Americanness their trappedness in individualistic and secular Western thought A closer look at that history shows that Western thought and Chinese thought are mutually shaped in fascinating ways Exorcising Translation presents a major re envisioning of translation studies and indeed the literary relationship between East and West by a pioneering scholar in the field

The New Dimension of International Terrorism Stefan M. Aubrey, 2004 The events of September 11 2001 confronted the United States and the rest of the World with the reality of a new dimension of international terrorism This new dimension did not start nor end with the attacks against the World Trade Center or the Pentagon but began in the 1990s This study examines the new dimension of international terrorism contrasting it with the classical terrorism the predominantly left wing terrorist movements of the 1960s 1980s in Europe which were a subset of the bipolar geo political arena The author establishes the relationship of radical Islamist movements to the terrorist groups of the new dimension principally focusing on Al Qaeda in providing the motivation for committing catastrophic terrorist acts looks at the shadowy world of terrorist financing and makes suggestions regarding international counter terrorist strategies

History and Transactions Illinois State Historical Society, 1906 *Occasional Publications (Illinois State Historical Society)* Illinois State Historical Society, 1906 *Hankow* William T. Rowe, 1992-12-01 This is the second volume of a two volume social history of nineteenth century Hankow a city of over one million inhabitants and the commercial hub of central China In the first volume *Hankow Commerce and Society in a Chinese City 1796 1889 1984* the author emphasized the dynamism of late imperial commerce the relation of the metropolis to its hinterland and the corporate institutions of the city notably its guilds which assumed a number of functions we normally attribute to a municipal government In this volume the focus is on the people of Hankow in all their ethnic diversity occupational variety and constant mobility and on the social bonds that enabled this mass of people to live and work in a crowded city with much less disruptive social conflict than occurred in Hankow s counterparts in early modern Europe Built into the argument of the book is a running comparison nineteenth century Hankow with such cities as London and Paris in the somewhat earlier period when they too were experiencing the growing pains of nascent preindustrial capitalism How are we to account for the fact that the cities of early modern Europe were so much more prone to protest and social upheaval than Hankow was in a comparable stage of development The author finds the answer in the cultural hegemony of an activist elite that fostered moral consensus social harmony and an aura of solicitude for the well being of residents at every social level exemplified in such service institutions as poor relief firefighting and public security Toward the end of the nineteenth century however the social bonds that had held Hankow together were beginning to fragment as social polarization and growing class consciousness fostered an atmosphere of increasing unrest

Figurative Language Dmitrij Dobrovol'skij, Elisabeth Piirainen, 2021-11-08 The book develops a Theory of the Figurative Lexicon Units of the figurative lexicon conventional figurative units CFUs for short differ from all other elements of the language in two points Firstly they are conventionalized That is they are elements of the mental lexicon in contrast to freely created figurative expressions Secondly they consist of two conceptual levels they can be interpreted at the level of their literal reading and at the level of their figurative meaning which both can be activated simultaneously New insights into the Theory of Figurative Lexicon relate on the one hand to the metaphor theory Over time it became increasingly clear that the Conceptual Metaphor Theory in the sense of Lakoff can only partly explain the conventional figurativeness On the other hand it became clear that intertextuality plays a far greater role in the CFUs of Western cultures than previously assumed The book s main target audience will be linguists researchers in phraseology paremiology and metaphor and cultural studies The data and explanations of the idioms will provide a welcome textbook in courses on linguistics culture history phraseology research and phraseodidactics **The North British Review** , 1860
