Chemistry William L. Masterton, 1996-08 This new edition of CHEMISTRY PRINCIPLES AND REACTIONS continues to provide students with the core material essential to understanding the principles of general chemistry Masterton and Hurley cover the basics without sacrificing the essentials appealing to several markets Appropriate for either a one or two semester course CHEMISTRY PRINCIPLES AND REACTIONS Fifth Edition is three hundred pages shorter than most general chemistry texts and lives up to its long standing reputation as THE student oriented text Though this text is shorter in length than most other General Chemistry books it is not lower in level and with the addition of the large volume of content provided by the revolutionary GENERAL CHEMISTRY INTERACTIVE 3 0 CD ROM that is included with every copy it has a depth and breadth rivaling much longer books The Historians' History of the World Vol.1 (of 25) (Illustrations) Henry Smith Williams, A complete world history should properly speaking begin with the creation of the world as man s habitat and should trace every step of human progress from the time when man first appeared on the globe Unfortunately the knowledge of to day does not permit us to follow this theoretical obligation We now know that the gaps in the history of human evolution as accessible to us to day vastly exceed the recorded chapters that in short the period with which history proper has at present to content itself is a mere moment in comparison with the vast reaches of time which in recognition of our ignorance we term prehistoric But this recognition of limitations of our knowledge is a quite recent growth no older indeed than a half century Prior to 1859 the people of Christendom rested secure in the supposition that the chronology of man s history was fully known from the very year of his creation One has but to turn to the first chapter of Genesis to find in the margin the date 4004 B C recorded with all confidence as the year of man s first appearance on the globe One finds there too a brief but

comprehensive account of the manner of his appearance as well as of the creation of the earth itself his abiding place Until about half a century ago as has just been said the peoples of our portion of the globe rested secure in the supposition that this record and this date were a part of our definite knowledge of man s history Therefore one finds the writers of general histories of the earlier days of the nineteenth century beginning their accounts with the creation of man B C 4004 and coming on down to date with a full and seemingly secure chronology Our knowledge of the world and of man s history has come on by leaps and bounds since then with the curious result that to day no one thinks of making any reference to the exact date of the beginnings of human history unless indeed it be to remark that it probably reaches back some hundreds of thousands of years The historian can speak of dates anterior to 4004 B C to be sure The Egyptologist is disposed to date the building of the Pyramids a full thousand years earlier than that And the Assyriologist is learning to speak of the state of civilisation in Chaldea some 6000 or 7000 years B C with a certain measure of confidence But he no longer thinks of these dates as standing anywhere near the beginning of history He knows that man in that age in the centres of progress had attained a high stage of civilisation and he feels sure that there were some thousands of centuries of earlier time during which man was slowly climbing through savagery and barbarism of which we have only the most fragmentary record He does not pretend to know anything except by inference of the dawns of civilisation Whichever way he turns in the centres of progress such as China Egypt Chaldea India he finds the earliest accessible records covering at best a period of only eight or ten thousand years giving evidence of a civilisation already far advanced Of the exact origin of any one of the civilisations with which he deals he knows absolutely nothing The Creation of Man with its fixed chronology is a chapter that has vanished from our modern histories To be continue in this ebook

Embarking on a literary odyssey across time and genre *The Ultimate Book Club 180 Books You Should Read Vol 1* offers readers a rich tapestry woven from the minds of history's most revered authors. From the imaginative voyages of Jules Verne to the existential queries of Fyodor Dostoevsky, this anthology encapsulates diverse literary styles and narratives that have shaped generations. This collection stands as a testament to the enduring power of storytelling, featuring pieces that challenge societal norms, unravel the depths of the human psyche, and evoke both wonder and wisdom. It is within these pages that curiosity meets introspection, providing a platform for a serendipitous discovery of humanity's literary heritage. The anthology's strength lies in the collective genius of its contributors, ranging from the introspective musings of Marcus Aurelius and the poetic flourishes of John Keats to the pioneering narrative styles of Edgar Allan Poe and Louisa May Alcott. These authors hail from distinct periods and cultures, yet their works converge to illuminate universal themes of love, conflict, and resilience. The melange of classic figures such as Plato and innovative voices like H. P. Lovecraft demonstrates an evolution of thought reflective of historical and cultural influences, enriching each piece with depth and relatability. A treasure trove for bibliophiles and scholars alike, this volume invites readers to traverse a spectrum of perspectives and emotions. *The Ultimate Book Club* is more than an anthology; it is an educational journey that fosters dialogue across genres and eras. Immerse yourself in this unparalleled collection to appreciate the intricacies of the human experience, broaden your literary horizons, and celebrate the harmonious discord of these timeless voices.
