specialized primary journal and the abstracting services at the turn of the century The information analysis center concept was greatly advanced by the 1963 report of the President's Science Advisory Committee Panel on Science Information This report stated scientific interpreters who can collect relevant data review a field and distill information in a manner that goes to the heart of a technical situation are more help to the overburdened specialist than is a mere pile of relevant documents Such specialized information centers are operated in closest possible contact with working scientists in the field These centers not only furnish information about ongoing research and disseminate and retrieve information but also create new information and develop new methods of information analysis synthesis and dissemination The continually expanding biomedical literature produced by scientists from the world's laboratories research centers and medical centers led the National Institute of Neurological Diseases and Stroke in 1964 to initiate a National Neurological Information Network of specialized centers for neurological information The Centers are designed to bring under control and to promote ready access to important segments of the literature
