What Is God's Mystery? Michael Cox, Mel Turner, 2015-05-15 Have you heard about God's mystery Were you aware that when God finally revealed the truth of this mystery its power changed the course of history What is God's Mystery opens anew the door to God's greatest plan and explains how it continues to affect each of us today Plus have you ever been asked other questions about the Bible that were difficult to answer We have These inquiries have come from church members our family close friends and even our own curiosity As an example how would you answer a question like If God made everything John 1:3 and everything was good Genesis 1:31 then where did Satan and the demons come from People have wrestled with questions such as When we die do we become angels and play harps in heaven What does the Bible tell us about hell or the date of the end of time How can we know God's will for our lives Also what does the Bible say about personal issues such as drinking wine going to the movies watching television or judging others What is God's design for sex and marriage in today's changing world Did you realize Jesus actually mentions four conditions of man These were questions that we felt deserved deeper answers than the traditional responses Our concentrated search into God's Word has resulted in discoveries supported by scripture that we believe are so important they need to be made available for anyone who honestly desires to know God's will We believe you will find this study very rewarding And more importantly it might spark an interest in studying the Bible that will help you better know its real Author the Lord God Almighty

What Is God? Jacob Needleman, 2009-12-24 In his most deeply personal work religious scholar Needleman cuts a clear path through today s clamorous debates over the existence of God illuminating an entirely new way of approaching the question of how to understand a higher power In this new book philosopher Jacob Needleman whose voice and ideas have done so much to open the West to esoteric and Eastern religious ideas in the twentieth and twenty first centuries intimately considers humanity s most vital question What is God Needleman begins by taking us more than a half century into the past to his own experience as a brilliant promising Ivyeducated student of philosophy atheistic existential and unwilling to blindly accept childish religiosity But an unsettling meeting with the venerated Zen teacher D T Suzuki combined with the sudden need to accept a dreary position teaching the philosophy of religion forced the young academician to look more closely at the religious ideas he had once thought dead Within traditional religious texts the scholar discovered a core of esoteric and philosophical ideas more mature and challenging than anything he had ever associated with Judaism Christianity and the religions of the East At the same time Needleman came to realize as he shares with the reader that ideas and words are not enough Ideas and words no matter how profound cannot prevent hatred arrogance and ultimate despair and cannot prevent

our individual lives from descending into violence and illusion And with this insight Needleman begins to open the reader to a new kind of understanding The inner realization that in order to lead the lives we were intended for the very nature of human experience must change including the very structure of our perception and indeed the very structure of our minds In What Is God Needleman draws us closer to the meaning and nature of this needed change and shows how our present confusion about the purpose of religion and the concept of God reflects a widespread psychological starvation for this specific quality of thought and experience In rich and varied detail the book describes this inner experience and how almost all of us atheists and believers alike actually have been visited by it but without understanding what it means and why the intentional cultivation of this quality of experience is necessary for the fullness of our existence **What is God?** John F. Haught,1986 Offers a way to think about God employing a theoretical mode of consciousness outside immediate experience Introduction
