be sustained.

corporations Not for the first time we have reached a breaking point That happened in 1922 and again in 1954 and again in 1986 In other words every thirty two years Which means that the next complete overhaul is due in 2018 But what should be in this new tax code Can we make the U S tax system simpler fairer and more efficient Yes yes and yes Can we cut tax rates and still bring in more revenue Yes Other rich countries from Estonia to New Zealand to the UK advanced high tech free market democracies have all devised tax regimes that are equitable effective and easy on the taxpayer But the United States has languished So byzantine are the current statutes that by our government s own estimates Americans spend six billion hours and 10 billion every year preparing and filing their taxes In the Netherlands that task takes a mere fifteen minutes Successful American companies like Apple Caterpillar and Google effectively pay no tax at all in some instances because of loopholes that allow them to move profits offshore Indeed the dysfunctional tax system has become a major cause of economic inequality In A Fine Mess T R Reid crisscrosses the globe in search of the exact solutions to these urgent problems With an uncanny knack for making a complex subject not just accessible but gripping he investigates what makes good taxation no that s not an oxymoron and brings that knowledge home where it is needed most Never talking down or reflexively siding with either wing of politics T R Reid presses the case for sensible root and branch reforms with a companionable ebullience This affects everyone Doing our taxes will never be America s favorite pastime but it can and should be so much easier and fairer
