3D Active Balance™ Plus

Our enhanced dual-plane balance control technology significantly improves the overall drive performance and reliability. (3DPRX models only)

Enhance reliability

Since your NAS system is always on, a highly reliable drive is essential. With a 35% MTBF improvement over standard drives, the WD Red drive with NASware 3.0 is designed for the 24x7 environment.

Lower operating temperatures

Innovative technology reduces power consumption and lowers the operating temperatures, resulting in a more reliable and affordable solution for always-on NAS environments.

Longer warranty coverage

The WD Red drive is backed by a 3-year limited warranty for great peace of mind.

Need help? We offer premium support

Every WD Red hard drive comes with our world-class professional support services including a premium dedicated 24x7 support line (available in English, other regional support hours vary).

* Local sales office location must correspond to the drive's country of origin.

Applications

WD Red NAS hard drives are recommended for use in home and small office 1-8 bay NAS systems. For systems that use more than 8 bays, please consider WD Red Pro hard drives.*

* WD hard drives are designed and tested for use in specific applications and environments. To ensure that your hard drive is compatible with an enclosure properly in your application, the hard drive is examined against details in manuals and documentation in the system for which they were designed. Use in systems other than for what the hard drive was designed could result in compatibility problems and/or product failure. For best results, be sure to select the appropriate product for your application by consulting our product specifications on our website at www.wd.com or by calling our customer support line where we would be happy to help you through this selection process.
