Vaal Prospects 2016:

Freshwater Challenges of South Africa and its Upper Vaal River Anja du Plessis, 2017-02-07 This book promotes better understanding and awareness of South Africa significant water problems by describing the country's and especially the Upper Vaal River's water resources. It is a go-to book for students, professionals, and regular citizens when information is required regarding the country's and more specifically the Upper Vaal River's freshwater resources. It highlights the major problems and risks which need to be addressed and give a realistic and true representation of the current water affairs.

Rescaling municipal governance amidst political competition in Gauteng: Sedibeng's proposed re-demarcation Themba Mkhize, 2021-08-27 In 2011 the Gauteng Provincial Government proposed that Sedibeng a Category C district municipality located in the province should be restructured. Although the original proposal had anticipated that this would happen after the 2016 local elections the issue remains unresolved due largely to fierce party political opposition and vociferous protests against it on the ground. This Occasional Paper examines the dynamics, particularities, peculiarities, and challenges of re-demarcating the Gauteng City Region. While informed by technical reasons the arguments for and against the merger have tended to gravitate more towards party political rationales for why the re-demarcation should or should not go ahead. Although these debates raise important merits and demerits for the proposal they are difficult to disentangle from the interests of those whose fortunes would be changed by restructuring. In this environment municipal demarcation risks being held hostage by party politics with stakeholders such as political parties using any means at their disposal to have things go their way including by scapegoating the Municipal Demarcation Board (MDB). The case of Sedibeng presents important lessons about attempts to make post-transition local government and mechanisms for determining its configuration work for Gauteng. It also highlights the need for strengthening and revising demarcation-related legislation. How can we make sure that the MDB functions effectively with respect to its primary goals?

Global Economic Prospects, January 2021 World Bank Group, 2021-03-19 Although the global economy is emerging from the collapse triggered by COVID-19 the recovery is likely to be subdued and global GDP is projected to remain well below its pre-pandemic trend for a prolonged period. Several risks cloud the outlook including those related to the pandemic and to rapidly rising debt. The pandemic has further diminished already weak growth prospects for the next decade. Decisive policy actions will be critical in raising the likelihood of better growth outcomes while warding off worse ones. Immediate priorities include supporting vulnerable groups and ensuring a prompt and widespread vaccination process to bring the pandemic under control. Although macroeconomic policy support will continue to be important limited fiscal policy space amid high debt highlights the need for an ambitious reform agenda that bolsters growth prospects. To address many of these challenges global cooperation will be key.

Global Economic Prospects is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on emerging market and developing economies on a semiannual basis in January and June. The January edition includes

in depth analyses of topical policy challenges faced by these economies while the June edition contains shorter analytical pieces **Global Economic Prospects, January 2018** World Bank Group,2018-01-26 The global economy is in a broad based cyclical recovery Investment manufacturing and trade are on the rebound Financing conditions are benign monetary policies are generally accommodative and the worst impacts of the recent commodity price collapse have begun to dissipate However the global economic outlook remains clouded by a number of risks These include the possibility of financial market disruptions rising protectionist sentiment and heightened geopolitical tensions Of particular concern is evidence of subdued productivity and slowing potential growth In addition to discussing global and regional economic developments and prospects this edition of Global Economic Prospects includes a chapter on the causes of the broad based slowing of potential growth and suggests remedies The report also contains Special Focus sections on the impact of the 2014 2016 oil price collapse and the relationship between education demographics and global inequality Global Economic Prospects is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on emerging market and developing countries on a semiannual basis in January and June The January edition includes in depth analyses of topical policy challenges faced by these economies while the June edition contains shorter analytical pieces *Wawarsing Reformed Dutch Church, Ulster County, New York, 1745-1883, New Prospect Reformed Dutch Church, Ulster County, New York, 1816-1886, Bloomington Dutch Reformed Church, Ulster County, New York, 1796-1859, Newburgh Circuit, Methodist Episcopal Church, 1789-1834* Jean D. Worden,1987 **Afrotropical Streams and Rivers** Tatenda Dalu, Frank Masese,2024-11-09 The Afrotropical Streams and Rivers Structure Ecological Processes and Management is a comprehensive guide that provides assessment of major rivers and tributaries in Africa Unlike other books available the editors present a thorough study of geomorphological hydrological biological and ecological processes incorporating a range of plant and animal communities while considering implications of human communities that depend upon them This book edited by a diverse cohort of researchers and or scholars is intended as an educational and practical guide for graduate students researchers and scientists who focus on the biodiversity conservation and management policy issues of the African river systems Provides a comprehensive introduction to African freshwater rivers their biota and abiotic processes Contains unique case studies on African streams and rivers Organised around an interdisciplinary approach that covers the complex aspects of conservation and management of African river systems on the continent [Social Constructions of Water Quality in South Africa](#) Suvania Naidoo,2022-05-04 This book details how the water quality of the Blesbokspruit River in Gauteng South Africa was socially constructed by stakeholders and key individuals in the context of acid mine drainage AMD and its treatment Social constructionism is used as the framing for this research to explain how water is intrinsically social Findings presented here show that stakeholders are aware that the changes in the physicality of the Blesbokspruit resulted from human interventions and varied uses of the water over the years Such knowledge among factors such as the historical

context of mining current coal mining flows and volumes of water technology used and processes followed information and communication and vested interests influence social constructions of the water quality What counts as the truth about water varies depending on the individual s perspective their purpose and their individual interests Further how one defines water quality influences what treatment processes are preferred in order to improve water quality The book explains why for example a treatment process meant to improve water quality gained a bad reputation by the public because of the South African government s silo approach The book explains how these social constructions are entrenched in power relations between stakeholders regarding AMD treatment and illustrates how power was used to influence decisions to improve the water quality of the Blesbokspruit The case presented in this book offers insights and recommendations for policymakers working in water governance including means to influence social constructions of water quality and ways to clarify roles and responsibilities in pursuit of improved cooperative government Register of products manufactured in South Africa ,1985

Urbanization and Industrialization for Africa's Transformation ,2017 The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization Urbanization is one of Africa mega trends with profound implications for the social economic environmental dimensions of growth and transformation Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa So far

current policy narratives and frameworks on structural transformation and industrialization in Africa have largely failed to factor in the spatial and urban dimensions of industrialization and in particular the advantages presented by productivity enhancement and agglomeration effects generated by cities Yet the nexus between urbanization and industrialization is of particular relevance for Agenda 2063 and the 2030 Agenda on Sustainable Development Both agendas recognize urbanization as a critical factor for sustainable development It is also important to consider urbanization and industrialization in light of Africa s engagement with the Third United Nations Conference on Housing and Sustainable Urban Development Habitat III to be held in Quito Ecuador in October 2016 In this context African policy makers have clearly recognized urbanization as an engine of structural transformation for inclusive and sustainable growth
