formed in 1920 and many of its Founders early Worshipful Masters and Brethren served in the armed forces before and during the Great War This book serves as a record of the military careers of some of those Brethren and it is appropriate that it should be published in the centenary year of the end of that terrible war **The Causes of War** Alexander Gillespie,2013-10-16 This is the first volume of a projected four volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slayed each other In departing from the various theories put forward by historians anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications for the first four thousand years of human civilisation for which written records exist **Centre and Periphery** Tim Champion,2005-08-04 This outstanding overview creates an effective framework on which to hang 13 diverse papers The papers are tightly written and good editing has successfully merged them into a very successful volume [American Antiquity](#) [Trouble in Zobia](#) Bob Cordery,2019-07-14 This solo mini campaign was inspired involvement of Great Britain in Egypt and the Sudan during the latter part of the nineteenth century It involves the imagi nations of Britannia Great Britain Fezia Ottoman Turkey and Zobia Egypt and sees Britannia interfering in the affairs of Zobia a semi independent province of the Fezian Empire An early precursor to the author s THE PORTABLE WARGAME rules was used to fight the tabletop battles and the figures models and terrain all came from his extensive collections **The Portable Colonial Wargame** Bob Cordery,2020-03-24 The author has been a confirmed colonial wargamer for over forty years and took part in the famous Madasahatta Campaign that was run by the late Eric Knowles This interest has grown over the years and has finally resulting in the writing of this book Please note that all the rules have been designed to be used with a gridded tabletop made up of squares or hexes This book has fourteen chapters two sets of rules two exemplar battle reports two appendices a list of sources of inspiration and over one hundred and ten illustrations **What Have We Done** Tom Law, **The Portable Napoleonic Wargame** Bob Cordery,2018-12-07 Although the author is a late convert to the joys of Napoleonic wargaming he soon began to see why so many wargamers love the period As a result he set out to write several sets of rules that would use similar game mechanisms to those in his other PORTABLE WARGAME rules and that would enable him to fight a range of small medium and large battles on a relatively small tabletop This book is the result Please note that all the rules have been designed to be used with a gridded tabletop made up of squares or hexes [Hannibal](#) Patrick Hunt,2017-07-11 One of the greatest commanders of the ancient world brought vividly to life Hannibal the brilliant general who successfully crossed the Alps with his war elephants and brought Rome to its knees Hannibal Barca of Carthage born 247 BC was one of the great generals of the ancient world Historian Patrick N Hunt has led archeological expeditions in the Alps and elsewhere to study

When Empires Clash Patrick Hunt,2015-12 The ancient historian Polybius urged caution regarding writing about places one has not been Author Patrick Hunt agrees and this volume on ancient battles is informed by having walked most of the battle sites and having studied archaeological material associated with each of them Combining expertise in archaeology geography military history and Classical studies he provides a fresh analysis of twelve conflicts of the ancient world that shaped subsequent history in the West From the Late Bronze age to the Late Roman Empire and Early Medieval Era this book examines in chronological order the following battles Battle of Kadesh 1274 BCE Battle of Ninevah 612 BCE Battle of Marathon 490 BCE Battle of Issus 333 BCE Battle of Trebbia 218 BCE Battle of Cannae 216 BCE Battle of Cartagena 209 BCE Battle of Alesia 52 BCE Battle of Actium 31 BCE Battle of Masada 73 CE Battle of the Catalaunian Plains 451 CE

*Economic Democracy: The Political Struggle of the 21st Century* J. W. Smith,2017-10-03 This title was first published in 1999 The author contends that economic democracy is the economic system the U S purports to have but has thus far failed to achieve because it like all the economic powers that have gone before seeks to control the economies of weaker nations It is the shocking lack of economic democracy and the efforts of so many to achieve it that fuels today's conflicts and will fuel those of the 21st century To show how and why this comprehensive work provides a detailed analysis of the history of numerous aspects of the development of the Neo Mercantilist world economy the geopolitical systems put in place by the developed world to manage and perpetuate that economy and the numerous proposals and modeling plans that have been offered over the years for the achievement of economic democracy *The Dublin Review* Nicholas Patrick Wiseman,1892

**Multiple Antiquities - Multiple Modernities** Gábor Klaniczay,Michael Werner,Otto Gécsér,2011-09 Antiquity as the term has been understood and used over the centuries by scholars political and religious figures and ordinary citizens is far from a single monolithic concept Rather than reflecting a stable shared understanding about the past and its meaning the idea of antiquity is instead varying and multiple taking on different meanings and deployed to different effects depending on the context in which it is being considered In this volume historians from a wide range of specialties offer a comparative

assessment of the multiple perceptions of antiquity that have shaped modern European cultures and national identities  
deploying a new methodological approach *histoire croisée* which considers these questions in light of the development of  
cultural diversity across Europe
