

Welcome to AssetMule!

We're so excited to see you here and can't wait to get you started experiencing the full value of the product.

We've built AssetMule to make creating high-quality personalized sales assets a breeze.

This short onboarding guide is designed to take you on the fastest path to value and success. We'll walk you through how to set up your brand theme, create your first couple of templates, scale asset creation and personalization with snippets, and track engagement with your prospects.

If you have any questions, please don't hesitate to reach out.

P.S. You can copy and edit this guide from the Template page to create your own "Getting Started" template!

You're in good company

Get started in five simple steps

Step 1 Set up your brand theme

Creating your brand theme will help you bring your brand colors and fonts into templates your build in AssetMule.

Simply enter your website address to pull basic brand colors and fonts and then customize and adapt your brand theme as needed.

Step 2 Create your first template using an AssetMule template

The easiest way to create your first template is to use one of our pre-designed AssetMule templates.

Choose the template you'd like to use, apply your brand theme, and replace placeholder content and images to make the template your own.

Step 3 Create custom templates using our visual template builder

With our visual template builder, you can create custom templates without needing a designer.

Build your custom template by adding sections, pulling from a library of pre-designed components, applying your brand theme, and populating the template with your content and images.

Step 4 Create snippets to scale asset creation and personalization

Populate your snippet library with benefit statements, customer quotes, stats, images, videos, and more.

Pull content from your snippet library to speed up the process of creating assets and to enable your sales team to personalize assets while staying on-brand and on-message.

Step 5 Personalize assets for each prospect and track whenever they engage

With your snippets and templates ready to go, it's now time to enable your sales team.

Your sales team can now use AssetMule to create assets from your templates, make "last-mile" personalizations, share assets with their prospects, and track whenever they view them.

Let's get your assets kickin'!
