Hearings United States. Congress. Senate. Committee on Appropriations,1939 **Carnegie Institution of Washington Publication** ,1922 Investigation of the Pattern Grading Assumptions Used in the Sizing of U.S. Women's

Clothing for the Upper Torso Nancy Ackerman Schofield, 2000 The author of this thesis suggests that the U S women s sizing system for clothing is not meeting the needs of the population The grading process used by clothing manufacturers to create garments in a range of sizes for production has not been addressed Grade rules increments between garment measurements should be directly related to increments between body measurements for different sizes The major research questions addressed the relationship of grading to sizing and the basis for both sizing and grading practices This research focused on patterns and fit for the women s upper torso Sizing charts dating from 1873 through 2000 were examined The increments between sizes were calculated for each measurement and compared across time This research concluded that the method by which manufactured garments are sized grading has little relationship to sizing measurements Grading is primarily based on the premise that the changes to the measurements of the garment are set increments and proportions In addition many elements of the garment pattern were expected to have constant relationships **Bulletin** ,1913 *Kenya Gazette* ,1981-07-31 The Kenya Gazette is an official publication of the government of the Republic of Kenya It contains notices of new legislation notices required to be published by law or policy as well as other announcements that are published for general public information It is published every week usually on Friday with occasional releases of special or supplementary editions within the week Agricultural Appropriation Bill for 1940 United States.
