Comedy of Errors Carol Evans, 2015-07-31 This first book takes me from my early days at the Australian Defence Force Academy when considering women to be equal in the forces was relatively new Similarly the Australian Defence Force Academy was still generally a new establishment with the doors opening in 1986 I arrived in 1999 when it was the first year that there was such a high number of females in the intake The years at the Australian Defence Force Academy were unique for a female and in some respects quite challenging These challenges provided the grounding for our future careers This first part takes me from my Australian Defence Force Academy days my introduction to sea life and participation in development of policy for ships and submarine being designed for the embarkment of women my life at sea and future life in intelligence I was to go on to be the senior watch officer and acting operations officer for the Australian Joint Intelligence Centre Watch Floor where I was briefing admirals and generals on a daily basis I also gained some valuable NSW police friends that provided me with unique experiences at a time they were going under corruption review It was a challenging road where I worked alongside clearance divers and submariners experienced sexual abuse and was later rewarded with a representational posting to Hawaii Along my journey I have met some remarkable people and some manipulators that hid behind the uniform It was these very experiences I believe that led to my change in life which can only be described as a comedy of errors with myself ending up in the Middle East basically living on the streets after completing seventeen years in the Royal Australian Navy Intelligence Master of Islamic Studies and Masters of International Relations Nuclear Security and being placed in prison in Austria only to end up working for the Australian government in Australia training corrections staff and prisoners and again facing life on the streets Apparently my studies experiences and skills do not mean anything in Australia

River City and Valley Life Christopher J. Castaneda, Lee M.A. Simpson, 2013-12-09 Often referred to as the Big Tomato Sacramento is a city whose makeup is significantly more complex than its agriculture based sobriquet implies In River City and Valley Life seventeen contributors reveal the major transformations to the natural and built environment that have shaped Sacramento and its suburbs residents politics and economics throughout its history The site that would become Sacramento was settled in 1839 when Johann Augustus Sutter attempted to convert his Mexican land grant into New Helvetia or New Switzerland It was at Sutter's sawmill fifty miles to the east that gold was first discovered leading to the California Gold Rush of 1849 Nearly overnight Sacramento became a boomtown and cityhood followed in 1850 Ideally situated at the confluence of the American and Sacramento Rivers the city was connected by waterway to San Francisco and the surrounding region Combined with the area's warm and sunny climate the rivers provided the necessary water supply for

agriculture to flourish The devastation wrought by floods and cholera however took a huge toll on early populations and led to the construction of an extensive levee system that raised the downtown street level to combat flooding Great fortune came when local entrepreneurs built the Central Pacific Railroad and in 1869 it connected with the Union Pacific Railroad to form the first transcontinental passage Sacramento soon became an industrial hub and major food processing center By 1879 it was named the state capital and seat of government In the twentieth century the Sacramento area benefitted from the federal government's major investment in the construction and operation of three military bases and other regional public works projects Rapid suburbanization followed along with the building of highways bridges schools parks hydroelectric dams and the Rancho Seco nuclear power plant which activists would later shut down Today several tribal gaming resorts attract patrons to the area while Old Sacramento revitalizes the original downtown as it celebrates Sacramento's pioneering past This environmental history of Sacramento provides a compelling case study of urban and suburban development in California and the American West As the contributors show Sacramento has seen its landscape both ravaged and reborn As blighted areas rail yards and riverfronts have been reclaimed and parks and green spaces created and expanded Sacramento's identity continues to evolve As it moves beyond its Gold Rush Transcontinental Railroad and government town heritage Sacramento remains a city and region deeply rooted in its natural environment
