The Art of Public Speaking Stephen Lucas, 2009 *The Art of Public Speaking-Classic Original Edition(Annotated)* Dale Carnegie, 2021-02-10 The Art of Public Speaking Written by Dale Breckenridge Carnegie It covers vital aspects of speaking in public showing up standing confidently on stage getting rid of monotonous tone effective body language etc For new people who want to enhance their craft this book will help as it gives ample explanation and importance to all the skills needed to improve

The Art of Public Speaking Dale Carnegie, 2017-02-15 The Art of Public Speaking by Dale Carnegie This is a US only edition The efficiency of a book is like that of a man in one important respect its attitude toward its subject is the first source of its power A book may be full of good ideas well expressed but if its writer views his subject from the wrong angle even his excellent advice may prove to be ineffective This book stands or falls by its authors attitude toward its subject If the best way to teach oneself or others to speak effectively in public is to fill the mind with rules and to set up fixed standards for the interpretation of thought the utterance of language the making of gestures and all the rest then this book will be limited in value to such stray ideas throughout its pages as may prove helpful to the reader as an effort to enforce a group of principles it must be reckoned a failure because it is then untrue It is of some importance therefore to those who take up this volume with open mind that they should see clearly at the out start what is the thought that at once underlies and is builded through this structure In plain words it is this Training in public speaking is

not a matter of externals primarily it is not a matter of imitation fundamentally it is not a matter of conformity to standards at all Public speaking is public utterance public issuance of the man himself therefore the first thing both in time and in importance is that the man should be and think and feel things that are worthy of being given forth Unless there be something of value within no tricks of training can ever make of the talker anything more than a machine albeit a highly perfected machine for the delivery of other men's goods So self development is fundamental in our plan The second principle lies close to the first The man must enthrone his will to rule over his thought his feelings and all his physical powers so that the outer self may give perfect unhampered expression to the inner It is futile we assert to lay down systems of rules for voice culture intonation gesture and what not unless these two principles of having something to say and making the will sovereign have at least begun to make themselves felt in the life The third principle will we surmise arouse no dispute No one can learn how to speak who does not first speak as best he can That may seem like a vicious circle in statement but it will bear examination Many teachers have begun with the how Vain effort It is an ancient truism that we learn to do by doing The first thing for the beginner in public speaking is to speak not to study voice and gesture and the rest Once he has spoken he can improve himself by self observation or according to the criticisms of those who hear But how shall he be able to criticise himself Simply by finding out three things What are the qualities which by common consent go to make up an effective speaker by what means at least some of these qualities may be acquired and what wrong habits of speech in himself work against his acquiring and using the qualities which he finds to be good Experience then is not only the best teacher but the first and the last But experience must be a dual thing the experience of others must be used to supplement correct and justify our own experience in this way we shall become our own best critics only after we have trained ourselves in self knowledge the knowledge of what other minds think and in the ability to judge ourselves by the standards we have come to believe are right If I ought said Kant I can An examination of the contents of this volume will show how consistently these articles of faith have been declared expounded and illustrated The student is urged to begin to speak at once of what he knows *The Art of Public Speaking* Stephen Lucas, 2001-06-01 Lucas The Art of Public Speaking is the leading public speaking textbook in the field Whether a novice or an experienced speaker when beginning the course every student will learn how to be a better public speaker through Lucas clear explanations Creative activities vivid examples annotated speech samples and foundation of classic and contemporary rhetoric provide students a strong understanding of public speaking When instructors teach from this textbook they benefit from Lucas Integrated Teaching Package The Annotated Instructor's Edition and Instructor's Manual both written by Steve Lucas provide teaching tips and give outlines on how to use the various supplements As a result instructors are able to see various teaching examples how to integrate technology and analyses and discussion questions for video clips in class The Annotated Instructor's Edition Instructor's Manual Test Bank and other supplements provide instructors the tools needed to create a dynamic classroom New to this Edition Every new copy of THE ART OF
