A Short History of the Arabs Francesco Gabrieli, 1965

The Arabs Heinz Halm, 2007 The history of Arabia is inextricably tied to the history of Islam The Prophet Muhammad came from Arabia and the most important religious centers for Muslims are located in the Arab cities of Mecca and Medina However Arabs already had a history reaching back over one and a half millennia when Muhammad entered the stage Since the ninth century B C E they had been an integral force in determining the fate of the Middle East establishing themselves as a major power in the seventh century C E and with the rise of the caliphate expanding the borders of the Arab world far beyond the Middle East into North Africa and Spain and even into France Since that time Arab history has been intimately connected with European history Medieval European arts and sciences would have been unthinkable without the brilliant culture of the Arab empire Only in the modern era has this relationship been marked by a growing European hegemony which continues to encumber relations between the West and the Arab world to the present day In this volume Heinz Halm offers a compact and comprehensible overview of the history and culture of the Arabs from the first references in the inscriptions of Assyrian kings to the most recent developments of contemporary Arab nations

A Short History of

Medicine Erwin H. Ackerknecht, Lisa Haushofer., 2016-04-29 Erwin H Ackerknecht's A Short History of Medicine is a concise narrative long appreciated by students in the history of medicine medical students historians and medical professionals as well as all those seeking to understand the history of medicine Covering the broad sweep of discoveries from parasitic worms to bacilli and x rays and highlighting physicians and scientists from Hippocrates and Galen to Pasteur Koch and Roentgen

Ackerknecht narrates Western and Eastern civilization's work at identifying and curing disease. He follows these discoveries from the library to the bedside hospital and laboratory illuminating how basic biological sciences interacted with clinical practice over time. But his story is more than one of laudable scientific and therapeutic achievement. Ackerknecht also points toward the social, ecological, economic, and political conditions that shape the incidence of disease. Improvements in health, Ackerknecht argues, depend on more than laboratory knowledge; they also require that we improve the lives of ordinary men and women by altering social conditions such as poverty and hunger. This revised and expanded edition includes a new foreword and concluding biographical essay by Charles E. Rosenberg, Ackerknecht's former student and a distinguished historian of medicine. A new bibliographic essay by Lisa Haushofer explores recent scholarship in the history of medicine.

Charles E. Rosenberg, Harvard University author of *Our Present Complaint: American Medicine Then and Now* [A Short History of the Arab Peoples](#) Sir John Bagot Glubb, 1988. An abridged history gleaned from years of military service as Commander of the Arab legion **A Short History of the Fatimid Khalifate** De Lacy O'Leary, 1923 *A Short History of the Saracens* Syed Ameer Ali, 1899. Saracen was a name employed by medieval writers to describe the Muslims of Syria and Palestine and the Arab rulers of North Africa, generally especially those conquerors of Spain and Sicily and the invaders of France. Later the name was applied to all those peoples against whom the crusades were preached, and it is with these events that the term Saracen is most popularly connected. Saladin proclaimed sultan in 1174 was the most prominent leader of this period, and in many ways he can be said to typify the Saracenic qualities: courage, wisdom, magnanimity. However, the crusader period covered but a small part of Saracen history, which indeed can be said to extend from pre-Islamic Arabia. Spain itself saw eight centuries of Saracen rule. In *A Short History of the Saracens*, Ameer Ali examines every aspect of these extraordinary people. Few writers in the decades since this work was first published in 1899 have presented a more complete account. For this reason, both historians and students of the period will welcome its republication. This book first published in 1948 grew out of a series of lectures delivered since the War at the Middle East Centre for Arab Studies to British students who required a solid grounding in Middle East history and politics to assist in fitting them for active careers in the region. These lectures by a leading specialist on Middle Eastern history generated such interest that they were adapted and published in book form for a wider reading public. The book forms a comprehensive introduction to the history of the Middle East. [The History of Arab - Jewish Conflict](#) Dr. P. J. Vincent, 2019-11-22.
