Working eighty hours or more per week most new doctors spend their first year asking themselves why they wanted to be doctors in the first place Jauhar's internship was even more harrowing than most he switched from physics to medicine in order to follow a more humane calling only to find that medicine put patients concerns last He struggled to find a place among squadrons of cocky residents and doctors He challenged the practices of the internship in The New York Times attracting the suspicions of the medical bureaucracy Then suddenly stricken he became a patient himself and came to see that today's high tech high pressure medicine can be a humane science after all Now a thriving cardiologist Jauhar has all the qualities you'd want in your own doctor expertise insight a feel for the human factor a sense of humor and a keen awareness of the worries that we all have in common His beautifully written memoir explains the inner workings of modern medicine with rare candor and insight *New Physician*, 1983 Vols 15 21 no 4 1966 Apr 1972 include The Doctor and the law which retained separate volume numbering

As I Live and Breathe Jamie Weisman, 2003-06-11 A gorgeously written primer for anyone who has ever been or ever will be a patient The book soars The San Diego Union Tribune Jamie Weisman was a patient long before she was a doctor She was born with a rare defect in her immune system that leaves her prey to a range of ailments and crises and that because it is treatable but not curable will keep her a patient for life In this probing and inspiring book she brings her sojourns on both sides of the doctor patient divide to bear on the issues of the flesh that preoccupy us all It is a worthy addition to the best that has been written about our physical selves a meditation on our extraordinary powers of healing and the limitations that leave intact the miracle and tragedy of being

Second Opinions Jerome Groopman, 2001-03-01 A unique insider's view of today's complex and often contentious world of medicine Anxious about the prognosis lost in a blur of technical jargon and fatigued from worry or pain people who are ill are easily overwhelmed by treatment choices Told through eight gripping clinical dramas Second Opinions reveals the forces at play in making critical medical decisions Dr Jerome Groopman illuminates the world of medicine where knowledge is imperfect no therapy is without risks and no outcome is fully predictable He portrays moments of astute diagnosis and misguided perception of lifesaving triumphs and shattering failures These real life lessons prepare us to navigate the uncertain terrain of illness and enable us to balance intuition and information and thereby make the best possible decisions about our health and future *EDA Directory of Approved Projects* United States.
