Aspinall's Complete Textbook of Veterinary Nursing E-Book Nicola Lakeman (Previously Ackerman), Victoria Aspinall, 2016-05-31 The third edition of Aspinall's Complete Textbook of Veterinary Nursing is the ideal text for both student and qualified veterinary nurses as it covers the entire veterinary nursing syllabus. Now written in the main by veterinary nurses, this book comprehensively covers all aspects of the veterinary nursing role from client communication to nutritional support. All chapters have been revised in line with changes in legislation and regulation but also theoretical and practical aspects. Greater emphasis on the veterinary practice structure including the role of corporate businesses and use of social media bring this edition fully up to date. The new edition welcomes Nicola Ackerman as principal editor. Nicola is past officer of the BVNA and past executive editor of the Veterinary Nursing Journal. Nicola is a winner of several awards including the Blue Cross BVNA Veterinary Nurse of the Year and the Barbara Cooper CAW Professional Development Award for outstanding service to the veterinary nursing profession. Nicola was the first Veterinary Nurse in the UK to become a veterinary nurse specialist in nutrition. Evolve Resources containing Self assessment questions for every chapter to test learning. Image Bank of over 700 figures. Additional chapters. Comprehensive content ideal for both student and qualified veterinary nurses. Over 700 full colour illustrations for enhanced understanding. Written by veterinary nurses for veterinary nurses. Recommended reading given for each chapter to aid further research. New chapters on Emergency Critical care, Fluid therapy, Practice and Staff management and Consulting skills, Anaesthesia and Analgesia chapter fully revised and updated. New chapter on Equine Behaviour and Handling including recognition of pain in equines. **100 Cases for Medical Data Interpretation** David Howlett, Nicola Gainsborough, 2013-01-22 Data interpretation questions based on clinical cases are a popular means of testing medical students both during undergraduate studies and as an element of finals examinations. Written by a small team of authors with extensive teaching experience, 100 Cases in Medical Data Interpretation provides invaluable guidance from lecturers who understand from personal experience that detailed and accurate explanations are the key to successful revision. This book presents 100 cases arranged by specialty area: radiology, clinical chemistry, haematology and cardiology, as well as a random section of miscellaneous cases. Questions accompanying each case prompt the reader to consider how the data presented might be correctly understood. A clear discussion of how the correct answer was reached with boxed highlights and bullet lists of key points makes this book an excellent learning aid during all stages of clinical studies and particularly while preparing for medical finals. *Water Management and Water Loss* Stuart Hamilton, Ronnie McKenzie, 2014-10-15 Water Management and Water Loss contains a selection of papers and articles written by various internationally recognised specialists in the field of water loss reduction. The articles have been drawn together from IWA conferences during the past 5 years and provide details of how water losses from Municipal distribution systems can be reduced. The book provides useful background information and reference materials to help explain the different approaches.
