*What Makes America Great?* Lon Cantor, 2003-06 Unlike dry history books *What Makes America Great* is written in a breezy personal style It makes history come alive with humanizing stories about the men and women who made America great Chapter 1 provides objective proof of America's greatness using a lot of statistics Chapters 2 and 3 cover the early history of America and explain why we revolted Chapter 4 explains our victory over England in the American Revolution a tremendous upset Few Americans know how the colonists achieved this astounding feat Some modern debunkers like to say that our founding fathers acted out of selfishness rather than principle Chapter 5 shows the idealism of our founders and details the sacrifices made by the signers of the Declaration of Independence Our founding fathers were faced with the exciting but daunting task of creating an entirely new kind of country Well educated men they based the United States on principles developed by the world's greatest philosophers Chapter 6 starts with Moses and goes through Locke and Voltaire Each philosopher's ideas are related to American ideals The Declaration and the Constitution are the two greatest publications mankind has ever known But they weren't created out of thin air Chapter 7 discusses the precedents our forefathers studied before drafting these two great documents In Chapter 8 each American war is discussed in the light of whether it was just or unjust Chapter 9 covers the role of immigrants in shaping America It shows the challenges obstacles and contribution of each immigrant group No country is perfect not even America Chapter 10 discusses the five areas in which America has done wrong Indians slaves women prejudice and education Chapter 11 is a glimpse into the future of America

*What Makes Heirloom Plants So Great?*  
, *What Makes an Artwork Great?* Michael H. Mitias, 2024-06-04 Michael Mitias presents explains and defends in some detail the features that make an artwork great magic universality and the test of time Although some aestheticians beginning with Longinus discussed these features during the past two millennia they did not analyze them comprehensively nor did they justify them from the standpoint of a satisfactory conception of the nature of art In this book the author first explains the nature of the features that make an artifact art and then proceeds to establish the validity of his thesis on firm epistemological and ontological foundations In his endeavor to explicate the nature of this foundation the author answers four questions First what is the genesis of the artwork What makes it art He answers this question by advancing a concept of

aesthetic depth The essence of this depth is human meaning Second under what perceptual conditions does this depth come to life in the process of aesthetic perception Third what is the role of the concept of aesthetic depth in the analysis of the nature of the great artwork How does the concept of aesthetic depth function as a principle of explanation Fourth how can we justify the attribution of magic universality and the test of time to the great work of art In short an understanding of the genesis of the artwork aesthetic depth aesthetic value and aesthetic perception is indispensable for an adequate conception of greatness in art

**The It Factor: What Makes a Teacher Great?** Holly J. Thornton, 2018-05-16 The impact a teacher has on students may be profound and lasting Thus teacher preparation is grounded in standards to assure that all teacher candidates know the content and have the skills needed to become good teachers What makes a teacher great The answer is not clear cut or easily measured with tests But we all know a great teacher when we see one The best teachers have an It Factor that sets them apart from others It is seemingly intangible and unteachable as it is often said that Some people are just born to be teachers This book challenges that assumption and uncovers the It Factor Teacher and student voices helped to develop language and tools to examine how teachers are disposed to think and act and how this affects student learning If we can identify what makes teachers great we can teach it Students have a sea of information opinions and messaging at their fingertips They find themselves navigating through a myriad of facts and alternative facts Opinions beliefs and fallacies share the same platform and status as well grounded information and vetted ideas fueling tensions among individuals and distance between groups Developing students who are caring critical thinkers and problem solvers may be more important now than ever The teachers who are right for this challenge have more than content knowledge and teaching skills To meet this challenge teachers need to have It that something inside that makes them not just good teachers but great ones

**What Makes a Great Exhibition?** Paula Marincola, 2007-02-16 For better or worse museums are changing from forbidding bastions of rare art into audience friendly institutions that often specialize in blockbuster exhibitions designed to draw crowds But in the midst of this sea change one largely unanswered question stands out What makes a great exhibition Some of the world's leading curators and art historians try to answer this question here as they examine the elements of a museum exhibition from every angle What Makes a Great Exhibition investigates the challenges facing American and European contemporary art in particular exploring such issues as group exhibitions video and craft and the ways that architecture influences the nature of the exhibitions under its roof The distinguished contributors address diverse topics including Studio Museum in Harlem director Thelma Golden's examination of ethnically focused exhibitions and Robert Storr director of the 2007 Venice Biennale and formerly of the Museum of Modern Art on the meaning of exhibition and exhibitionmaker A thought provoking volume on the practice of curatorial work and the mission of modern museums What Makes A Great Exhibition will be indispensable reading for all art professionals and scholars working today

**What Makes a Philosopher Great?** Stephen Hetherington, 2017-11-10 This book is inspired by a single powerful question What is it to be

great as a philosopher No single grand answer is presumed to be possible instead rewardingly close studies of philosophical greatness are developed This is a scholarly yet accessible volume blending metaphilosophy with the long history of philosophy and traversing centuries and continents The result is a series of case studies by accomplished scholars each chapter trying to understand and convey a particular philosopher s greatness Lloyd P Gerson on Plato Karyn Lai on Zhuangzi David Bronstein on Aristotle Jonardon Ganeri on Buddhaghosa Jeffrey Hause on Aquinas Gary Hatfield on Descartes Karen Detlefsen on du Ch telet Don Garrett on Hume Allen Wood on Kant as a moral philosopher Nicholas F Stang on Kant as a metaphysician Ken Gemes on Nietzsche Cheryl Misak on Peirce David Macarthur on Wittgenstein This also serves a larger philosophical purpose Might we gain increased clarity about what philosophy is in the first place After all in practice we individuate philosophy partly through its greatest practitioners greatest contributions The book does not discuss every philosopher who has been regarded as great The point is not to offer a definitive list of The Great Philosophers but rather to learn something about what great philosophy is and might be from illuminated examples of past greatness What Makes This Book So Great Jo Walton,2014-01-21 A remarkable guided tour through the field a kind of nonfiction companion to Among Others It s very good It s great Cory Doctorow Boing Boing As any reader of Jo Walton s Among Others might guess Walton is both an inveterate reader of SF and fantasy and a chronic re reader of books In 2008 then new science fiction mega site Tor com asked Walton to blog regularly about her re reading about all kinds of older fantasy and SF ranging from acknowledged classics to guilty pleasures to forgotten oddities and gems These posts have consistently been among the most popular features of Tor com Now this volumes presents a selection of the best of them ranging from short essays to long reassessments of some of the field s most ambitious series Among Walton s many subjects here are the Zones of Thought novels of Vernor Vinge the question of what genre readers mean by mainstream the underappreciated SF adventures of C J Cherryh the field s many approaches to time travel the masterful science fiction of Samuel R Delany Salman Rushdie s Midnight s Children the early Hainish novels of Ursula K Le Guin and a Robert A Heinlein novel you have most certainly never read Over 130 essays in all What Makes This Book So Great is an immensely readable engaging collection of provocative opinionated thoughts about past and present day fantasy and science fiction from one of our best writers For readers unschooled in the history of SF F this book is a treasure trove Publishers Weekly starred review *HBR's 10 Must Reads on Boards (with bonus article "What Makes Great Boards Great" by Jeffrey A.
