Smart Enough Systems James Taylor, Neil Raden, 2007-06-29

Automated decisions systems are probably already being used in your industry and they will undoubtedly grow in importance If your business needs to make quick accurate decisions on an industrialized scale you need to read this book Thomas H Davenport Professor Babson College Author of Competing on Analytics The computer based systems most organizations rely on to support their businesses are not very smart Many of the business decisions these companies make tend to be hidden in systems that make poor decisions or don't make them at all Further most systems struggle to keep up with the pace of change The answer is not to implement newer intelligent systems The fact is that much of today's existing technology has the potential to be smart enough to make a big difference to an organization's business This book tells you how Although the business context and underlying principles are explained in a nontechnical manner the book also contains how to guidance for more technical readers The book's companion site www.smartEnoughSystems.com has additional information and references for practitioners as well as news and updates Additional Praise for Smart Enough Systems James Taylor and Neil Raden are on to something important in this book the tremendous value of improving the large number of routine decisions that are made in organizations every day Dr Hugh J Watson Chair of Business Administration University of Georgia This is a very important book It lays out the agenda for business technology in the new century nothing less than how to reorganize every aspect of how a company treats its customers David Raab President ClientXClient This book is an important contribution to business productivity because it covers the opportunity from both the business executive's and technologist's perspective This should be on every operational executive's and every CIO's list of essential reading John Parkinson Former

CTO Capgemini North American Region This book shows how to use proven technology to make business processes smarter It clearly makes the case that organizations need to optimize their operational decisions It is a must have reference for process professionals throughout your organization Jim Sinur Chief Strategy Officer Global 360 Inc **Practical Credit Risk and Capital Modeling, and Validation** Colin Chen,2024-04-22 This book provides professionals and practitioners with a comprehensive guide on credit risk modeling capital modeling and validation for Current Expected Credit Loss CECL International Financial Reporting Standard 9 IFRS9 Basel Capital and Comprehensive Capital Analysis and Review CCAR procedures It describes how credit risk modeling capital modeling and validation are done in big banks with code and examples The book features innovative concepts such as Binary Logit Approximation BLA for Competing Risk Framework Adaptive and Exhaustive Variable Selection AEVS for automatic modeling Full Observation Stratified Sampling FOSS for unbiased sampling and Prohibited Correlation Index PCI for Fair Lending Texts It also features a chapter on credit underwriting and scoring addressing the credit underwriting risk with some innovations It is a valuable guide for professionals practitioners and graduate students in risk management **Wall Street and the Financial Crisis: The role of bank regulators, April 16, 2010** United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs. Permanent Subcommittee on Investigations,2010 Colored Property David M. P. Freund,2010-04-13 Northern whites in the post World War II era began to support the principle of civil rights so why did many of them continue to oppose racial integration in their communities Challenging conventional wisdom about the growth prosperity and racial exclusivity of American suburbs David M P Freund argues that previous attempts to answer this question have overlooked a change in the racial thinking of whites and the role of suburban politics in effecting this change In Colored Property he shows how federal intervention spurred a dramatic shift in the language and logic of residential exclusion away from invocations of a mythical racial hierarchy and toward talk of markets property and citizenship Freund begins his exploration by tracing the emergence of a powerful public private alliance that facilitated postwar suburban growth across the nation with federal programs that significantly favored whites Then showing how this national story played out in metropolitan Detroit he visits zoning board and city council meetings details the efforts of neighborhood property improvement associations and reconstructs battles over race and housing to demonstrate how whites learned to view discrimination not as an act of racism but as a legitimate response to the needs of the market Illuminating government s powerful yet still hidden role in the segregation of U S cities Colored Property presents a dramatic new vision of metropolitan growth segregation and white identity in modern America

The Financial Crisis of Our Time Robert W. Kolb,2011-01-28 In 2006 residential real estate prices peaked and started to fall then threatened the world s financial institutions in 2007 and confronted the global economy with disaster in 2008 In the past few years millions of people have lost very substantial portions of their wealth And while the markets have rebounded considerably they are still far from a full recovery Now professional economists policy experts public intellectuals and the

public at large are all struggling to understand the crisis that has engulfed us In *The Financial Crisis of Our Time* Robert W Kolb provides an essential comprehensive review of the context within which these events unfolded arguing that while the crisis had no single cause housing finance played a central role and that to understand what happened one must comprehend the mechanism by which the housing industry came into crisis Kolb offers a history of the housing finance system as it developed throughout the twentieth century and especially in the period from 1990 to 2006 showing how the originate to distribute model of mortgage financing presented market participants with a clockwork of perverse incentives In this system various participants simply by pursuing their narrow personal interests participated in an elaborate mechanism that led to disaster The book then gives a narrative of the crisis as it developed and analyzes all of the participants in the housing market from the home buyers to investors in collateralized debt obligations CDOs At each step the book explains in a nontechnical manner the essential relationships among the market participants and zeroes in on the incentives facing each party The book also includes an extensive glossary and a detailed authoritative timeline of the subprime financial crisis Offering a unique look at the participants and incentives within the housing finance industry and its role in the biggest financial catastrophe in recent history Robert W Kolb provides one of the most comprehensive and illuminating accounts of the events that will be studied for decades to come as the financial crisis of our time
