Dissident Philosophers T. Allan Hillman, Tully Borland, 2021-11-19 The book consists of sixteen essays and an introduction from prominent philosophers who are at odds with the predominant political trends of academic philosophy political trends primarily associated with leftism Some of these philosophers identify explicitly with the political right an admittedly broad term which ranges from American conservative to British Tory from religious right to non religious right from libertarian to authoritarian Yet other dissident philosophers eschew the left right dichotomy altogether while maintaining a firm political distance from the majority of their left leaning colleagues The primary goal of the volume is to represent a broad constituency of political philosophies and perspectives at variance with the prevailing political sentiments of the academy Each essay is partly autobiographical in nature detailing personal experiences that have influenced these philosophers throughout their lives and partly philosophical putting forth reflections on the intellectual viability of a right leaning or decidedly non left leaning political philosophy or some segment of it The contemporary university is supposed to be the locus of viewpoint diversity and yet as is evident to professors students and virtually anyone else who sets foot within its halls it most certainly is not particularly in matters political Nevertheless these essays are not instances of special pleading or grievance incitement Instead each article provides a glimpse into the life of an academic philosopher whose views have largely been at odds with peers and colleagues Furthermore all of the essays were consciously constructed with the aim of being philosophically rigorous while eschewing technical language and verbose prose In short

the essays will be enjoyable to a wide audience **Power, Politics, and Society** Betty Dobratz, Lisa Waldner, Timothy Buzzell, 2019-03-06 *Power Politics and Society* An Introduction to Political Sociology discusses how sociologists have organized the study of politics into conceptual frameworks and how each of these frameworks foster a sociological perspective on power and politics in society This includes discussing how these frameworks can be applied to understanding current issues and other real life aspects of politics This second edition incorporates new material on cultural divides in American politics emerging roles for the state the ongoing effects of the Great Recession and recovery the 2016 election social media and the various policies introduced during the Trump administration and how they affect people's lives

Power, Politics, and Society Betty A Dobratz, 2015-10-14 *Power Politics Society* An Introduction to Political Sociology discusses how sociologists have organized the study of politics into conceptual frameworks and how each of these frameworks foster a sociological perspective on power and politics in society This includes discussing how these frameworks can be applied to understanding current issues and other real life aspects of politics The authors connect with students by engaging them in activities where they complete their own applications of theory hypothesis testing and forms of inquiry

Cognitive and Instructional Processes in History and the Social Sciences Mario Carretero, James F. Voss, 2012-12-06 This volume is a direct result of an international conference that brought together a number of scholars from Europe and the United States to discuss their ideas and research about cognitive and instructional processes in history and the social sciences As such it fills a major gap in the study of how people learn and reason in the context of particular subject matter domains and how instruction can be improved in order to facilitate better learning and reasoning Previous cognitive work on subject matter learning has been focused primarily upon mathematics and physics the present effort provides the first such venture examining the history and social science domains from a cognitive perspective The different sections of the book cover topics related to comprehension learning and instruction of history and the social sciences including the development of some social sciences concepts the teaching of social sciences problems and questions arising from this cognitive perspective of learning the comprehension and learning from historical texts how people and students understand historical causality and provide explanations of historical events and the deduction processes involved in reasoning about social sciences contents This volume will be useful for primary and secondary school teachers and for cognitive and instructional researchers interested in problem solving and reasoning text comprehension domain specific knowledge acquisition and concept development **Society in Focus** William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2018-11-13 *Society in Focus* An Introduction to Sociology Ninth Edition emphasizes how society and social forces affect everything from globalization and international policies to day to day activities in our personal lives In this edition the authors go beyond the mere questioning of issues to take a closer look at the social world in which we live They provide an integrated approach that uses sociological thinking to help students analyze and understand key concepts To focus increased

attention on sociological thinking and research methods they have chosen four key themes media and technology globalization cultural diversity and trends for the future Because sociology is about all of us and our daily lives it is an eminently practical and useful discipline for understanding our social world This Ninth Edition Includes specific student outcomes for each chapter as well as assessment items linked to those outcomes new chapter opening vignettes that give real life examples illustrating important terms concepts and theories included in that chapter updated data statistics maps charts boxes and tables citing the latest research available examples of the powerful impact of media and technology on society especially the role social media play in helping to shape and define our daily social lives new photos and cartoons accompanied by critical thinking questions that reinforce and illustrate important sociological terms concepts and theories *Taking Sides: Clashing Views in Management* Marc D. Beyond Red and Blue Peter S. Wenz, 2012-02-10 Why Americans do not divide neatly into red and blue or right and left but form coalitions across party lines on hot button issues ranging from immigration to same sex marriage On any given night cable TV news will tell us how polarized American politics is Republicans are from Mars Democrats are from Canada But in fact writes Peter Wenz in *Beyond Red and Blue* Americans do not divide neatly into two ideological camps of red blue Republican Democrat right left In real life as Wenz shows different ideologies can converge on certain issues people from the right and left can support the same policy for different reasons Thus for example libertarian leaning Republicans can oppose the Patriot Act's encroachment on personal freedom and social conservatives can support gay marriage on the grounds that it strengthens the institution of marriage Wenz maps out twelve political philosophies ranging from theocracy and free market conservatism to feminism and cosmopolitanism on which Americans draw when taking political positions He then turns his focus to some of America's most controversial issues and shows how ideologically diverse coalitions can emerge on such hot button topics as extending life by artificial means the war on drugs the war on terrorism affirmative action abortion same sex marriage health

care immigration and globalization Awareness of these twelve political philosophies Wenz argues can help activists enlist allies citizens better understand politics and elections and all of us define our own political identities

International Policy Studies Stuart S. Nagel, David Rosenblum, 2000 The basic elements of this book involve integrating five policy problems and four fields of knowledge The five policy problems are economic technology social political and legal The four developing regions are Africa Asia Eastern Europe and Latin America The four fields of knowledge are natural science social science humanities and law

Politics and the Human Body Jean Bethke Elshtain, J. Timothy Cloyd, 1995 Who or what determines the right to die Do advancing reproductive technologies change reproductive rights What forces influence cultural standards of beauty How do discipline punishment and torture reflect our attitudes about the human body In this challenging new book Jean Bethke Elshtain a nationally recognized scholar in political science and philosophy and J Timothy Cloyd a strong new voice in social and political science have assembled a collection of thought provoking essays on these issues written by some of the finest minds of our day

Taking Sides John T. Rourke, 2000 This debate style reader is designed to introduce students to controversies in American foreign policy The readings which represent the arguments of leading political scientists and researchers reflect a variety of viewpoint and have been selected for their liveliness and substance and because of their value in a debate framework By requiring students to analyze opposing viewpoints and reach considered judgments Taking Sides actively develops student's critical thinking skills

Calculated Risks Kenneth A. Rogers, Marvin G. Kingsley, 2016-04-15 This well documented study examines one of the increasingly pressing problems for US homeland security the storage and management of radioactive waste Despite pressing homeland security and energy security concerns associated with highly radioactive waste political considerations have prevented policy makers from adopting adequate long term solutions to the problem This book explores nuclear waste problems through the broader lens of federal state and local government and the resultant constraints on policy that emerge within the American political system Presenting specific case studies to highlight the deficiencies in current policy and planning as well as the possibility of terrorist activity it is highly suited to courses on security studies and environmental politics
