The Assoluta Voice in Opera, 1797-1847 Geoffrey S. Riggs, 2003 It is unusual for styles in opera to carry over from one era into another It would be even more unusual for one era's characteristics to linger two generations into the next Yet this is precisely what happened during the first half of the nineteenth century when the intricacies of the fleet bel canto style were combined with the Romantic era's heroic declamation and formidable orchestral emphasis resulting in the creation of the assoluta voice This work traces the emergence of the impressive vocal writing that resulted from the marriage of the bel canto and Romantic eras It also covers the uniquely versatile divas who were given the opportunities to make their mark on opera from the time of Cherubini to that of a young Verdi Here both the wide ranging vocalism in the scores themselves and the artists capable of performing this style are referred to as assoluta Chapters consider Luigi Cherubini's Medee Gioacchino Rossini's Armida Carl Maria von Weber's Oberon Gaetano Donizetti's Anna Bolena Vincenzo Bellini's Norma Donizetti's Gemma di Vergy and Roberto Devereux the time of transition in the late 1800s and early 1900s and Giuseppe Verdi's Nabucco and Macbeth

Orique,2021-04-13 The Unheard Voice of Law in Bartolomé de las Casas's Brevísima relación de la destrucción de las Indias reinterprets Las Casas's controversial treatise as a legal document whose legal character is linked to civil and ecclesial genres of the Early Modern and late Renaissance juridical tradition Bartolomé de las Casas proclaimed I have labored to inquire about study and discern the law I have plumbed the depths and have reached the headwaters The Unheard Voice also plumbs the depths of Las Casas's voice of law in his widely read and highly controversial Brevísima relación a legal document published and debated since the 16th century This original reinterpretation of his Very Brief Account uncovers the juridical approach voiced in his defense of the Indigenous peoples of the Americas The Unheard Voice innovatively asserts that the Brevísima relación's legal character is intimately linked to civil and ecclesial genres of the late Renaissance juridical tradition This paradigm shifting book contextualizes the formation of Las Casas's juridical voice in canon law and theology initially as a secular cleric subsequently as a Dominican friar and finally as a diocesan bishop and demonstrates how his experienced juridical voice fought for justice in trans Atlantic debates about Indigenous peoples level of humanity religious freedom enslavement and conquest Reaching the headwaters of Las Casas's hitherto unheard juridical voice of law in the Brevísima relación provides readers with a previously unheard interpretation an appealing voice for readers and students of this powerful Early Modern text that still resonates today The Unheard Voice of Law is a valuable companion text for many in the disciplines of literature history theology law and philosophy who read Bartolomé de las Casas's Very Brief Account and study his life labor and legacy

The Human Voice Anne Karpf,2011-11-07 Why has the female voice deepened over the last fifty years Who talks more men or women How can a baby in the womb distinguish between

different voices The human voice is the personal and social glue that binds us and the most important sound in our lives The moment we open our mouth we leak information about our biological psychological and social status Babies use it to establish emotional ties and acquire language adults to decode mood and meaning in intimate and professional relationships Far from being rendered redundant by modern technology the human voice has enormous and enduring significance *Let This Voice Be Heard* Maurice Jackson, 2010-11-24 Anthony Benezet 1713-84 universally recognized by the leaders of the eighteenth century antislavery movement as its founder was born to a Huguenot family in Saint Quentin France As a boy Benezet moved to Holland England and in 1731 Philadelphia where he rose to prominence in the Quaker antislavery community In transforming Quaker antislavery sentiment into a broad based transatlantic movement Benezet translated ideas from diverse sources Enlightenment philosophy African travel narratives Quakerism practical life and the Bible into concrete action He founded the African Free School in Philadelphia and such future abolitionist leaders as Absalom Jones and James Forten studied at Benezet's school and spread his ideas to broad social groups At the same time Benezet's correspondents including Benjamin Franklin Benjamin Rush Abb Raynal Granville Sharp and John Wesley gave his ideas an audience in the highest intellectual and political circles In this wide ranging intellectual biography Maurice Jackson demonstrates how Benezet mediated Enlightenment political and social thought narratives of African life written by slave traders themselves and the ideas and experiences of ordinary people to create a new antislavery critique Benezet's use of travel narratives challenged proslavery arguments about an undifferentiated primitive African society Benezet's empirical evidence laid on the intellectual scaffolding provided by the writings of Hutcheson Wallace and Montesquieu had a profound influence from the high culture writings of the Marquis de Condorcet to the opinions of ordinary citizens When the great antislavery spokesmen Jacques Pierre Brissot in France and William Wilberforce in England rose to demand abolition of the slave trade they read into the record of the French National Assembly and the British Parliament extensive unattributed quotations from Benezet's writings a fitting tribute to the influence of his work Enjoying the Operatic Voice: A Neuropsychanalytic Exploration of the Operatic Reception Experience Carlo Zuccarini, 2019-03-30 There has been a long standing and mutually informing association between psychoanalysis literature and the arts Surprisingly given the oral aural basis of the talking cure music has largely been overlooked by psychoanalysis Notably neuroscientific research investigating music reception and production has been steadily increasing in range and scope over the years However in order to avoid confounding factors empirical studies have focused primarily on non vocal music Remarkably operatic vocal music has not featured prominently in either field Yet the multi dimensional multi layered nature of opera which fuses together a number of different arts would appear to provide fertile soil for both disciplines This book aims to fill that gap providing a stepping stone for further research It leverages the individual strengths of psychoanalysis and neuroscience both separately and jointly as the inter discipline of neuropsychanalysis By combining various theories of mind with knowledge about music

processing in the brain this book comprehensively examines the operatic reception experience providing an account in subjective as well as objective terms It explores the bittersweet enjoyment of operatic vocal music which can literally move an operaphile to tears The explanation for this may be found in a number of subjective dynamics that are unique to the reception of opera rather than in any distinct objective neural processes which are common to the reception of all music These subjective dynamics which are recruited during neural processing are triggered by the equally unique features of the operatic voice in combination with a number of auxiliary elements that are specific to opera This book will be of interest to academics in a broad range of science and arts disciplines related to music perception and performance such as music psychology and operatic performance It may also appeal to passionate operaphiles who wish to understand what drives their addiction

Voice and Non-union Workplace Paul J. Gollan,2005 The papers in this e book examine the development of non union employee relations practices and outcomes from an international perspective focusing on firms attempting to provide workers with a voice The papers draw primarily on in depth case studies as a means to assess the impact of voice arrangements on employee relations processes and outcomes

The Prophetic Voice of Amos on Contemporary Social Justice Patrick Kofi Amisah,2023-09-14 This volume comprehensively examines all texts dealing with social justice in the Prophecy of Amos It also provides evidence of contemporary systemic social injustice The volume then reflects on how biblical social justice is relevant to the contemporary quest for social justice This volume demonstrates that irrespective of the hermeneutical challenges the principles gleaned from the pages of the Hebrew

Bible can dialogue effectively with modern issues and deduce living principles that could enable us to deal with issues that confront us today It is thus a framework by which biblical social justice illuminates the contemporary quest for social justice

Hallucinations: New Interventions Supporting People with Distressing Voices and/or Visions Simon

McCarthy-Jones,,Mark Hayward,Flavie Waters,Iris E. Sommer,2016-12-04 Hallucinations can occur across the five sensory modalities auditory visual olfactory tactile and gustatory Whilst they have the potential to be benign or even highly valued they can often be devastating experiences associated with distress impaired social and occupational functioning self harm and suicide Those who experience hallucinations in this latter manner may do so within the context of a wide range of psychiatric diagnoses including schizophrenia bipolar disorder borderline personality disorder and post traumatic stress disorder The only routinely available interventions for people distressed by hallucinations are antipsychotic drugs which date from the introduction of chlorpromazine in the 1950s and manualized cognitive behavioral therapy which originated in the 1990s These interventions do not help all people distressed by hallucinations and in the case of antipsychotic medication come with notable side effects There has hence been great interest in new interventions to support people distressed by hallucinations The goal of this Frontiers Research Topic is to present a collection of papers on new developments in clinical interventions for those distressed by hallucinations In the psychiatric condition that remains most strongly associated with hallucinations schizophrenia the majority 70% of people will have experienced hallucinations in the auditory modality approximately a third will have experienced visual hallucinations and a smaller minority will have experienced hallucinations in other modalities Consistent with this prevalence this collection focusses on auditory and visual hallucinations This is not to minimise the potential distress that can occur from hallucinations in other modalities For example tactile hallucinations particularly when stemming from earlier experiences of sexual abuse can be highly distressing and improved ways to help sufferers of such experiences are also needed In summary this collection aims to result in an interdisciplinary collection of papers which will appeal to a wide readership spanning all with an interest in this area
