*Homeless Advocacy and the Rhetorical Construction of the Civic Home* Melanie Loehwing, 2018-10-30 Homeless assistance has frequently adhered to the three hots and a cot model which prioritizes immediate material needs but may fail to address the political and social exclusion of people experiencing homelessness In this study Loehwing reconsiders typical characterizations of homelessness citizenship and democratic community through unconventional approaches to homeless advocacy and assistance While conventional homeless advocacy rhetoric establishes the urgency of homeless suffering it also implicitly invites housed publics to understand homelessness as a state of abnormality that destines the individuals suffering it to life outside the civic body In contrast Loehwing focuses on atypical models of homeless advocacy the meal sharing initiatives of Food Not Bombs the international competition of the Homeless World Cup and the annual Homeless Persons

Memorial Day campaign She argues that these modes of unconventional homeless advocacy provide rhetorical exemplars of a type of inclusive and empowering civic discourse that is missing from conventional homeless advocacy and may be indispensable for overcoming homeless marginalization and exclusion in contemporary democratic culture Loehwing's interrogation of homeless advocacy rhetorics demonstrates how discursive practices shape democratic culture and how they may provide a potential civic remedy to the harms of disenfranchisement discrimination and displacement This book will be welcomed by scholars whose work focuses on the intersections of democratic theory and rhetorical and civic studies as well as by homelessness advocacy groups
