Khaled Elleithy, Tarek Sobh, Ausif Mahmood, Magued Iskander, Mohammad A. Karim, 2007-06-06 The conference proceedings of International Conference on Industrial Electronics Technology not only the reviewing submissions and registration processes but also the actual conference Conference participants authors presenters and attendees only needed an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground breaking conference The on line structure of this high quality event allowed academic professionals and industry participants to contribute work and attend world class technical presentations based on rigorously refereed submissions live without the need for investing significant travel funds or time out of the office Suffice to say that CISSE received submissions from more than 50 countries for whose researchers this opportunity presented a much more affordable dynamic and well planned event to attend and submit their work to versus a classic on the ground conference The CISSE conference audio room provided superb audio even over low speed internet connections the ability to display PowerPoint presentations and cross platform compatibility the conferencing software runs on Windows Mac and any other operating system that supports Java In addition the conferencing system allowed for an unlimited number of participants which in turn granted CISSE the

opportunity to allow all participants to attend all presentations as opposed to limiting the number of available seats for each session The implemented conferencing technology starting with the submission review system and ending with the online conferencing capability allowed CISSE to conduct a very high quality fulfilling event for all participants See www.cissee2005.org sections IETA TENE EIAE Developing E-Government Projects: Frameworks and Methodologies Mahmood, Zaigham, 2013-06-30 The emergence of e government allows for effective governance increased transparency better management and efficient services through the use of the internet and information and communication technologies Therefore world governments are mobilizing large amounts of resources in order to implement and promote the use of e government Developing E Government Projects Frameworks and Methodologies presents frameworks and methodologies for strategies towards the design implementation and adoption of e government projects By providing best practices in the successful adoption of e government this book is essential for policy makers practitioners researchers and students interested in the approaches utilized for the successful implementation of e government projects *Emerging Technologies in Non-Destructive Testing V* Alkiviadis S.
