Water By Treatment Mustafa Ersoz, Lisa Barrott, 2012-05-31 Part of Metals and Related Substances in Drinking Water Set buy
 all five books together to save over 30% The EU Drinking Water Directive sets a range of standards for metals and related
 substances in drinking water many of which are concerned with health protection A number of these standards are very
 stringent and require compliance to be assessed at the point of use Because of the difficulties associated with monitoring
 historic practices in many countries have concentrated on the quality of water within the distribution network As a result the
 magnitude of problems with some metals and related substances in drinking water is not fully appreciated in all European
 countries and the extent and nature of corrective actions differ widely This Best Practice Guide on Metals Removal From
 Drinking Water By Treatment describes drinking water standards and regulations and explains the impact of a range of
 water treatment processes on metal levels in drinking water Its objectives are to provide a basis for assessing the extent of
 problems and to identify appropriate water treatment options The Guide provides a reasoned guide to selection of key water
 treatment processes Each chapter focuses on a specific water treatment process and has been written by experts in that
 particular process Best Practice Guide on Metals Removal From Drinking Water By Treatment provides practice based

knowledge for water engineers and scientists in large and small water utilities regulatory agencies health agencies and local municipalities from cities through to small rural communities It also supports university level teaching in degree schemes that relate to water management This Guide is one of a series produced by the International Water Association s Specialist Group on Metals and Related Substances in Drinking Water The series is an up to date compilation of a range of scientific engineering regulatory and operational issues concerned with the control and removal of metals from drinking water
