Benjamin Rolsky, 2019-11-12 For decades now Americans have believed that their country is deeply divided by culture wars waged between religious conservatives and secular liberals In most instances Protestant conservatives have been cast as the instigators of such warfare while religious liberals have been largely ignored In this book L Benjamin Rolsky examines the ways in which American liberalism has helped shape cultural conflict since the 1970s through the story of how television writer and producer Norman Lear galvanized the religious left into action The creator of comedies such as *All in the Family* and *Maude* Lear was spurred to found the liberal advocacy group People for the American Way in response to the rise of the religious right Rolsky offers engaged readings of Lear's iconic sitcoms and published writings considering them as an expression of what he calls the spiritual politics of the religious left He shows how prime time television became a focus of political dispute and demonstrates how Lear's emergence as an interfaith activist catalyzed ecumenical Protestants Catholics and Jews who were determined to push back against conservatism's ascent Rolsky concludes that Lear's political involvement

exemplified religious liberals commitment to engaging politics on explicitly moral grounds in defense of what they saw as the public interest An interdisciplinary analysis of the definitive cultural clashes of our fractious times The Rise and Fall of the Religious Left foregrounds the foundational roles played by popular culture television and media in America s religious history *Copyright Issues, Cable Television and Performance Rights* United States. *M\*A\*S\*H* David Scott Diffrient,2008-09-12 Examines the origins cultural significance and legacy of the groundbreaking CBS television series M A S H which aired from 1972 to 1983 Wild Ones Jon Mooallem,2013-05-16 Intelligent and highly nuanced This book may bring tears to your eyes San Francisco Chronicle Journalist Jon Mooallem has watched his little daughter s world overflow with animals butterfly pajamas applique d owls while the actual world she s inheriting slides into a great storm of extinction Half of all species could disappear by the end of the century and scientists now concede that most of America s endangered animals will survive only if conservationists keep rigging the world around them in their favor So Mooallem ventures into the field often taking his daughter with him to move beyond childlike fascination and make those creatures feel more real Wild Ones is a tour through our environmental moment and the eccentric cultural history of people and wild animals in America that inflects it from Thomas Jefferson s celebrations of early abundance to the turn of the last century origins of the teddy bear to the whale loving hippies of the 1970s With propulsive curiosity and searing wit and without the easy moralizing and nature worship of environmental journalism s older guard Wild Ones merges reportage science and history into a humane and endearing meditation on what it means to live in and bring a life into a broken world

Bélanger,Renée Dickason,2017-05-31 War Memories explores the patchwork formed by collective memory public remembrance private recollection and the ways in which they form a complex composition of observations initiatives and experiences Offering an international perspective on war commemoration contributors consider the process of assembling historical facts and subjective experiences to show how these points of view diverge according to various social cultural political and historical perspectives Encompassing the

representations of wars in the English speaking world over the last hundred years this collection presents an extensive yet integrated reflection on various types of commemoration and interpretations of events Essays respond to common questions regarding war memory how and why do we remember war What does commemoration tell us about the actors in wars How does commemoration reflect contemporary society s culture of war War Memories disseminates current knowledge on the performance interpretation and rewriting of facts and events during and after wars while focusing on how patriotic fervour resistance conscientious objection injury trauma and propaganda contribute to the shaping of individual and collective memory Contributors include Joan Beaumont Australian National University Canberra Gilles Chamerois University of Brest France Subarno Chattarji University of Delhi India Nicole Cloarec Rennes 1 University France Corinne David Ives European University of Brittany Rennes 2 France Jeffrey Demsky San Bernardino Valley College California Sam Edwards Manchester Metropolitan University Georges Fournier Jean Moulin University France Annie Gagiano University of Stellenbosch South Africa David Haigron Rennes 2 University France Judith Keene University of Sydney Australia Melissa King San Bernardino Valley College California Christine Knauer Eberhard Karls University T bingen Germany Liliane Louvel University of Poitiers Michelle P Moore Canadian Army Doctrine and Training Centre Kingston Ontario John Mullen University of Rouen France Lorie Anne Duech Rainville Caen University France Elizabeth Rechniewski Australian Research Council Discovery Project Rapha l Ricaud University Paris Ouest Nanterre La D fense France Laura Robinson Royal Military College of Canada and Isabelle Roblin Universit du Littoral C te d Opale France

*Growing Up In A Pennsylvania Steel Town* Edward Nebinger,2012-10-01 The author was inspired to write these memoirs of the years he spent growing up in the Pennsylvania steel town of Bethlehem before the Second World War by the realization that they were a pivotal time in American history While Americans were struggling with the economic hardships of the Great Depression they never gave up and instead made the best of what they had Out of their triumph over hardship grew the generation that fought and won the Second World War The society and culture exemplified by the Pennsylvania steel towns has now vanished but it is hard not to think that while we have gained much as a society we have also lost far too many things worthy of preservation One of these was the great Bethlehem Steel plant itself the ruins of which stretch for miles along the Lehigh River Dominating the ruins are the ghostly remains of the five great blast furnaces preserved to remind people of the greatness that was once Bethlehem Steel and the community that lived in its shadows

**Comic Drunks, Crazy Cults, and Lovable Monsters** David Scott Diffrient,2022-12-01 Contradictory to its core the sitcom an ostensibly conservative tranquilizing genre has a long track record in the United States of tackling controversial subjects with a fearlessness not often found in other types of programming But the sitcom also conceals as much as it reveals masking the

rationale for socially deviant or deleterious behavior behind figures of ridicule whose motives are rarely disclosed fully over the course of a thirty minute episode Examining a broad range of network and cable TV shows across the history of the medium from classic working class comedies such as *The Honeymooners* *All in the Family* and *Roseanne* to several contemporary cult series animated programs and online hits that have yet to attract much scholarly attention this book explores the ways in which social imaginaries related to bad behavior have been humorously exploited over the years The repeated appearance of socially wayward figures on the small screen from raging alcoholics to brainwashed cult members to actual monsters who are merely exaggerated versions of our own inner demons has the dual effect of reducing complex individuals to recognizable types while neutralizing the presumed threats that they pose Such representations not only provide strangely comforting reminders that badness is a cultural construct but also prompt audiences to reflect on their own unspoken proclivities for antisocial behavior if only in passing

**Focus On: 100 Most Popular Television Series by 20th Century Fox Television** Wikipedia contributors, **The Cold War and Entertainment Television** Lori Maguire, 2016-08-17 An essential dimension of the Cold War took place in the realm of ideas and culture While much work exists on cinema relatively little research has been conducted on this subject in relation to television despite the latter being a technology and popular cultural form that emerged during this period This book rectifies that absence by examining the impact of the Cold War on entertainment television and underlines the comparative aspect by studying programs from both blocs without forgetting of course the outsize impact of American television Although most of the focus is on the two main protagonists the US and the USSR chapters also consider programming from the UK Czechoslovakia Romania and both East and West Germany This book represents a contribution to the debate about the cultural Cold War through a rigorously comparative analysis of the two blocs For this reason the

approach used is thematic The study begins by considering the subject of censorship and then goes on to look at the very particular case of the two Germanys A series of comparative genre studies follow including police and war variety shows and documentaries and docudramas Perhaps surprisingly the similarities are often greater than the differences between television in the two blocs
