November 9, 1955 United States. Congress. Joint Economic Committee,1956 **Taxation and Economic Development** John Toye,2023-06-16 First published in 1978

The tax system is one of the instruments said to be available to translate development policy objectives into practice The wide ranging papers collected together in this volume first published in 1978 explore different aspects of the link between national development objectives and the tax system Attention is particularly focused on traditional aims such as growth fair distribution and economic stabilisation and development Articles written by distinguished experts in the fields of public finance and economic development clarify the concepts of taxable capacity and tax effort and examine the connections between growth and changes within the tax system *OECD Tax Policy Studies Tax Policy Reform and Economic Growth* OECD,2010-11-03 This report investigates how tax structures can best be designed to support GDP per capita growth

The Impact of Local Tax Policy on Urban Economic Development Roy W. data on relative prices for a large set of countries Using these data in cross country regressions it examines how economic growth is affected by relative prices The results of these empirical tests identify the relative prices as a key factor affecting investment and growth

Tax Policy for Economic Recovery and Sustainable Development After COVID-19 Tetiana Kaneva, Igor Chugunov, Mykola Pasichnyi, Nikitishin Andriy, Nataliia Husarevych, 2022 The optimal taxation level and tax structure depend on numerous factors and enormously differ from country to country However the two mentioned tax policy instruments could ensure economic recovery and sustainable economic growth This article aims to examine the effects of tax policy on economic development and evaluate the role of appropriate tax instruments in speeding up recovery The results showed that tax level harms the GDP per capita growth rate in Central Europe and Baltic states over the 2000-2021 period Another vital finding is the increase in both overall employment and investment to GDP ratio positively affected the real GDP per capita growth rates In order to foster economic growth government might use tax cuts and other stimuli both for distortionary and non distortionary taxes The tax policy's institutional potential should be improved to neutralize the adverse effects of COVID-19 impact and enhance macroeconomic sustainability
