User Manual Urban Cruiser:

America, the Owner's Manual Bob Graham, Chris Hand, 2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around

Hybrid Warfare 2.2 Manousos E. Kambouris,2024-06-21

The concept of Hybrid Warfare has gained prominence in recent decades It is a novel terminology but the concept is detectable since antiquity Ancient Chinese Ancient Greeks and the Jews of Exodus were all well familiar so well to have let us know Similarly bioagents have been used malevolently since always What is novel is that these two in the present context are not only interfacing smoothly but in an enhanced context The Hybrid Warfare which has now enriched its portfolio from actions

of provocation insurgency economic warfare special operations proxy warfare and social destabilization to the Residual domain the cyberspace while the conventional 3D space expands Now the Space and the Deep are included in the topography of the friction zone In this the bio factor becomes not only relevant but also an amplifier using the technology malevolently all the advances made to combat disease may be used to cause further or perplex and complicate disease Improved or totally novel or even alien germs may replace explosives in bombs shells or suicidal kamimaze drones and taint bullets and fragments Microrobots may deliver cancer cells to targeted individuals to foster cancer or specific supergerms for an infection to rage unchallenged And what happens if the mechanism of these cancers and infections is intentionally provided with an Abort signal Global extortions would become probable not just possible Far from Science Fiction this dystopia becomes more probable by the day The Artificial Intelligence simply makes it easier to occur Technology allows manipulation and intervention in levels and extends only imagined in the Past but the application of these capabilities is clearly of dual use with the destructive potential leveraged by the complexity of the social and state structure Within this book we explore the How occasionally the What also in some of these instances From cyber terrorists to aggressive bioindustrialists and democratized ballistic and cruise missile technology it could be coined as The Book of Modern Mayhem
