Krischke,Alexandra K. Becnel,2024-01-10 This is the only book in existence that discusses the process of documenting an investigation from start to finish It presents just about everything an investigator needs to know regarding how to document an investigation This new edition builds upon the principles outlined in the first edition but the new edition has a criminal defense bent with numerous case examples provided that include insurance claims and civil litigation criminal defense murders sexual assaults and other serious felonies particularly wrongful convictions These require meticulous documentation Proper documentation matters most in criminal cases This book therefore will focus also on the rights of those accused of crimes The first chapter discusses the five primary principles of investigative documentation taking comprehensive notes documenting every effort to contact witnesses and all surveillance preparing reports whenever there is any possibility of needing to testify taking verbatim statements from hostile witnesses and declarations from friendly witnesses and providing all case documents to the client or maintaining a document retention plan The second chapter details the numerous misconceptions pertaining to investigative documentation This chapter sets the stage for the remaining chapters on note taking running resumes reports statements and documentation retention Each chapter is broken down into four or five sections that approximate the methods used to complete that particular documentary endeavor The book also contains an exhaustive appendix that many investigators will find to be very useful This is an advanced book for people who already have the necessary skills to do an investigation By following the principles outlined in this book investigators will see the quality of their investigations improve markedly and ultimately be more successful Although the authors have chosen to refocus the second edition on criminal defense investigations where proper documentation is most important the principles herein remain the benchmark of how to document any investigation in the private sector *Lemon-Aid New Cars and Trucks 2013* Phil Edmonston,2012-12-01 Canada s automotive Dr Phil says there s never been a better time to buy a new car or truck thanks to a stronger Canadian dollar a worldwide recession driving prices downward and a more competitive Japanese auto industry that s still reeling from a series of natural disasters

Research Handbook on the Law of Artificial Intelligence Woodrow Barfield, Ugo Pagallo, 2018-12-28 The field of artificial intelligence AI has made tremendous advances in the last two decades but as smart as AI is now it is getting smarter and becoming more autonomous This raises a host of challenges to current legal doctrine including whether AI algorithms should count as speech whether AI should be regulated under antitrust and criminal law statutes and whether AI should be considered as an agent under agency law or be held responsible for injuries under tort law This book contains chapters from US and international law scholars on the role of law in an age of increasingly smart AI addressing these and other issues that are critical to the evolution of the field

The Smarter Startup Neal Cabage, Sonya Zhang, 2013-02-27 Why do some startups succeed while others do not In a maturing online market the cost of product development has fallen as quickly as competition has risen and building a viable product is no longer enough In this new reality entrepreneurs must take a smarter more strategic approach In this book we will discuss Why some entrepreneurs are luckier than others How to anticipate success or failure before you begin Why timing is everything for a startup Strategic positioning to beat the competition Building a business that cannot be commoditized Methods for Improving user engagement and profits This book was written by Neal Cabage and Sonya Zhang PhD after years of discussing and studying why some startups succeed By combining known academic models with personal insights from building and selling two online startups the authors answer the question of why some startups are more successful than others in order to help entrepreneurs reduce the risk of starting an online business
