Time S Potential Power Petitions 136:

Liquor and the Liberal State Dan Malleck, 2022-05-01 Cultural pastime profitable industry or harmful influence on the nation Liquor was a tricky issue for municipal provincial and federal governments after Confederation Liquor and the Liberal State traces how the Ontario provincial government's takeover of liquor regulation in the late nineteenth and early twentieth centuries involved both discrete local politics and expansive constitutional questions Dan Malleck explores how notions of individual freedom equality and property rights were debated challenged and modified in response to a vocal prohibitionist movement and equally vocal liquor industry While the liquor licensing regime helped build a vast patronage base for the governing Liberal Party some believed it exceeded the constitutional authority of the province The drink question became as political as it was moral a key issue in the establishment of judicial definitions of provincial and federal rights and ultimately in the crafting of the modern state This lively and meticulous work demonstrates the challenges governments faced when dealing with the seemingly simple but tremendously complicated alcoholic beverage Research Handbook on Ocean Acidification Law and Policy VanderZwaag, David L., Oral, Nilüfer, Stephens, Tim, 2021-10-19 This important Research Handbook provides a guide to navigating the tangled array of laws and policies available to counter the ominous threats of ocean acidification It investigates the limitations and opportunities for addressing ocean acidification under national regional and global governance frameworks including multilateral environmental agreements law of the sea and human rights instruments **FCC Record** United States. Federal Communications Commission, 2015 **Nuclear Regulatory Commission Issuances** U.S. Nuclear Regulatory Commission, U.S. Nuclear Regulatory Commission. Division of Technical Information and Document Control, 2011 Reliability Standards for Telecommunications Emergency Backup Power Systems and Emergency Notification Systems California Public Utilities Commission, 2008 Hard Times Barbara Kellerman, 2014-10-15 A highly perceptive analysis of the crisis of leadership in 21st century America written in an exhilaratingly readable style Archie Brown Oxford University author of *The Myth of the Strong Leader* Selected by Choice as an Outstanding Academic Book Leadership has never played a more prominent role in America's national discourse and yet our opinions of leaders are at all time lows Private sector leaders are widely seen as greedy to the point of being corrupt Public sector leaders are viewed as incompetent to the point of being inept And levels of trust in government have plummeted As the title of this book conveys leaders in America are experiencing hard times Barbara Kellerman argues that we focus on leaders and even on followers while ignoring an essential element of leadership context This book is a corrective It enables leaders to track the terrain that they must navigate in order to create change Rather than a handy dandy manual on what to do and how to do it *Hard Times* is structured as a checklist Twenty four brief sections cover key aspects of the American landscape They trace evolutions and revolutions that have revised our norms transformed our populations and institutions and shifted our culture Kellerman's crash course on context reveals how significant it is to leadership Clearer still

is the fact that leadership is more difficult than it has ever been It is context that explains why leadership is so fraught with frustration And it is context that makes evident why leadership will be better exercised if it is better understood Calling out patterns that emerge from the checklist Kellerman challenges leaders to do better This fascinating read will change the way that all of us think about leadership while compelling us to consider what it means for our future Finally a book that explains why leadership is so hard thought provoking examples taken from business and government alike Sydney Finkelstein Tuck School of Business author of Why Smart Executives Fail **The New York Times Index** ,1991 The Roman-Jewish Wars and Hebrew Cultural Nationalism, 66-2000 CE D. Aberbach,2000-05-26 In this controversial book the authors show how the Roman Jewish wars were precipitated partly by Jewish demographic and religious expansion and by conflict with the Greeks and their culture They argue that the trauma and humiliation of defeat stimulated Jewish cultural growth particularly in Hebrew during and after the wars This culture was an implicit rejection of Graeco Roman civilization and values in favour of a more exclusivist religious cultural nationalism This form of nationalism though unique in the ancient world anticipates more recent cultural national movements of defeated peoples **Congressional Record** United States. Higher Education and the State in Latin America Daniel C. Levy,1986-03 Latin America higher education has undergone an astonishing transformation in recent years highlighted by the private sector s growth from 3 to 34 percent of the region s total enrollment In this provocative work Daniel Levy examines the sources characteristics and consequences of the development and considers the privatization of higher education within the broader context of state society relationships Levy shows how specific national circumstances cause variations and identifies three basic private public patterns one in which the private and public sectors are relatively similar and those in which one sector or the other is dominant These patterns are analyzed in depth in case studies of Chile Mexico and Brazil For each sector Levy investigates origins and growth and then who pays who rules and whose interests are served In addition to providing a wealth of information Levy offers incisive analyses of the nature of public and private institutions Finally he explores the implications of his findings for concepts such as autonomy corporatism and privatization His multifaceted study is a major contribution to the literature on Latin American studies comparative politics and higher education Title List of Documents Made Publicly Available U.S. Nuclear Regulatory Commission,1982 **The Cumulative Daily Digest of Corporation News** ,1926 **Microwave and RF Product Applications** Mike Golio,2003-06-27 The field of microwave engineering has undergone a radical transformation in recent years as commercial wireless endeavors overtook defense and government work The modern microwave and RF engineer must be knowledgeable about customer expectations market trends manufacturing technologies and factory models to a degree that is unprecedented Unfortunately most of the available literature does not reflect this fact but remains focused on high performance low volume applications Microwave and RF Product Applications helps resolve that deficiency Editor Mike Golio culled its chapters from his bestselling RF and Microwave Handbook incorporated critical

updates contributed by the original authors and organized the chapters into a practical tightly focused reference A complete table of contents at the front of the text makes finding specific answers quick and easy and detailed lists of references in each chapter provide convenient access to the relevant expert literature For engineers in industry government or academia Microwave and RF Product Applications provides insight and information that may be outside their area of expertise For managers marketers and technical support personnel it builds a better understanding of the fields that drive and are affected by their decisions

Death of the Covenant Code: Capital Punishment in Old Greek Exodus in Light of Greco-Egyptian Law Joel Korytko, 2023-10-09 Many laws in the Old Greek translation of the Covenant Code do not say the same thing as the Hebrew text In the past various idiosyncrasies in the Greek translation of laws that involve the death penalty had been glossed over and considered stylistic variations or grammatical outliers However when the text linguistic features of the Greek translation are compared to contemporary literary documentary and legal Greek sources new readings emerge cursing a parent is no longer punishable by death a law about bestiality becomes a law about animal husbandry the authority of certain legal commands is deregulated This work explores these and other new readings in comparison with contemporary Greco Egyptian law
