Advances in Nanotechnology Research and Application: 2012 Edition, 2012-12-26 *Advances in Nanotechnology Research and Application 2012 Edition* is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Nanotechnology The editors have built *Advances in Nanotechnology Research and Application 2012 Edition* on the vast information databases of ScholarlyNews You can expect the information about Nanotechnology in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Advances in Nanotechnology Research and Application 2012 Edition* has been produced by the world's leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>

Materials Science and Engineering: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2017-01-11 The design and study of materials is a pivotal component to new discoveries in the various fields of science and technology By better understanding the components and structures of materials researchers can increase its applications across different industries *Materials Science and Engineering Concepts Methodologies Tools and Applications* is a compendium of the latest academic material on investigations technologies and techniques pertaining to analyzing the synthesis and design of new materials Through its broad and extensive coverage on a variety of crucial topics such as nanomaterials biomaterials and relevant computational methods this multi volume work is an essential reference source for engineers academics researchers students professionals and practitioners seeking innovative perspectives in the field of materials science and engineering

Emerging Technologies in Non-Destructive Testing V Alkiviadis S. Paipetis, Theodore E. Matikas, Dimitrios G. Aggelis, Danny Van Hemelrijck, 2012-01-26 Non destructive evaluation NDE methods have dominated most of the fields of applied research and technology over the last twenty years These techniques provide information on the functional efficiency of materials and structures without causing any structural impact on the structure itself Their use enables the monitoring of the structural integrity the structural condition as well as the service induced degradation of materials and structures during their service life In this respect they address a vast field of applications ranging from the aerospace and automotive industry to civil engineering structures and material quality control This volume comprises scientific papers presented during the Fifth Conference on Emerging Technologies in Non Destructive Testing Ioannina Greece 19-21 September 2011 A broad spectrum of related research was presented during the course of the conference including optical acoustic thermal electrical and electromagnetic methods together with imaging tomographic and signal processing techniques Special attention was given to NDE for Civil Engineering Structures and for the first time in the conference series a multiple session on NDE for the protection of cultural heritage was organized Emerging Technologies

in Non Destructive Testing V contains contributions by experts in this field from 22 different countries worldwide Reflecting the state of the art in Non Destructive Evaluation the book will prove to be a valuable companion to students engineers and industrial partners who are active in the field of non destructive evaluation and testing This volume will also provide students and researchers with insight into the focal points of contemporary research efforts in the field of non destructive evaluation

The Forgotten Teboho Pitso, 2023-05-20 The book focuses on uncovering lies and myths that sustain the colonial and European supremacist agendas and restores Africa's role in originating civilisation science mathematics philosophy spirituality and Christianity It forms part of questioning the deification of Global North episteme as a universal theory The volume thus contributes to Southern theorisation that draws from multiple practices and lived experiences of those from the austral geographic location Global South whose understanding of time is secular Such theorisation challenges and denounces the imperialist gaze on contemporary science as the sole spectacle and arbiter of its significance in society The Global South episteme whose sources are indigenous practices collective knowing and collective experiences has all the right to claim its stake in hallowed spaces of knowledge production

Advances in Computer, Information, and Systems Sciences, and Engineering Khaled Elleithy, Tarek Sobh, Ausif Mahmood, Magued Iskander, Mohammad A. Karim, 2007-06-06 The conference proceedings of International Conference on Industrial Electronics Technology not only the reviewing submissions and registration processes but also the actual conference Conference participants authors presenters and attendees only needed an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground breaking conference The on line structure of this high quality event allowed academic professionals and industry participants to contribute work and attend world class technical presentations based on rigorously refereed submissions live without the need for investing significant travel funds or time out of the office Suffice to say that CISSE received submissions from more than 50 countries for whose researchers this opportunity presented a much more affordable dynamic and well planned event to attend and submit their work to versus a classic on the ground conference The CISSE conference audio room provided superb audio even over low speed internet connections the ability to display PowerPoint presentations and cross platform compatibility the conferencing software runs on Windows Mac and any other operating system that supports Java In addition the conferencing system allowed for an unlimited number of participants which in turn granted CISSE the opportunity to allow all participants to attend all presentations as opposed to limiting the number of available seats for each session The implemented conferencing technology starting with the submission review system and ending with the online conferencing capability allowed CISSE to conduct a very high quality fulfilling event for all participants See www.cissee2005.org sections IETA TENE EIAE

Operations and Management Principles for Contact Centres Esther Hoffmann, Dennis Farrell, Neil Lilford, Mariaan Ellis, 2008-09 Several South African agencies institutes organizations and professional bodies are promoting and developing contact center operations in order to satisfy

international and national market demands Accordingly additional information knowledge and experience are needed to improve on how organizations integrate core business processes into these contact centers Responding to this need the industry is now being represented in higher education Featuring sections on managing contact center performance recruiting training and motivating staff and customer relations management this comprehensive course guide cowritten by several experts in the field is ideal for institutions offering courses for contact center agents and anyone working in the contact center industry

Software Engineering Research in System Science Radek Silhavy,Petr Silhavy,2023-07-08 The latest advancements in software engineering are featured in this book which contains the refereed proceedings of the part of the 12th Computer Science Online Conference 2023 CSOC 2023 held online in April 2023 The software engineering research in system science session is focusing on the importance of software engineering in the field of system science This section provides a platform for researchers to share their insights on modern research methodologies machine learning and statistical learning techniques in software engineering research The session provides a unique opportunity for researchers and industry experts to explore the latest trends in software engineering and inspire future research directions This session brings together experts from different fields to present their research and discuss the latest challenges and opportunities One of the key themes of this session is the application of artificial intelligence in software engineering Researchers are exploring how techniques can be used to automate various aspects of software engineering such as testing debugging and maintenance This helps improve the quality and efficiency of software development processes

Potentiality of “Kinyankole” Cultural-Resources, Practices for Promotion of Tourism, Uganda Mackline Ninsiima,Njue Michael,2025-07-13 The book is set out to present the potential of Kinyankole cultural resources practices for promotion as a tourism product in Uganda The book has been developed using data collected from a study that took place in Mbarara and Kiruhura districts in Uganda in East Africa for the period ranging 2020 and 2021 East Africa and aimed to achieve the following specific goals to identify Kinyankole cultural resources that can be included in tourism products to look into Kinyankole practices that can be part of tourism products and to uncover untapped aspects of Kinyankole culture that could be added to tourism products The book is dividend in to four chapters Chapter one which introduces the book chapter two with literature review Chapter three presents methodology and analysis of data as well as presentation While chapter four presents final conclusions and recommendations

Scaling up SDGs Implementation Godwell Nhamo,Gbadebo O. A. Odularu,Vuyo Mjimba,2020-01-14 This volume challenges global leaders and citizenry to do more in order to resource the implementation of the 2030 Agenda for Sustainable Development AfSD and its 17 interwoven Sustainable Development Goals SDGs Starting from the concept we cannot manage what we cannot measure the book presents some cases showing how to draw national level baselines for the domestication and localisation of the SDGs seeking to provide a clear roadmap towards achieving the 2030 AfSD Scaling up SDGs Implementation is targeted at the United Nations national and state governments

sub national governments the corporate sector and civil society including higher education institutes labour groups non governmental organisations and youth movements The book is cognizant of these institutions common but differentiated responsibilities and capabilities within their socio political environmental and economic conditions The book presents case studies of how the corporate sector has been scaling up SDGs implementation from the tourism sector insurance to the aviation and agricultural sectors To make sure that no one is left behind the volume includes cases on solutions for pressing environmental and socio economic problems ranging from cooperatives in Brazil to the conservation of springs in Zimbabwe The matter of finding synergies between the climate SDG and the Paris Agreement s Nationally Determined Contributions NDCs is elaborated at length Lastly the book discusses how institutions of higher education remain critical pillars in SDGs scaling up with cases of curriculum re orientation in South Africa to the rolling out of the Women s University in Africa In this context this volume challenges every global citizen and organization to invest every effort into making the implementation of the SDGs a success as we welcome the second four to five year segment down the road to the year 2030

Enhancing Art, Culture, and Design With Technological Integration Khosrow-Pour, Mehdi, 2018-04-06 As technology becomes an important part of human computer interaction improving the various conceptual models and understanding of technological interfaces in design becomes essential Enhancing Art Culture and Design With Technological Integration provides emerging research on the methods and techniques of technology to advance and improve design and art While highlighting topics such as augmented reality culture industry and product development this publication explores the applications of technology in online creation and learning This book is an important resource for academics graphic designers computer engineers practitioners students and researchers seeking current research on observations in technological advancement for culture and society

Teacher Education and Institutional Change in South Africa Glenda Kruss, 2008 In 1994 the South African teacher education landscape was fragmented across a wide variety of institutional sites

Chambers's Encyclopaedia David Patrick, William Geddie, 1927

Theoretical and Computational Acoustics 2005 Dr. Alexandra Tolstoy, Erchang Shang, Yu-Chiung Teng, 2006 This volume represents the latest advances in the field of theoretical and computational acoustics The coverage includes results in the areas of underwater acoustics seismics scattering inversion genetic algorithms reverberation IFEM Radon transforms wavelet statistics PE modeling and Gaussian beams

A Participatory Paradigm for an Engaged Scholarship in Higher Education Ortrun Zuber-Skerritt, Lesley Wood, Ina Louw, 2015-01-01 This book provides a comprehensive conceptual framework case studies workshop processes and designs for academic development programs supported by two key concepts Participatory Action Learning and Action Research PALAR a conceptual integration of action learning and participatory action research and action leadership PALAR is conceived as a philosophy a methodology a theory of learning and knowledge creation and as a facilitation process Action leadership involves collaboration action concern and responsibility for others rather than a position of power and control over

them It is participatory strategic ethical and non hierarchical

Recovery of Values from Low-Grade and Complex Minerals Elvis Fosso-Kankeu, Bhekhe B. Mamba, Antoine F. Mulaba-Bafubiani, 2024-04-24 Recovery of Values from Low Grade and Complex Minerals The book elaborates on various physicochemical properties of minerals and technological developments to improve the recovery of metals while ensuring cost effectiveness and minimal environmental impact The mineral industry is undergoing significant cultural organizational and technological transformations to address some of the major limitations and challenges related to the environmental and productivity domains As far as productivity is concerned the decrease of high grade ores has been one of the stumbling blocks toward the achievement of maximum recovery of metals while on the other hand the complexity of minerals therein makes it difficult to profitably extract metals using only conventional methods This book presents eight specialized chapters that focus on the exploration of the complexity of minerals that are likely to negatively influence the recovery of values as well as the development of adequate technologies capable of improving the process of mineral concentration and or metal recovery from complex minerals in a sustainable manner It reviews the various physicochemical properties of minerals that are likely to pose a challenge during the attempt to recover values using conventional methods It also elaborates on the recent technological development that has been considered by researchers to improve the recovery of metals from gangue dominated minerals while ensuring cost effectiveness and minimal adverse environmental impact Audience This book will be of interest to academic researchers from the fields of mineral processing hydrometallurgy geochemistry environment chemistry engineering and professionals including mining plant operators environmental managers in the industries government regulatory bodies officers and environmentalists

Theoretical And Computational Acoustics 2005 (With Cd-rom) - Proceedings Of The 7th International Conference (Ictca 2005) Alexandra Tolstoy, Er-chang Shang, Yu-chiung Teng, 2006-10-16 This volume represents the latest advances in the field of theoretical and computational acoustics The coverage includes results in the areas of underwater acoustics seismics scattering inversion genetic algorithms reverberation IFEM Radon transforms wavelet statistics PE modeling and Gaussian beams
