for Grades 4-12 outlines the Deeper Learning Cycle (DEL C), a teaching model that applies learning and content processing techniques to everyday instruction. This resource features chapters explaining the cycle's seven stages, including standards and curriculum building, a positive learning culture, acquiring new knowledge, processing learning, and evaluating student learning. A lesson plan template to apply to daily instruction, strategies to help students process content in meaningful ways, reflection questions to help teachers apply the material to their own practice.

Future-Ready Teaching With AI Aaron Blackwelder, Jason Cowley, 2024-12-21 Prepare your students for a future where AI literacy is crucial. Artificial intelligence (AI) is here and seems on the brink of transforming education. As teachers, we know that AI will not diminish the need for students to learn essential skills. It will, however, change how we teach and will require us to develop new skill sets for instruction and assessment. Teachers have a new opportunity to embrace future-ready instruction that prepares students to engage in a world that expects them to be AI-literate. In *Future-Ready Teaching With AI: Unlocking Student Potential in the Age of Artificial Intelligence*, authors Aaron Blackwelder and Jason Cowley explore the integration of AI in the classroom and its potential to revolutionize teaching. Much more than simply a book about using AI tools, this rich resource aims to help teachers raise rigor, increase engagement, and promote more meaningful learning opportunities in their classrooms as they embrace the future of teaching and learning. Offering evergreen principles and strategies to help educators navigate the age of AI, this book encourages critical thinking about the ethical use of AI to foster conversations with students. Highlights various practical tools that can help teachers meet diverse student learning needs as well as create AI-proof assignments. Includes chapter vignettes, sample AI prompts, activities, reflective questions, and links to online resources to support teachers' work in the classroom. Examines how to leverage AI to streamline rudimentary tasks such as lesson planning, assessment, and differentiation, allowing teachers to focus on building relationships, providing feedback, and personalizing learning for their students. Written by two secondary teachers, this book is an essential resource for K-12 teachers and administrators looking to move beyond the basics of using AI. By equipping educators to become leaders in this transformation, *Future-Ready Teaching With AI* demonstrates how to harness the power of AI to help every student thrive.

Technology as a Tool for Diversity Leadership: Implementation and Future Implications Lewis, Joël, Green, André M., Surry, Daniel W., 2012-12-31 Although diversity and leadership are not new concepts, the changing of populations, advances in technology, and development of theoretical perspectives have led to the emergence of diversity leadership as an important field of study. As technology continues to bring people together, it aids in the organizational approach of embracing uniqueness and finding innovative ways to reach higher levels of performance. *Technology as a Tool for Diversity Leadership: Implementation and Future Implications* focuses on the technological connections between diversity leadership and the focus on inclusivity, involvement, and communication to meet the needs of multicultural environments. This book highlights societal implications in real-world problems and performance improvement in organizations.
