Reeve,2022-11-25 Reading life writing that runs from Tracey Emin Faith Ringgold and Judy Chicago to Marie Bashkirtseff Benvenuto Cellini and beyond Artists and Their Autobiographies from Today to the Renaissance and Back investigates the intriguing doubled truths of artists autobiographies truth in life and truth in art authorial truth s and the truth of their art as they saw it However this book focuses specifically on the truth of sincerity which here following classic discussions by Reindert Dhondt Philippe Lejeune and Lionel Trilling appears as a truth to self that floats free from facts to link avowal and feeling From there this volume merges autobiography studies with a history of ideas approach to art to trace sincerity s constancy and variability across times and cultures Through this pre disciplinary dialogue this book shows that recent and

historical artists autobiographies differ in how not if they intertwine sincerity in life and art Along the way this volume leverages the foregrounding of sincerity caused by this doubling to explore such key issues of autobiography studies as autobiography's relation to fiction serial autobiography as told to narrative and what happens when liars claim to tell all

American Photo ,2004-01 **The Physics and Art of Photography, Volume 3** John Beaver,2019-01-14 This book uses art photography as a point of departure for learning about physics while also using physics as a point of departure for asking fundamental questions about the nature of photography as an art Although not a how to manual the topics center around hands on applications sometimes illustrated by photographic processes that are inexpensive and easily accessible to students including a versatile new process developed by the author and first described in print in this series A central theme is the connection between the physical interaction of light and matter on the one hand and the artistry of the photographic processes and their results on the other This is the third volume in this three part series that uses art photography as a point of departure for learning about physics while also using physics as a point of departure for asking fundamental questions about the nature of photography as an art It focuses on the physics and chemistry of photographic light sensitive materials as well as the human retina It also considers the fundamental nature of digital photography and its relationship to the analog photography that preceded it Creating Comics Chris Gavalier, Leigh Ann Beavers,2021-01-14 For creative writers and artists comics provide unique opportunities for expression but unique challenges too Creating Comics brings together in one volume an authoritative guide to the creative process with practical drawing exercises throughout and an anthology of comics demonstrating the eclectic possibilities of the form Creating Comic covers Using images to conceive and develop characters and stories The complete range of possible relationships between two images The step by step structure of visual narratives How to approach each page like a unique canvas Combining words and images to create new meanings Fully integrated with the main guide the anthology section includes work by creators including Lynda Barry Alison Bechdel Jaime Hernandez Marjane Satrapi Adrian Tomine and many others **Remixing the Civil War** Thomas J. Brown,2011-11-10 In his book *The Legacy of the Civil War* Robert Penn Warren remarked that the Civil War is for the American imagination the great single event of our history This volume reconsiders whether fifty years later Warren's influential claim still holds true Essays from scholars in art literature and history examine how the Civil War is represented and interpreted in contemporary culture They look at the works of more than thirty artists and writers as well as multiple political movements to reveal the many and provocative ways in which Americans engage the Civil War today including chapters on the importance of Abraham Lincoln to Barack Obama's presidential campaign controversies over the Confederate flag and the proliferation of Juneteenth observances Special attention is paid to the works of African Americans and white southerners for whom the Civil War was a revolutionary and defining moment Such prominent scholars as Robert H Brinkmeyer Jr W Fitzhugh Brundage Kirk Savage and Elizabeth Young explore the works of major artists and less well known figures including Bobbie Ann Mason Kara Walker

Dario Robleto and John Huddleston The authors repeatedly find that Americans today openly and playfully manipulate familiar images of the Civil War to explore the malleability of traditional social categories such as national identity gender and race With the sesquicentennial of the Civil War upon us this collection continues the conversation Warren began fifty years ago albeit in unorthodox and challenging ways to offer fresh and stimulating perspectives on the war's presence in the collective imagination of the nation
