Japan's Relations with Muslim Asia B. Bryan Barber,2019-12-10 This book offers a useful and extensive account of Japan's past discoveries and present interactions with Muslim states and societies across Asia. Bearing in mind the U.S. led global meta narrative of Islam spoken in tandem with security and threats, this book examines how this reconciles with Japan's self-proclaimed values-based approach to diplomacy across Asia in the twenty-first century. The author considers Japan's historic conceptualization and learning of Islam and its acute needs for access to markets and energy from Muslim majority states in Asia. He also argues that Japan securitizes Islam in a manner distinct from Western Russian or Chinese securitization today but that Japan promotes itself as a model for human security and development across an Asia inclusive of Muslim states. Japan's approach to Islam and Muslim societies today offers much from which other great powers can learn.

Leigh Neville,2017-10-19 The Munich Olympics massacre in 1972 was a shock awakening to the public. In the decades since, European countries have faced a wide range of threats from Palestinian and home-grown terrorists to the more recent world-wide jihadists. The threats they pose are widespread, from aircraft hijacking and political assassinations to urban warfare against security forces and murderous attacks on civilian crowd targets, forcing governments to invest ever greater efforts in countering these threats. This book traces the evolution of police and associated military counter-terrorist forces across Europe over the past 45 years. Using specially commissioned artwork and contemporary photographs, it details their organization, missions, specialist equipment, and their growing cross-border cooperation. **The Washington Post Index**
