The concept of performing calculations in Step Tables comes in quite handy. Each of these tables has a name (Day X). Most water and waste water reporting requires the insertion of data into agency supplied Excel reporting templates. Dream Report supports this exact functionality. By right clicking on this report, you access Report Settings. Under the Report File Format tab, you can access the Excel Settings. Under Excel Settings you may select an Excel Template to start with and map these tables to the desired export areas in the template workbook. Dream Report inserts the data for you automatically, and can save your workbook under a new name and in a new location based on your specific needs.

Waste Water Quality Report
