Police Ethics and Values Allyson MacVean, Peter

Neyroud,2012-02-22 This text provides an accessible up to date and comprehensive introduction to police ethics and values for all those undertaking degrees and foundation degrees in policing and related subjects The recent introduction of directives legislation and Codes of Standards has demanded a more principled and professional approach to policing This book therefore provides a clear understanding of police ethics and values and how these are understood in policy and applied in an operational setting It discusses the range importance and complexity of ethical issues faced by law enforcement practitioners and policy makers introduces the key concepts of ethics professionalism and policing and relates these to key themes within policing *Understanding Criminal Justice* Philip Smith,Kristin Natalier,2005 Providing an overview of the sociological approaches to law and criminal justice this book focuses on how law and the criminal justice system inevitably affect one another and the ways in which both are intimately connected with wider social forces Systemic Discrimination in Employment and the Promotion of Ethnic Equality Ronald L. Craig,2007 This book argues that traditional complaint based antidiscrimination laws are inherently inadequate to respond to systemic discrimination in employment It examines the mechanisms and characteristics of systemic discrimination and the shortcomings of complaint based laws Yet these characteristics can also inform employers and government authorities of the kinds of preventive action that help alleviate systemic discrimination at the workplace In its search for a rational government policy response to systemic discrimination the book evaluates selected legal regimes which impose proactive obligations on employers to promote equality at the workplace Proactive regimes are regulatory in nature rather than adjudicatory They induce employer compliance through technical assistance dialogue and regulatory pressure rather than court orders By examining the key elements of these regimes the author explains why some proactive regimes function better than others and why proactive regimes function better than complaint based laws in addressing systemic discrimination *Social Life and Moral Judgment* Antony Flew,2017-12-02 In *Social Life and Moral Judgment* author and philosopher Antony Flew examines the social problems induced by the mature welfare state Welfare states make ever increasing financial demands on their citizenry yet the evidence clearly supports that such demands are not sustainable In this superlative collection of thematic essays Flew investigates and explains why this is so and calls for a return to individual responsibility The first essay establishes the philosophical basis for his argument Is Human Sociobiology Possible answers its titular question in the negative asserting that we are all members of a peculiar type of creature that can and therefore must be responsible for whatever choices between various courses of action or inaction that are open to us as individuals In other essays Flew shows how state welfare systems inevitably corrupt and demoralize their citizens by encouraging ever more people to apply for welfare entitlements and reducing the incentives to avoid or escape the conditions warranting those entitlements He investigates the origins of this new kind of welfare entitlement and shows how very different what politicians and public sector employees produce is from what these people claim to be producing Flew shows that the drive for social justice appears to require that the justly

acquired income and wealth of all citizens should be progressively taxed away or supplemented by the state so that the eventual result is more though never perfect equality This objective he asserts must be radically distinguished from old fashioned without prefix or suffix justice It was this type of justice Adam Smith referred to when he famously said that it is a virtue of which the observance is not left to the freedom of our wills but which may be extorted by force Flew question the aims of those who would discredit wealth creators and wealth creating investment showing that these are the same people who prom

Making Anti-Racial Discrimination Law Iyiola Solanke,2012-08-21 Making Anti Racial Discrimination Law examines the evolution of anti racial discrimination law from a socio legal perspective Taking a comparative and interdisciplinary approach the book does not simply look at race and society or race and law but brings these areas together by drawing out the tension in the process in different countries by which race becomes a policy issue which is subsequently regulated by law Moving beyond traditional social movement theory to include the extreme right wing as a social actor the study identifies the role of extreme right wing confrontation in agenda setting and law making a feature often neglected in studies of social action In so doing it identifies the influence of both the extreme right and liberalism on anti racial discrimination law Focusing primarily on Great Britain and Germany the book also demonstrates how national politics feeds into EU policy and identifies some of the challenges in creating a high and uniform level of protection against racial discrimination throughout the EU Using primary archival materials from Germany and the UK the empirical richness of this book constitutes a valuable contribution to the field of anti racial discrimination law at both undergraduate and postgraduate level The book will interest specialists and academics in law sociology and political science as well as non specialists who will find this study stimulating and useful to expand their knowledge of anti racial discrimination law or pursue teaching goals policy objectives and reform agendas

Equality and Diversity in Policing Brian Stout,2010-05-10 Equality and Diversity is a key theme on all policing degree courses The book starts by contextualising equality and diversity within the legislative and policy framework It then examines the recent historical context by outlining some of the difficulties and criticisms that the police have faced in dealing with matters of equality and diversity It considers diversity not only in terms of how the police relate to the general public but also how diversity issues impact on police careers and occupational culture

Tackling Social Exclusion John Pierson,2003-09-02 The concept of social exclusion is a central focus of government policy and is rapidly moving to the core of practitioner activity This textbook shows how social workers can combat the social exclusion experienced by service users and at the same time promote social inclusion Tackling Social Exclusion covers the meanings of social exclusion and the common elements of practice needed to reverse it the skills needed when working with specific groups of people including children and families young people and vulnerable adults the neighbourhood dimension in social exclusion the link between race and ethnic minorities and social exclusion and the implications of the Macpherson Report for practice how service agencies can change their organisation to promote inclusion how to work with communities

to effect change Each chapter is grounded in real practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today

Cultural Diversity, Mental Health and Psychiatry Dr Suman Fernando, Suman Fernando, 2004-03-01 Black and minority ethnic communities lack confidence in mental health services according to the National Service Framework for Mental Health published by the Department of Health in 1999 Cultural Diversity Mental Health and Psychiatry examines how and why this situation has come about and makes specific practical often surprising suggestions for changing the status quo In his latest and most critical analysis Suman Fernando reflects on the current situation in light of his own personal experience academic research and anecdotal reports He weaves together themes of immense importance for the future of psychiatry and mental health services in a multi cultural setting exploring the nature of racism and its permeation into mental health services the inside story of the struggle against racism in statutory and voluntary sectors of the mental health system the history of psychiatry and the role of spirituality holistic thinking psychotherapy and Asian traditions of medicine Trainees practitioners and managers of mental health services will profit from the practical application of Fernando s latest ideas and students and academics will benefit from his theoretical guidance

Race, Housing and Community Harris Beider, 2012-03-12 This book provides an important new contribution to debates around housing policy and its impact on community cohesion There has never been a more prescient time to discuss these concepts the book provides an interpretation of housing race and community cohesion in a highly politicized and fluid policy context It is designed to initiate discussion and debate but this should not be esoteric and limited to a group of academics Rather the objective is to bridge academic and policy audiences in the hope that this fusion provides a basis for a new agenda to discuss these topics Race and community have been key features of social housing policy over the last 20 years with many high profile interventions from the proactive approach by the Housing Corporation to support black and minority ethnic housing associations to the influential Cantle Report documenting segregation in towns and cities following riots and the National Housing Federation led Race Housing Inquiry leading to sector wide recommendations to achieve equality However volume of policy interventions and reports has not been matched by academic outputs that co ordinate integrate and critically analyse race housing and community Housing Race Community Cohesion is the first systematic overview of race housing and community during this tumultuous period The material presented is robust and research based but also directly engages with issues around policy and delivery It is designed to reflect the interests both of the academic research community and policy makers on both sides of the Atlantic It is not rooted to specific policy interventions that could quickly date but instead focuses on developing new ways to analyse difficult issues that will help both students and practitioners now and in the future
