

TEACHING GUIDE TO THE TASC WRITING SKILLS TEST

This Guide is intended to help HSE teachers prepare students for the TASC Writing Skills Test.

- It begins with an analysis of the types of questions on the test, the percentage of types, and the question stems that typically accompany them.
- The “meat” of the Guide is a series of mini-lessons with detailed directions for teachers.
- This Guide is the teacher’s accompaniment to a study packet for students entitled “Let’s Talk about Sentences.” This is a word doc which is divided into chapters and can be sent home with students chapter by chapter to provide review and practice with what has been learned the day before. It includes explanations of grammatical concepts, exercises, and sets of test-like questions related to a particular concept (such as using a comma vs. a semi-colon).

A note on pacing. There is a lot for students to know, much will be completely new to them, and only through steady and ongoing practice will they be able to master it. Repetition is key. For this reason, it’s a good idea to start at the beginning of the semester and plan for regular hands-on review, using both quizzes and student work on the board, with at least one mini-lesson per week, rather than focusing intensively on Writing Skills for a short time.

Instructional approach. This Guide takes a **hands-on approach**, with students coming up to the board regularly to write sentences. **Sentence-combining** is the most frequently used activity. Students receive a set of sentence stems and are asked to combine them, then write them on the board.

Grammar is taught in use, rather than as a set of rules. Students are not taught the parts of speech, and sets of punctuation rules are not given out, although they are written on the board as they come up. Instead, students learn to recognize what a sentence is (and isn’t); various common structures for sentences, the punctuation that accompanies these structures, and the ways that sentences can be revised most clearly and concisely. They do this through combining sentences, although supplementary worksheets are given to provide extra practice.

The Guide is both **concept-based** and **test-driven**. This means that concepts, such as “What is a sentence?” “How can sentences be expanded?” provide the underlying rationale for the order of the lessons. At the same time, the Guide is tailored very closely to what is known about the TASC Writing Skills test as the goal is: pass!
