Tax Management And Tax Evasion New Horizons In Management Sciences:

Tax Management and Tax Evasion Konrad Raczkowski, Lukasz Sulkowski, 2014 The authors of this volume outline the issues of managing taxes and tax evasion mainly with a focus on the European Union in general and Poland in particular Tax management and tax evasion represent an intrinsic element of economic turnover an area of interest both to the institutional and to the real spheres of national economy *Justice, Equality and Tax Law* Nevla Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master s theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic *The New Horizon of China's Economic Law Theory* Shouwen Zhang, 2020-10-26 This book presents the development and reformation of economic law in China and explores the three relationships between the government and market between reform and rule of law and between the constitution and economic law On this basis it subsequently focuses on development theory distribution theory risk theory and crisis theory Further it addresses effective development fair distribution and prevention and resolution of related risks and crises which are important functions of economic law In order to achieve the above functions and objectives the book argues we must vigorously promote the integration of rule of law in economic law and constantly refine the theory of economic rule of law employed in China The book demonstrates that no matter how the three major relationships are adjusted or the relevant systems are reformed i e regarding the implementation of the concept of

coordinated development or the optimization of economic structures the solution of distribution problems or the improvement of distribution systems the prevention of risks or the response to crises any such changes depend on economic rule of law The above mentioned theoretical discussion presents a new horizon of contemporary Chinese economic law theory which will be of great value to the future development of economic law theory *Malaysia's Taxation System* Mohamed Ariff, Yeah Kim Leng, 2023-09-05 Malaysia's Taxation System Contemporary Practices Issues and Future Direction offers a clear and concise analysis of Malaysia's taxation system in terms of its origin and its adaptation to changing economic and social conditions With unique insights from experienced legal accounting and tax practitioners and eminent academics this book highlights the need for a holistic review of the taxation system going forward as the country strives for high income status in the near future **Proceedings of the 2023 3rd International Conference on Financial Management and Economic Transition (FMET 2023)**

Vilas Gaikar, Min Hou, Yan Li, Yan Ke, 2023-10-13 This is an open access book 2023 3rd International Conference on Financial Management and Economic Transition FMET 2023 will be held on August 18 20 2023 in Changsha China At present the global economic situation is complex the recovery prospects are not clear and the economic growth rate is slowing down which is at the key stage of transforming the economic development mode and industrial transformation and upgrading With the transformation of the mode of economic development various problems and contradictions coexist and the problems of imbalance uncoordinated and unsustainable development are prominent The contradiction between the downward pressure on economic growth and the relative overcapacity has intensified The problems of rising production and operation costs and insufficient innovation capacity coexist The contradiction between the slow growth of fiscal revenue and the increase of government rigid expenditure is prominent The irrational industrial structure the weak agricultural foundation the increasingly acute contradiction between economic development and resources and environment the large gap between urban and rural areas regional development and income distribution of residents and the obvious increase of social contradictions which are related to the vital interests of the public The economy and society are facing a series of opportunities and challenges Therefore it is expected to clarify the obstacles and obstacles to sustainable development and launch measures to deepen reform Macroeconomic growth and its development are highly correlated with the development of enterprises at the microeconomic level Since the outbreak of the international financial crisis the economy especially the real economy has faced the current situation of declining growth rate weak demand rising costs and shrinking profits The essence behind this phenomenon is the difficult problem of structural adjustment and transformation of development mode Now we need to transform to the path of refined and scientific management and achieve higher labor efficiency output with less resource input and lower capital consumption Through numerous micro economies we have achieved a wide ranging transformation of growth thus promoting the transformation of the national economy Among them financial management is of great significance We sincerely invite you to participate in FMET 2023 to

discuss the relationship and development direction between economic transformation and financial upgrading **Modeling and Profiling Taxpayer Behavior and Compliance** Alj, Bouchra, Alla, Lhoussaine, Bentalha, Badr, 2025-04-23 In a society where there is mounting pressure on public finances exacerbated by recurring economic crises the issue of tax compliance becomes a significant topic of discussion in the academic political and social spheres It plays a pivotal role in ensuring fiscal stability social justice and economic stability However governments around the world face an increasing prevalence of tax evasion more sophisticated tax optimization practices the complexity of tax regimes and a growing distrust of institutions by citizens These challenges test the capacity of governments to ensure a stable and fair tax base Modeling and Profiling Taxpayer Behavior and Compliance explores the major challenges of tax compliance through the lens of taxpayer behavior shaped by a multitude of economic psychological sociological cultural institutional legal political and technological factors It examines the factors that influence the way individuals and companies comply with their tax obligations Covering topics such as tax morality communication strategies and creative accounting this book is an excellent resource for tax inspectors lawyers and advisors auditors accountants policymakers legislators business leaders entrepreneurs researchers academicians and more Factors Influencing Individual Taxpayer Compliance Behaviour Ken Devos, 2013-09-30 This volume provides a comprehensive analysis of why taxpayers behave the way they do It reveals the motivations for why some taxpayers comply with the law while others choose not to comply Given the current global financial climate there is a need for governments worldwide to increase their revenue collections via improving taxpayer compliance Research into what shapes and influences taxpayer behavior is critical in that any marginal improvement in understanding and dealing with this behavior can potentially have a dramatic impact upon government revenue Based on Australian data derived from the data bases of the Australian Taxation Office as an example this book presents findings that provide lessons for tax systems around the world Regardless of the type of tax system in place taxpayers of all nationalities are concerned about how their tax authorities deal with non compliance and in particular how the tax authorities go about encouraging compliance and ensuring a fair tax system for all The book presents empirical evidence concerning taxpayer compliance behavior with particular attention being drawn to the moral values of taxpayers the perceived fairness of the tax system and the deterrent measures undertaken by revenue authorities which influence that behavior Other issues examined include the degree to which tax penalties operate as an effective deterrent to curbing behavior and how taxpayers level of general tax knowledge and awareness also impacts upon their actions *Taxation and Management of Natural Resources in Africa* Mohammed Amidu, Abdallah Ali-Nakyea, Joshua Yindenaba Abor, 2024-05-20 This book offers a comprehensive examination of the fundamental concepts and principles crucial to the taxation and management of natural resources specifically tailored to the unique challenges faced by developing African countries It delves into the key instruments that comprise a resource tax policy providing invaluable insights into the tax reforms necessary to maximize economic rent for African nations Written by

experts in the field this book explores the potential application of effective revenue management principles by African governments to achieve desired developmental outcomes It covers a wide range of topics including socio political risks ethical dilemmas accountability and transparency resource rent and capital gains taxes tax administration and reforms taxation of oil and gas revenue environmental taxation globalization s impact and the promotion of inclusive development Designed for scholars tax professionals and individuals interested in natural resources management and revenue mobilization strategy in Africa this book bridges the gap between theory and practice providing valuable insights and recommendations for sustainable and responsible management of Africa s rich natural resources

Modelling and Simulation in Management Sciences Joan Carles Ferrer-Comalat,Salvador Linares-Mustarós,José M. Merigó,Janusz Kacprzyk,2019-03-18 This book includes a collection of selected papers presented at the International Conference on Modelling and Simulation in Engineering Economics and Management held at the Faculty of Economics and Business at the University of Girona Spain 28 29 June 2018 The conference was organized by the Association for the Advancement of Modelling and Simulation Techniques in Enterprises AMSE and the University of Girona with the aim of promoting research in the field of modelling simulation and management science This book presents original research studies related to fuzzy logic soft computing and uncertainty as well as a number of papers in the field of bibliometrics in social sciences Presenting new advances in these areas with a special focus on management economics and social sciences It is of great interest to researchers and Ph D students working in the field of fuzzy logic soft computing uncertainty and bibliometrics

The New Wealth Management Harold Evensky,Stephen M. Horan,Thomas R. Robinson,2011-05-03 Mainstay reference guide for wealth management newly updated for today s investment landscape For over a decade The New Wealth Management The Financial Advisor s Guide to Managing and Investing Client Assets has provided financial planners with detailed step by step guidance on developing an optimal asset allocation policy for their clients And it did so without resorting to simplistic model portfolios such as lifecycle models or black box solutions Today while The New Wealth Management still provides a thorough background on investment theories and includes many ready to use client presentations and questionnaires the guide is newly updated to meet twenty first century investment challenges The book Includes expert updates from Chartered Financial Analyst CFA Institute in addition

to the core text of 1997's first edition endorsed by investment luminaries Charles Schwab and John Bogle. Presents an approach that places achieving client objectives ahead of investment vehicles. Applicable for self study or classroom use. Now as in 1997, The New Wealth Management effectively blends investment theory and real world applications. And in today's new investment landscaped, this update to the classic reference is more important than ever.

New Challenges of the Global Economy for Business Management Sebastian Kot, Bilal Khalid, Adnan ul Haque, 2025-06-17. This book features a curated selection of works from the Global Conference on Entrepreneurship and Economy in an Era of Uncertainty (EEEU 24) organized by the International Research Center for Higher Education and Business Cooperation based in Poland in collaboration with academic partners Czestochowa University of Technology, Swinburne University of Technology, Vietnam and King Mongkut's Institute of Technology Ladkrabang, Thailand. It explores the critical role of entrepreneurship in the digital age, emphasizing the necessity of innovation for businesses to withstand global crises such as pandemics and geopolitical tensions that adversely affect the economy. The book aims to illuminate the transformative effect of digital innovation on fostering entrepreneurial ventures and emphasizes the significance of adept organizational management in nurturing and sustaining successful businesses. The book highlights the influential impact of digital innovation on entrepreneurial success and the importance of organizational management in maintaining a thriving business. It covers topics such as the synergy between innovation and entrepreneurship, promoting sustainability in business practices, integrating supply chain and logistics management, and enhancing educational pursuits through entrepreneurial activities. Aimed at providing valuable and practical insights for scholars and practitioners interested in the intersection of innovation, disruption, and entrepreneurship, this book sheds light on how emerging technologies and innovations are reshaping entrepreneurship and corporate governance, thereby enriching the knowledge base for those invested in the evolving dynamics of business and innovation.

Business and the Ethical Implications of Technology Kirsten Martin, Katie Shilton, Jeffery Smith, 2022-11-09. This book focuses on how firms should engage ethical choices in developing and deploying digital technologies. Digital technologies are devices that rely on rapidly accelerating digital sensing, storage, and transmission capabilities to intervene in human processes. While the ethics of technology is analyzed across disciplines from science and technology studies, STS, engineering, computer science, critical management studies, and law, less attention is paid to the role that firms and managers play in the design, development, and dissemination of technology across communities and within their firm. This book covers the topic from three angles: First, it illuminates diverse facets of the intersection of technology and business ethics. Second, it uses themes to explore what business ethics offers to the study of technology, and third, what technology studies offers to the field of business ethics. Each field brings expertise that together improves our understanding of the ethical implications of technology.

Taxation John Hasseldine,2024-06-20 Volume 31 of Advances in Taxation includes studies from expert contributors exploring topics such as firms domestic and foreign effective tax rates tax avoidance and tax compliance A study reviews prior literature on tax increment financing an economic development tool frequently used by U S local governments

Exploring the Roots of Systematic Tax Avoidance in Greece Zoi Pittaki,2021-07-01 This book explores the interaction between business and the system of taxation in Greece from the mid 1950s up to 2008 the year that marked the eve of the economic crisis the country faced in the aftermath of the international financial crisis of 2007 The evidence presented confirms William Baumol s point about how taxation affects entrepreneurship That is it is shown that Baumol was right when indicating that problematic tax rules can lead to unproductive forms of entrepreneurship such as tax evasion However the focus here is on aspects of the system of taxation that Baumol s model examining solely tax rates and levels of taxation neglected This book shows that as far as Greek entrepreneurship is concerned the adverse effects of the system of taxation came mostly from a series of issues that increased its perceived unfairness and illegitimacy The way that the tax system functioned also increased uncertainty which was anything but beneficial for investing in business This book contributes to the current debates about the Greek economy and the causes of the crisis affecting the country In this respect it also throws light on the big issue of tax evasion burdening the country s fiscal system However the research also belongs to the wider literature examining entrepreneurship from a business history perspective to that focusing on the relation between entrepreneurship and institutions to the debates regarding the ways entrepreneurship is affected by the socio political and economic environment but also to institutional analyses about taxation *New Horizon* ,2007 **Cutting-Edge Solutions for Advancing Sustainable Development: Exploring Technological Horizons for Sustainability - Part 1** Pawan Whig, Pavika Sharma, Nikihita Yathiraju,2025-03-14 Cutting Edge Solutions for Advancing Sustainable Development Exploring
