The Hysterical Sublime Matthew Flisfeder, 2025-06-26 Developing the concept of the hysterical sublime first theorised by Fredric Jameson to challenge posthumanist perspectives on the Anthropocene this book facilitates the rethinking of universal and dialectical humanism as concepts for grappling with 21st century capitalism In recent years posthumanist theories have been concerned with the overlapping dilemmas of global climate change digital automation and artificial intelligence corresponding to the age of the Anthropocene Matthew Flisfeder explores how the fear of technology becomes for Jameson a substitute for the fears of the capitalist system and shows that posthumanism displaces such fears onto the figure of the human and anthropocentrism Drawing on Hegelian Lacanian theory the book argues that to rethink dialectical humanism requires moving past the historicist versions of Marxist humanism that imagine a complete reconciliation with non human nature that includes a process of dis alienation Flisfeder also studies posthumanism s performative contradiction of dismissing humanism while at the same time depending on the very concepts that constitute the core of humanist thought freedom equality responsibility and autonomy Through the concept of the hysterical sublime this book argues that not only is anthropocentrism and humanism the unconscious core of posthumanist theory emancipatory politics must take ownership of this perspective and renew universalist and dialectical humanism as the core of the political project resistant to capitalism and the Capitalocene

Handbook of Aggressive and Destructive Behavior in Psychiatric Patients Robert T. Ammerman, Michel Hersen, L.A. Sisson, 2012-12-06 Scarcely a day passes without the media detailing some form of human aggression whether it be on its grandest scale in the form of war random bombings and shootings in the streets torture in a prison camp murder by gangs wife abuse resulting in the murder of the husband or the physical abuse of children sometimes resulting in their death Frequently perpetrators of human aggression when arrested and tried in court resort to a psychiatric defense But are all such aggressors indeed appropriately psychiatric patients And if so what are their particular diagnoses and how do these relate to aggression Also of concern is aggression directed against self as evidenced in the rising incidence of suicide among young people or the self mutilation of patients suffering from certain personality disorders Both violence directed outward and aggression toward oneself pose considerable challenges to clinical management whether in the therapist s office or in the inpatient unit Although we have not been able to find successful deterrents to aggression a sizeable body of evidence does exist certainly of a descriptive nature Such data for psychiatric patients are scattered however and can be found in literatures as diverse as the biological ethological epidemiological legal philosophical psychological psychiatric and criminological Therefore given the increased frequency with which mental health professionals encounter cases of violence in their day to day work we believed it important that existing data be adduced in one comprehensive volume

Sex for Structuralists Shanna de la Torre,2018-08-03 This book argues that structuralism makes itself useful when it engages with the non Oedipal logics of femininity and psychosis Building from the psychoanalytic belief that norms repress unconscious desire while structures open onto the creative resources of the symbolic Sex for Structuralists looks to key texts in myth trauma and unconscious fantasy by Sigmund Freud Jacques Lacan and Claude L vi Strauss It also examines innovative writings by contemporary Lacanian thinkers in order to discover what becomes of structuralism when the ground upon which it ostensibly stands namely that of

the zero symbol or the incest prohibition drops out from under it The Journal of Mental Science ,1925 **Counselling People on the Autism Spectrum** Katherine Paxton,Irene Estay,2007-04-15 This manual provides counselling techniques that work for professionals but also for individuals coping with being on the spectrum themselves or living with someone with an ASD It shows how to develop the tools to help people on the spectrum cope with their emotions anxieties and confusion about the often overwhelming world around them *Humanity in a Black Mirror* Jacob Blevins,Zahi Zalloua,2023-01-03 The presentation of technology as a response to human want or need is a defining aspect of Black Mirror a series that centers the transhumanist conviction that ontological deficiency is a solvable problem The articles in this collection continue Black Mirror s examination of the transhuman need for plenitude addressing the convergence of fantasy the posthuman and the dramatization of fear The contributors contend that Black Mirror reveals both the cracks of the posthuman self and the formation of anxiety within fantasy s empty yet necessary economy of desire The strength of the series lies in its ability to disrupt the visibility of technology no longer portraying it as a naturalized unseen background affecting our very being at the ontological level without many of us realizing it This volume of essays argues that this negative lesson is Black Mirror s most successful approach It examines how Black Mirror demonstrates the Janus like structure of fantasy as well as how it teaches unteaches and reteaches us about desire in a technological world **Exploring the Dimensions of Human Sexuality , The New Statesman** ,1917 *Reading Freud* Jean-Michel Quinodoz,2005 Reading Freud provides an accessible outline of the whole of Freud s work which succeeds in expressing even the most complex of Freud s theories in clear and simple language whilst avoiding over simplification The Uncoiling Python Harold Scheub,2010-06-05 There are many collections of African oral traditions but few as carefully organized as The Uncoiling Python Harold Scheub one of the world s leading scholars of African oral traditions and folklore explores the ways in which oral traditions have served to combat and subvert colonial domination in South Africa From the time colonial forces first came to southern Africa in 1487 oral and written traditions have been a bulwark against what became 350 years of colonial rule characterized by the racist policies of apartheid The Uncoiling Python South African Storytellers and Resistance is the first in depth study of oral tradition as a means of survival In open insurrections and other subversive activities Africans resisted the daily humiliations of colonial rule but perhaps the most effective and least apparent expression of subversion was through indigenous storytelling and poetic traditions Harold Scheub has collected the stories and poetry of the Xhosa Zulu Swati and Ndebele peoples to present a fascinating analysis of how the apparently harmless tellers of tales and creators of poetry acted as front line soldiers **The Journal of Neurology and Psychopathology** ,1925 **Lacan with the Philosophers** Ruth Ronen,2018-03-01 Closely examining Jacques Lacan s unique mode of engagement with philosophy Lacan with the Philosophers sheds new light on the interdisciplinary relations between philosophy and psychoanalysis While highlighting the philosophies fundamental to the study of Lacan s psychoanalysis Ruth Ronen reveals how Lacan resisted the straightforward use of these works Lacan s use of

philosophy actually has a startling effect in not only providing exceptional entries into the philosophical texts of Aristotle Descartes Kant and Hegel but also in exposing the affinity between philosophy and psychoanalysis around shared concepts including truth the unconscious and desire and at the same time affirming the irreducible difference between the analyst and the philosopher Inspired by Lacan's resistance to philosophy Ruth Ronen addresses Lacan's use of philosophy to create a fertile moment of exchange Straddling the fields of philosophy and psychoanalysis with equal emphasis Lacan with the Philosophers develops a unique interdisciplinary analysis and offers a new perspective on the body of Lacan's writings
