Fritz,2007-10-29 *American Sovereigns* The People and America s Constitutional Tradition Before the Civil War challenges traditional American constitutional history theory and jurisprudence that sees today s constitutionalism as linked by an unbroken chain to the 1787 Federal constitutional convention *American Sovereigns* examines the idea that after the American Revolution a collectivity the people would rule as the sovereign Heated political controversies within the states and at the national level over what it meant that the people were the sovereign and how that collective sovereign could express its will were not resolved in 1776 in 1787 or prior to the Civil War The idea of the people as the sovereign both unified and divided Americans in thinking about government and the basis of the Union Today s constitutionalism is not a natural inheritance but the product of choices Americans made between shifting understandings about themselves as a collective sovereign

Poor's Cumulative Service ,1927 **The Troublesome Legacy of Commissioner Lin** Joyce A. Madancy,2020-03-23 In 1908 a very public crusade against opium was in full swing throughout China and the provincial capital and treaty port of Fuzhou was a central stage for the campaign This the most successful attempt undertaken by the Chinese state before 1949 to eliminate opium came at a time when according to many historians China s central state was virtually powerless This

volume attempts to reconcile that apparent contradiction The remarkable albeit temporary success of the anti opium campaign between 1906 and 1920 is as yet largely unexplained How these results were achieved how that progress was squandered and why China s opium problem proved so tenacious are the questions that inspired this volume The attack on this social problem was led by China s central and provincial authorities aided by reformist elites and seemingly supported by most Chinese The anti opium movement relied on the control and oversight provided by a multilayered state bureaucracy the activism and support of unofficial elite led reform groups the broad nationalistic and humanitarian appeal of the campaign and the cooperation of the British government The extent to which the Chinese state was able to control the pace and direction of the anti opium campaign and the evolving nature of the political space in which elite reformers publicized and enforced that campaign are the guiding themes of this analysis
