avalanche in America known simply as the nones thereby joining the ranks of the religiously unaffiliated dubbed the church alumni association or perhaps more accurately believers in exile by Anglican Bishop John Shelby Spong Research shows that during the first two decades of the twenty first century a seismic shift occurred in the U S population away from religious institutions and toward disaffiliation While the causes and effects of this dislocation are varied and numerous by 2015 the phenomenon of shrinking faith communities was so widespread that nones became the third largest religious identity in the world behind Christians and Muslims Today there are more religious nones than Catholics or evangelicals and 36 percent of those born after 1981 do not identify with any religion Does this shift mark a loss of spirituality or do these changes point to a new global religious awakening one that affirms religious pluralism and views faith relationally rather than dogmatically as a way of the heart and not of the head While some Christians are staying put experiencing the current shift in traditional church settings this book proposes a new understanding of the church a new pattern and vision for Christian living and thinking that can transform our understanding of God others nature and ourselves Useful for individual or church study each chapter of *The Church Alumni Association* concludes with questions for discussion and reflection **The Practical Guide**
