Inquiry, Data, and Understanding Lorin W. Anderson, 2023-05-31 *Inquiry Data and Understanding* is a reflective collection of papers in which Lorin Anderson offers his personal perspective on developments in educational research over thirty years. Following an introductory chapter in which educational research is defined as disciplined inquiry, the remaining chapters are divided into four sections: time and learning factors influencing educational effectiveness; international perspectives; and the nature and purpose of educational research. Each section contains an introduction that places the chapters in that section in a historical and personal context. The fourth section, which concludes the book, summarizes four lessons that were learned about becoming a researcher. Based on these lessons, the final chapter describes four needs that must be met if school and classroom research is to move forward: The need for concept-based research; The need to put students back into the equation; The need to stop focusing on correlates of student achievement; The need for research on alterable variables.

Every Teacher a Leader Barbara B. Levin, Lynne Schrum, 2016-05-06 Discover the secrets of successful teacher leadership. Whether you're a teacher who's ready to take on new roles or an administrator looking to develop strong leaders, this content-driven handbook is here to help you make distributed school leadership a reality. Inside you'll find specific how-tos for the essential skills teacher leaders need most: running meetings, teaching colleagues, providing feedback, conducting needs assessments, delivering effective professional development, resolving conflicts, employing technology, and more. The book features well-tested content and activities, reflective writing prompts, scenarios for discussion, self-evaluations, and two companion guides, one for teachers and one for administrators.

Improving Teaching Effectiveness: Implementation Brian M. Stecher, Michael S. Garet, Laura S. Hamilton, Elizabeth D. Steiner, Abby Robyn, Jeffrey Poirier, Deborah Holtzman, Eleanor S. Fulbeck, Jay Chambers, Iliana Brodziak de los Reyes, 2016-06-06 To improve the U.S. education system through more effective classroom teaching in school year 2009-2010, the Bill and Melinda Gates Foundation announced its Intensive Partnerships for Effective Teaching. Researchers from the RAND Corporation and the American Institutes for Research evaluated implementation of key reform elements of the program in three public school districts and four charter management organizations.

Great Leaders Equal Great Schools Autumn Cyprès, 2013-01-01 The networks of Tennessee politicians, school leaders, and academics are rife with significant contributors to the national fabric of educational reform. This cadre includes Former White House Chief of Staff Howard Baker, United States Senator Bill Frist, currently Chairman of the Tennessee State Collaborative on Reforming Education, former United States Secretary of Education Lamar Alexander, currently United States Senator and Conference Chair of the Republican Party, and current Governor Bill Haslam. This network has deep current ties to The University of Tennessee, the Knoxville area, and school systems across the state of Tennessee. The Center for Educational Leadership is a highly funded, highly visible model for education reform throughout the state of Tennessee. This 3-book series will serve as a

calling card for all activities that The Center for Educational Leadership is involved in around the state of Tennessee and the United States This includes all school leadership summits for policy makers practitioners scholars and legislators It represents the shared vision and commitment of educational leaders politicians educational reformers and legislators This book will be distributed to school leaders professional development coaches teacher unions scholars at several Tennessee institutions of higher education and members of the Tennessee legislature and Department of Education The audience for this series is primarily school leaders and scholars who are launching and designing new programs or revising and strengthening existing programs However those who are discussing policy at the local state and national level would be interested in the information given within these pages as it relates clearly to their work in educational leadership

Research in Education ,1974 **Title List of Documents Made Publicly Available** ,1987 **Prevention Science in School Settings** Kris Bosworth,2015-11-24 This straightforward volume makes a strong practical research based case for integrating prevention programs into middle and high schools Written by experts in prevention science and education it examines educational goals and prevention of risky behaviors as parallel and complementary processes and provides evidence for health promoting schools as a critical forum for student development Chapters show the benefits of this collaboration as instructors engage with prevention content prevention scientists study schools and create interventions and counselors develop and implement activities resulting in improved academic social and health outcomes Examples of successful prevention strategies address personal and public health issues as varied as substance abuse dating violence dropping out and suicide Among the topics covered Engaging school leaders in prevention Developing school based prevention curricula Scaling up evidence based prevention interventions and practices Conducting prevention research and evaluation in schools Promoting a positive school climate and culture Reducing disruptive behavior violence and bullying Child and school psychologists administrators teachers school counselors and prevention specialists will find significant common ground in *Prevention Science in School Settings* The breadth and depth of coverage point to new multidisciplinary directions in health education school climate culture and positive youth development **On the Rocketship** Richard Whitmire,2014-05-15 The face of American education is evolving and the roadmap is clear *On the Rocketship* How Top Charter Schools are Pushing the Envelope examines the rise and expansion of leading charter school network Rocketship revealing the secret sauce that makes a successful program A strong narrative with a timely message the book explores how Rocketship started and the difficulties encountered as it expands Designing schools for children who have been failed by traditional schools is extremely challenging work Setbacks are inevitable Later in the book the narrative shifts to the national picture exploring how high performing charter schools are changing the education landscape in cities such as Denver Memphis and Houston The book emerges just as charter schools are running into stiff political opposition in New York City and elsewhere Even in San Jose Rocketship's home base the pushback against charter schools is gaining speed On the

Rocketship becomes a valuable resource for explaining what is at stake in this battle. Lose these schools in New York, San Jose and other cities, and low-income and minority students lose their best shot at a quality education. Written by a veteran journalist who followed Rocketship through a school year, the book explores some of the factors that make Rocketship and other charters successful, including the blended learning that was pioneered at charter schools, especially Rocketship. Many schools around the country are looking to Rocketship as a model for implementing blended learning. The interplay between charter schools and blended learning is setting a change in motion, and the American education system is ready to evolve. On the Rocketship details this phenomenon, providing insights for educators across the nation.

Short Cycle Assessment Susan Lang, 2013-09-27 This book shows you how to improve student achievement by providing them with frequent feedback on their work. It provides a step-by-step process to help you write good questions that assess student learning, design your own formative assessments, administer short cycle assessments, analyze and use data to shape instruction, prepare your students for high-stakes tests, and includes activities and forms to walk you through the process, step by step.

School Turnaround in Secondary Schools Coby V. Meyers, Marlene J. Darwin, 2019-12-01 In the continuing quest to turnaround the lowest performing schools, rapid and sustainable reform or school turnaround seems most elusive for secondary schools. Secondary schools are rife with challenges due to their wide-ranging mission and organizational complexity. With the continued emphasis on college and career readiness and the vast learning possibilities enhanced by technology, our third book in this series, *Contemporary Perspectives on School Turnaround and Reform*, focuses on rapid school turnaround and reform in secondary schools. In this edited volume, researchers and scholars consider the doubly perplexing challenge of school turnaround or the rapid improvement of the lowest performing secondary schools. Although there is some evidence that school turnaround policy can impact student achievement scores, research across international contexts seldom identifies schools that substantially changed student learning trajectories and sustained them. Separately, many societies have found improving secondary schools a relatively intractable problem for multiple reasons, including school size and complexity, the micropolitics of teaching and leading within them, and cumulative widening student achievement gaps. In combination, there are almost no examples of low performing secondary schools turning around. The chapters in this book begin to offer some hope about how policymakers, practitioners, and researchers might begin to reconceptualize how they engage in and undertake the work of rapidly improving low performing secondary schools. The authors provide theoretical and conceptual advancements, offer lessons learned from both successful and unsuccessful initiatives, and address practical issues with potentially accessible ways forward.
