Vaal Undergraduate Application Form 2016:

Nanohybrid Materials for Water Purification Sarat K. Swain, 2022-08-12 This book comprehensively reviews the key topics in the area of nanocomposites and hybrid materials used for waste water treatment and purification. It covers materials chemistry, various synthesis approaches, and properties of these nanomaterials for the different water purification techniques. It provides new direction to the readers to better understand the chemistry behind these materials and the methods to improve their properties. This book will be a very valuable reference source for graduates and postgraduates, engineers, research scholars, primarily in the field of material science, water nanoscience, and nanotechnology, material scientists, researchers in the water-related area, scientists working in water treatment plants, and pollution mitigation industries.

Redefining Education and Development Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development Goals (SDGs), particularly Goal 4, which focuses on quality education. It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development. The book takes an interdisciplinary approach, merging educational theory, developmental practice, and human psychology to address complex global challenges hindering sustainable development. The book includes case studies and empirical research, such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation. These examples provide readers with practical applications of theoretical concepts and demonstrate the real-world impact of educational innovations, which is at the core of education delivery for all and how education touches on other areas of the SDGs. The book offers valuable insights for policymakers, educators, and development practitioners by presenting research and theory-based analyses. It suggests ways to improve the academic environment to foster entrepreneurship and innovation, which are key to economic development and job creation, especially in regions with high youth unemployment rates. The content suggests educational reforms that are responsive to the changing societal and economic landscapes. The book's blend of theory and practice targets a broad audience, including academic scholars, students, development agencies, non-governmental organisations, and policymakers. It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development. In summary, the book seeks to provide a comprehensive exploration of the nexus between education, development, and human needs in the context of the SDGs, offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development.

Paper-based Diagnostics Kevin J. Land, 2018-12-11 This book explores the status of paper-based diagnostic solutions or Microfluidics 2.0. The contributors explore how paper-based tests can be widely distributed and utilized by semi-skilled personnel, how close to commercial applications the technology has become, and what is still required to make paper-based diagnostics the game changer it can be. The technology is examined through the lens of the World Health Organization's ASSURED criteria for low resource countries.

Affordable Sensitive Specific User friendly Rapid and robust Equipment free and Deliverable to end users Its applications have to include health technology environmental technology food safety and more This book is appropriate for researchers in these areas as well as those interested in microfluidics and includes chapters dedicated to principles such as theory of flow and surface treatments components such as biomarkers and detection and current methods of manufacturing Discusses how paper based diagnostics can be used in developing countries by comparing current diagnostic tests with the World Health Organization s ASSURED criteria Examines how paper based diagnostics could be integrated with other technologies such as printed electronics and the Internet of Things Outlines how semi skilled personnel across a variety of fields can implement paper based diagnostics

Additive Manufacturing: Materials, Processes, Quantifications and Applications Jing Zhang, Yeon-Gil Jung, 2018-05-17 Additive Manufacturing Materials Processes Quantifications and Applications is designed to explain the engineering aspects and physical principles of available AM technologies and their most relevant applications It begins with a review of the recent developments in this technology and then progresses to a discussion of the criteria needed to successfully select an AM technology for the embodiment of a particular design discussing material compatibility interfaces issues and strength requirements The book concludes with a review of the applications in various industries including bio energy aerospace and electronics This book will be a must read for those interested in a practical comprehensive introduction to additive manufacturing an area with tremendous potential for producing high value complex individually customized parts As 3D printing technology advances both in hardware and software together with reduced materials cost and complexity of creating 3D printed items these applications are quickly expanding into the mass market Includes a discussion of the historical development and physical principles of current AM technologies Exposes readers to the engineering principles for evaluating and quantifying AM technologies Explores the uses of Additive Manufacturing in various industries most notably aerospace medical energy and electronics

Life in Transit: Theological and Ethical Contributions on Migration Manitza Kotzé, Riaan Rheeder, 2020-12-31 Migration is an issue that is under discussion worldwide and affects South Africa the United States of America and Germany in a distinctive way This book reflects academically on this significant and topical subject of migration from the often neglected perspective of the fields of theology and Christian ethics While the majority of contributions are from the South African context there are also chapters reflecting on the topic from the other two aforementioned contexts While numerous publications have recently appeared on the subject reflection from theology and Christian ethics are often lacking As such this scholarly publication wants to add ethical value to the local and global conversations on the theme from a theological perspective The book reflects on migration from the perspectives originated in the disciplines of biblical studies the Hebrew Bible and the New Testament systematic theology ecumenical studies Christian ethics practical theology and missiology It presents new and innovative inquiries primarily from a qualitative methodological viewpoint The book unveils new themes for deliberation and provides novel interpretations and

insights into existing research **Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Advanced Functional Materials and Methods for Photodegradation of Toxic Pollutants* Ajay Kumar Mishra, Pardeep Singh, Pankaj Raizada, S. Vadivel, Rangabhashiyam Selvasembian, 2023-09-20 *Advanced Functional Materials and Methods for Photodegradation of Toxic Pollutants* addresses the potential role of visible active photocatalytic methods for the removal of various emerging and persistent organic pollutants POPs Describing the classification sources and potential risks of emerging organics in water bodies and the environment the book covers the different synthesis methods of visible active structured photocatalysts and structure related properties to their applications in photocatalytic processes for the removal of antibiotics pharma and heavy metal pollutants This book provides an invaluable reference to academics researchers and technicians in chemical engineering chemistry and environmental science In addition the mechanistic insights associated with the interaction of advanced functional materials and water pollutants along with the possible reaction pathway occurring during the visible light induced photocatalytic processes together with toxicity are discussed in detail along with the reutilization of catalysts supporting the inherent reaction conditions performed with natural conditions Covers the recent progress in nano photocatalytic materials Explores the mechanism of photocatalytic degradation of pollutants Includes the controlled synthesis of nanostructured photocatalysts and their modifications for targeted pollutants *The Palgrave Handbook of Motivation for Language Learning* Martin Lamb, Kata Cszér, Alastair Henry, Stephen Ryan, 2020-01-11 This handbook offers an authoritative one stop reference work for the dynamic and expanding field of language learning motivation The 32 chapters have been specially commissioned from the field's most influential researchers and writers Together they present a compelling picture of the motivations people have for learning languages the diverse ways we can research motivation and the implications for promoting and sustaining learners motivation The first section outlines the main theoretical approaches to language learning motivation the next section presents ways in which motivation theory has been applied in practice the third section showcases examples of motivation research in particular contexts and with particular types of language learners and the final section describes the exciting directions that contemporary research is taking

promising important new insights for academics and practitioners alike Exploring the link between poverty and human rights in Africa Edited by Ebenezer Durojaye and Gladys Mirugi-Mukundi, 2020-01-01 About the publication This book addresses poverty one of the important issues confronting Africa from a multi disciplinary approach With contributions from eminent scholars from diverse backgrounds the book explores poverty from a human rights perspective Its central message is that poverty is not necessarily a failure on the part of an individual but rather caused by the actions or inactions of governments which are often exacerbated by structural inequalities in many African societies This in turn requires a more pragmatic approach grounded in respect for human rights Exploring the link between poverty and human rights in Africa will be useful to researchers policymakers students activists and others interested in addressing poverty Table of Contents PREFACE viii ACKNOWLEDGMENTS x CONTRIBUTORS xi 1 General introduction to poverty and human rights in Africa Ebenezer Durojaye Gladys Mirugi Mukundi 1 Introduction 2 Understanding poverty 3 Nexus between poverty and human rights 4 Significance of this book 4 1 The relevance 5 Overview of the book 5 1 Section I Trends and incidence of poverty in Africa 5 2 Section II Poverty and socio economic rights 5 3 Section III Poverty and vulnerable groups 5 4 Section IV Poverty and access to justice 2 Integrating a human rights approach to food security in national plans and budgets The South African National Development Plan Julian May 1 Introduction 2 Human rights and food security 3 Development planning and human rights 4 The components of budgeting for human rights 4 1 Diagnostic analysis 4 2 Identifying interventions and budget prioritisation 4 3 Estimating the financial costs of achieving food security 4 5 Estimating social and economic benefits 5 Public expenditure management for food security 5 1 Fiscal and monetary policy 5 2 Multi year budgeting 6 Conclusion 3 Is South Africa winning the war on poverty and inequality What do the available statistics tell us Emmanuel Sekyere Steven Gordon Gary Pienaar Narnia Bohler Muller 1 Introduction 1 1 Income inequality in South Africa 2 Poverty and human development trends in South Africa 2 1 South African Social Attitudes Survey Perceptions of poverty 2 2 Human development 3 Access to services 4 Addressing social inequality in South Africa 4 1 Addressing income inequality in South Africa 4 2 Addressing human development challenges 4 3 Addressing service delivery 5 Conclusion and summary of findings 4 Who really state captured South Africa Revealing silences in poverty inequality and structurally corrupt capitalism Patrick Bond 1 Introduction 2 Inequality the state and its capture 3 The political economy of the capitalist state 4 World Bank inequality denialism 5 The fight between hostile brothers The Zuptas and White Monopoly Capital 6 Social resistances 5 Poverty women and the human right to water for growing food Ngcimezile Mbano Mweso 1 Introduction 2 The human right to water 2 1 Recognition in international law 2 2 Definition and content Is there a right to water for growing food 2 3 Normative content of the human right to water for growing food 3 Conclusion 6 The link between environmental pollution and poverty in Africa Olubayo Oluduro 1 Introduction 2 Legal framework for the protection of the environment in Africa 3 Nature of environmental pollution in Africa 3 1 Environmental pollution in Africa Case studies of some countries 4 Nexus between pollution and

Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially

for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Speaking Subjects in Multilingualism Research Judith

Purkharthofer, Mi-Cha Flubacher, 2022-07-22 This book discusses salient moments of multilingual encounters and brings together contributions focused on the interplay between language use by individuals and societies and language related inequalities or opportunities for speakers The chapters demonstrate how biographical and speaker centred approaches can contribute to an understanding of linguistic diversity how researchers can empirically account for lived experiences of languages and how such accounts are embedded in a larger discussion on social inequality Together the chapters make a powerful case for the importance of speaker centred methodologies in multilingual and multilingualism research The book is a rich source of theoretical and methodological reflections and will thus be a valuable resource for both experienced researchers and students beginning to explore biographical research methods

South Africa's Water Predicament Anja du Plessis, 2023-01-13 The book provides a critical evaluation of South Africa's freshwater resources to illustrate the way in which its freshwater resources water access services and infrastructure have continued to decline over the past three decades The continued decline of water governance management water service delivery dilapidated water infrastructure dysfunctional local governments and overall excessive water degradation is illustrated and emphasized using real life examples and case studies from various contexts within the country The main argument of the book is that South Africa's freshwater resources have declined to such an extent that it can be described as a predicament Questionable water governance decisions and reactive water management practices have led to no improvement and or increased degradation of freshwater resources An overall lack of service delivery exists across the country in various contexts leading to further water and social decline An interdisciplinary evaluation of South Africa's current water predicament is provided major water crises

are prioritized and suitable recommendations are given to transform its predicament into problems which can be addressed. Suitable background information is given to emphasize the necessity of good water governance management and service delivery. South Africa's freshwater resources are evaluated with specific focus on the decline of informed water governance management, service delivery and water quality. Factors requiring urgent attention are determined and suitable recommendations and/or actions are provided. An evaluation and overall synthesis focused on the transformation of the predicament into problems is provided. Primary water problems are prioritized according to urgency and suitable recommendations are given to assist in transforming the country's current complex water predicament into simpler water problems. Political will, collaboration with researchers, stakeholders, non-governmental organizations and cooperation of civil society is required. South Africa's already scarce freshwater resources and decaying infrastructure will persist and possibly collapse if no major actions or interventions are implemented.

Public-Private Partnerships in Africa

Thekiso Molokwane, Muhiya Tshombe Lukamba, Alex Nduhura, Innocent Nuwagaba, 2023-12-06. In the twenty first century governments around the world began to engage the private sector with the objective of achieving public service delivery targets and the African continent has as such been experiencing transformation particularly since the introduction of public private partnerships (PPP) as a measure of reform and method of procurement. Unfortunately there is a mixed bag of successes and challenges through this implementation of PPPs causing a gap in infrastructure leaving more than 640 million Africans without access to energy. Muhiya Tshombe Lukamba, Thekiso Molokwane, Alex Nduhura and Innocent Nuwagaba in *Public Private Partnerships in Africa: Exploring Africa's Growth Potential* explore ways in which the government can collaborate with the private sector in order to close these gaps. The chapters analyze the implementation of PPPs and provide case studies on the use of PPPs in different African countries and industry sectors. This book unearths new findings on PPPs within Africa and provides solutions that are beneficial to scholars, the government and the PPP industry through the theoretical underpinning of various contemporary issues.

Self-Directed Learning in the era of the COVID-19 pandemic

Josef de Beer, Neal Petersen, Elsa Mentz, Robert J. Balfour, 2023-03-01. The book is devoted to scholarship in the field of pre-service teacher education with a specific focus on research into the enhancement of self-directed learning and contributes to the discourse on creating a disposition towards self-directed learning during the social and academic integration of first-year students within higher education institutions. Two chapters also deal with research on the development of self-directed learning and nuanced understandings of the chosen professions of Law and Health Sciences students. The target audience is scholars working in the fields of teacher education, self-directed learning, engaging pedagogies, problem-based learning, cooperative learning and gamification. Whereas social constructivist learning theory served as an overarching theoretical framework for the virtual excursions, the various chapters in the book also draw on other secondary theories such as self-determination theory, social interdependence theory, gender theory and the with-fitness model of Kounin (1970).

Professor Vuyisile T Msila Researcher at the Thabo Mbeki African School of Public and International Affairs University of South Africa *Wind Turbine Aerodynamics* Wen Zhong Shen, 2019-10-04 Wind turbine aerodynamics is one of the central subjects of wind turbine technology To reduce the levelized cost of energy LCOE the size of a single wind turbine has been increased to 12 MW at present with further increases expected in the near future Big wind turbines and their associated wind farms have many advantages but also challenges The typical effects are mainly related to the increase in Reynolds number and blade flexibility This Special Issue is a collection of 21 important research works addressing the aerodynamic challenges appearing in such developments The 21 research papers cover a wide range of problems related to wind turbine aerodynamics which includes atmospheric turbulent flow modeling wind turbine flow modeling wind turbine design wind turbine control wind farm flow modeling in complex terrain wind turbine noise modeling vertical axis wind turbine and offshore wind energy Readers from all over the globe are expected to greatly benefit from this Special Issue collection regarding their own work and the goal of enabling the technological development of new environmentally friendly and cost effective wind energy systems in order to reach the target of 100% energy use from renewable sources worldwide by 2050

Forging Solidarity Astrid von Kotze, Shirley Walters, 2017-04-13 Animating this book is a twofold question In what ways are adult and popular educators responding to various harsh economic political cultural and environmental conditions In doing so are they planting seeds of hope for and imaginings of alternative futures which can connect individuals and communities locally and globally to achieve economic ecological and social justice The book illustrates how transformative politics of solidarity often involve actors across vastly different backgrounds Solidarity is therefore a political relationship that is forged through particular struggles situated in place and time across power differentials The authors put popular education to work by describing and analysing their strategies and approaches They do so using accessible language and engaging styles Popular education is a medium for dreaming for imagining other futures It is also essential for countering the wilful spreading of fake news and propagation of ignorance Pedagogies of solidarity are necessary to building connections amongst people at a time when competitive individualism and alienation are rampant Forging solidarity with and amongst communities is a means towards that end and indeed an end in itself Corporate mines and agribusiness poison the water we drink the air we breathe and the food we eat Together with their political proxies they destroy the earth and her peoples too

many are killed because of their military economic religious and information wars How do we stand up for ourselves and the earth that nourishes us against this global system Forging Solidarity shares inspiring stories that feed our deep connection and power Preys Govender Author of Love and Courage A Story of Insubordination Forging Solidarity is a critical and timely collective intervention that ponders prods pokes and plays in the most generative ways In so doing it invites us to continue deepening our engagements with questions of responsibility and justice in relation to education everywhere Richa Nagar author of Muddying the Waters Co authoring Feminisms across Scholarship and Activism This book inspires people to realize that not fighting against socio economic injustices is to side with oppressors Ntombi Nyathi Programme Director of Training for Transformation

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading

preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience.
