Online around the World Laura M. Steckman, Marilyn J. Andrews, 2017-05-24

Covering more than 80 countries around the world, this book provides a compelling contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum, one in Indonesia with more than seven million registered users? Why does Mongolia rate in the top ten countries worldwide for peak Internet speeds? Readers of *Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps* will discover the answers to these questions and learn about people's Internet and social media preferences on six continents outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate the incredible power of online interactions across otherwise unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

The Effects of Facebook Usage on Students' Academic Performance in Lusaka Norah Mpundu, 2022-09-22

Master's Thesis from the year 2022 in the subject Pedagogy, Media Pedagogy, grade 4. A University of Zambia course Master in Management strategy language English abstract. The study's primary goal is to ascertain how Facebook usage affects students' academic performance at the University of Zambia (UNZA) postgraduate campus. Using a descriptive mixed method, this study analyzes a sample of five hundred and thirty-three (533) students' survey responses collected using Microsoft Teams and lecturers' interviews on the effect of Facebook use among students' academic performance and measures these results against similar studies. Reasons for Facebook usage were found to play the most positive, significant role in students' academic performance, while Facebook usage and improved academic performance through Facebook use showed a negative correlation on students' academic performance. The study answers the correlation between why students use Facebook and their academic performance.

Further studies are needed to establish how Facebook usage can be incorporated for educational use and social and educational purposes Web 2.0 Andrew A. Kling, 2010-12-17 Readers will be introduced to Web 1.0 and the story of its evolution to 2.0 This book discusses the role of news information and social networks Mashing memes and other activities are explored Lastly readers will take a look at the future beyond Web 2.0 **Popular Culture as Everyday Life** Dennis Waskul, Phillip Vannini, 2015-11-19 In *Popular Culture and Everyday Life* Phillip Vannini and Dennis Waskul have brought together a variety of short essays that illustrate the many ways that popular culture intersects with mundane experiences of everyday life Most essays are written in a reflexive ethnographic style primarily through observation and personal narrative to convey insights at an intimate level that will resonate with most readers Some of the topics are so mundane they are legitimately universal sleeping getting dressed going to the bathroom etc others are common enough that most readers will directly identify in some way watching television using mobile phones playing video games etc while some topics will appeal more or less depending on a reader's gender interests and recreational pastimes putting on makeup watching the Super Bowl homemaking etc This book will remind readers of their own similar experiences provide opportunities to reflect upon them in new ways as well as compare and contrast how experiences relayed in these pages relate to lived experiences The essays will easily translate into rich and lively classroom discussions that shed new light on a familiar taken for granted everyday life both individually and collectively At the beginning of the book the authors have provided a grid that shows the topics and themes that each article touches on This book is for popular culture classes and will also be an asset in courses on the sociology of everyday life ethnography and social psychology *Information Literacy Skills and the Role of Social Media in Disseminating Scholarly Information in the 21st Century* Baskaran, C., Dhanavandan, S., 2023-06-29 The storage of information lies within the basic components called binary devices and at present storage media falls into two categories random and serial or sequential access which require different amounts of time to access a given piece of data The typical serial access medium is magnetic tape which has a storage density that has increased considerably over the years Vast quantities of source data are collected digitized and compressed automatically by means of unique instruments in fields such as astronomy environmental monitoring scientific experimentation and modelling and national security Information capture that is generated by an individual in the form of packages of symbols called documents is accomplished by manual and increasingly automatic techniques Data that is entered into instruments manually such as keyboard strikes is a process that is comparatively slow and error prone and often requires the use of computer programs with supporting editing software for formatting grammar spelling and more With the evolution of technology and its impact on human society the social sciences have begun to describe this new version of society as a post industrial or the information knowledge society Such terms attempt to capture the unprecedented development and use of information and communication technologies and the fact that information generation processing and transmission have become the fundamental sources of productivity and power An
