That Part Was True:

That Part Was True Deborah McKinlay, 2024-09-24 In this affecting and rewarding epistolary novel two unlikely divorcees, a romantic pessimist and a newfound bachelor, get a second chance at love. New York Times Book Review When Eve Petworth writes to Jackson Cooper to praise a scene in one of his books, they discover a mutual love of cookery and food. Their friendship blossoms against the backdrop of Jackson's colorful but ultimately unsatisfying love life and Eve's tense relationship with her soon-to-be married daughter. As each of them offers, from behind the veils of semi-anonymity and distance, wise and increasingly affectionate counsel to the other, they both begin to confront their problems and plan a celebratory meeting in Paris, a meeting that Eve fears can never happen.

The True Intellectual System of the Universe: the First Part; Wherein, All the Reason and Philosophy of Atheism is Confuted; and Its Impossibility Demonstrated. By R. Cudworth, D.D. .. Ralph Cudworth, 1678

The Oneness and Simplicity of God Barry D. Smith, 2013-11-13 That YHWH is numerically one is foundational to the theology of the Hebrew Bible. Christian theologians historically have affirmed that there is a more fundamental type of oneness attributable to God. God is one not merely in the sense of being the only God but also in the sense of being simple or non-composite, having no parts of any kind. In this way, God is said to be an absolute unity. After a consideration of all the evidence, Barry D. Smith reaches the conclusion that there is no basis for ascribing simplicity to God. The simplicity doctrine is not found in Scripture, and the traditional arguments used to establish it are unconvincing. In addition, the recent defenses of the simplicity doctrine prompted by Alvin Plantinga's work, *Does God Have a Nature*, are unsuccessful. It should not be thought, however, that the rejection of divine simplicity means that, by default, God must be conceived as composite, not even as a perfect composite with maximally great God-making properties. Rather, there is a third option: God should not be conceived as either simple or composite. The question of in which mode God has attributes or exemplifies properties should be set aside.

Varieties of Understanding Stephen Robert Grimm, 2019 What does it mean to understand something? What is the essence of understanding when compared across multiple domains? *Varieties of Understanding* offers new and original work on the nature of understanding, raising questions about what understanding looks like from different perspectives and exploring how ordinary people use the notion of understanding. According to a long historical tradition, understanding comes in different varieties. In particular, it is said that understanding people has a different epistemic profile than understanding the natural world; that it calls on different cognitive resources and brings to bear distinctive normative considerations. Thus, in order to understand people, we might need to appreciate or, in some way, sympathetically reconstruct the reasons that led a

person to act in a certain way By comparison when it comes to understanding natural events like earthquakes or eclipses no appreciation of reasons or acts of sympathetic reconstruction is arguably needed mainly because there are no reasons on the scene to even be appreciated and no perspectives to be sympathetically pieced together This volume brings together some of the world s leading philosophers psychologists and theologians in order to shed light on the various ways in which we understand the world pushing debates on this issue to new levels of sophistication and insight **Shakespeare, Davies, Donne, Hall, Stirling, Jonson, Corbet, Carew, Drummond** Alexander Chalmers,1810 *Scientific Methodology in Nineteenth Century Britain* Charles H. Pence,2025-09-25 This collection of primary sources examines scientific methodology in Britain during the long nineteenth century Perhaps the most striking feature of nineteenth century works on scientific method is the extent to which they were taken up by authors interested in writing large scale systemic works introducing at one stroke a philosophy of science a view of what good scientific practice would look like and investigations of logic epistemology and metaphysics This volume presents the views laid out in the four largest and most important such treatises Sir John F W Herschel s Preliminary Discourse on Natural Philosophy William Whewell s History of the Inductive Sciences and Philosophy of the Inductive Sciences and John Stuart Mill s A System of Logic as well as other contributors to the philosophy of science in this period This title will be of great interest to students of the history of philosophy and the history of science Worship and Congregational Singing David Neu,2016-06-30 This book constitutes the author s effort to provide a biblical foundation for answers to questions regarding congregational singing The present work is broader in scope than the author s smaller book Volumes of Praise for a Vanishing God and unlike the earlier volume contains full documentation and end notes many of which pursue topics of interest that are mentioned only briefly in the text proper Each chapter of this book ends with a brief list of questions to spur further study and discussion It is hoped that this book may be useful as a text for a seminary course on congregational singing a course that the author believes to be great need for the church of the twenty first century Special attention is given to the issues raised in the music wars of the past fifty years **Religious and Didactic Writings of Daniel Defoe, Part I Vol 2** W R Owens,P N Furbank,Liz Bellamy,J A Downie,2024-08-01 Includes ten volumes which are suitable for Defoe scholars and academics of eighteenth century history religion and literature This set offers readers texts and a wealth of editorial matter including introductions explanatory notes and a consolidated index to the ten volumes **The Philosophical Transactions and Collections** Royal society of London,1756 **The Orations of Demosthenes: Orations against Philip.
