**Implementation and World Politics** Alexander Betts, Phil Orchard, 2014 A significant amount of International Relations scholarship examines the role of international norms in world politics Existing work though focuses mainly on how these norms emerge and the process by which governments sign and ratify them In conventional accounts the story ends there Yet this tells us very little about the conditions under which these norms actually make any difference in practice When do these norms actually change what happens on the ground In order to address this analytical gap the book develops an original conceptual framework for understanding the role of implementation in world politics It applies this framework to explain variation in the impact of a range of people centred norms relating to humanitarianism human rights and development The book explores how the same international norms can have radically different effects in different national and local contexts or within particular organizations and in turn how this variation can have profound effects on people's lives How do international norms change and adapt at implementation Which actors and structures matter for shaping whether implementation actually takes place and on whose terms And what lessons can we derive from this for both International Relations theory and for international public policy makers Collectively the chapters explore these themes by looking at three different types of norms treaty norms principle norms and policy norms across policy fields that include refugees internal displacement crimes against humanity the use of mercenaries humanitarian assistance aid transparency civilian protection and the responsibility to protect

**Sustainable and Smart Spatial Planning in Africa** Charles Chavunduka, Walter Timo De Vries, Pamela Duran Diaz, 2022-04-24 This book clarifies the smart city concept that is gaining application in Sub Saharan Africa It shows how the smart concept can be used to address problems that would be difficult and more expensive to solve using traditional techniques such as employment creation This is done through elaboration of the African interpretation of smartness using tools for smart solid waste management e governance smart energy and smart infrastructure The case studies selected and each chapter explain a different dimension of the smart city concept and offer innovative solutions to problems of rapid urbanization It lays the theoretical foundation for further research on smart cities and rural areas in Africa

*Markets and Development* Toby Carroll, Darryl Jarvis, 2017-10-02 Markets and Development presents a series of critical contributions focused on the political relationship between citizens civil society and neoliberal development policy s latest form The dramatic increase of access to finance investments newly gender sensitive approaches to building neoliberal labour markets the universal promotion of public private partnerships and the development financing of extractive industries have all seen citizens social movements and NGOs variously engaged in and against neoliberalism like never before The precise form that this engagement takes is conditioned by both the perceived and real opportunities and the risks of an agenda which seeks to intern emerging and frontier markets deep within a concretising world market with transformative repercussions for both those involved and notably for state society relations The contributors to this volume focus on essential aspects of the contemporary neoliberal development agenda and its relationship to and with citizens and civil society tackling questions related to the roles that various actors within civil society in the underdeveloped world are playing under late capitalism and how these roles relate to current efforts to establish and extend markets and market society more broadly in a neoliberal image This book was originally published as a special issue of Globalizations

**Economics of Global Business** Rodrigo Zeidan, 2018-11-13 A textbook with innovative real world macroeconomic analyses of timely policy issues with case studies and examples from more than fifty countries This timely and refreshingly real world focused textbook examines some of the world s most critical policy issues through a macroeconomics lens After presenting analytical foundations modeling tools and theoretical perspectives Economics of Global Business goes a step further than most other texts with a practical look at the local and multinational tradeoffs facing economic policymakers in more than fifty countries Topics range from income

equality and the financial crisis to GDP inflation and unemployment and notably one of the first macroeconomic examinations of climate change Written by a globetrotting economist who teaches and consults on three continents Economics of Global Business aims not for definitive answers but rather to provide a better understanding of the context dependent rationales constraints and consequences of economic policy decisions The book covers long run and short run growth with examples from the United States China the European Union South Korea Japan Latin America Africa Australia and Vietnam financial crises and central banks monetary and fiscal policies government budgets currency regimes climate change and macroeconomics income inequality and globalization All chapters rely on recent and historical examples of economic policy in action The book is particularly suitable for use as an introduction to macroeconomics for business students *Indigenous Knowledge and Climate Governance* Eromose E. Ebhuoma, Llewellyn Leonard, 2022-06-04 This book investigates indigenous knowledge systems IKS in sub Saharan Africa thereby highlighting its role in facilitating adaptation to climate variability and change and also demystifying the challenges that prevent it from being integrated with scientific knowledge in climate governance schemes Indigenous people and their priceless knowledge rarely feature when decision makers prepare for future climate change This book showcases how Indigenous knowledge facilitates adaptation to climate change including how collaborations with scientific knowledge have cascaded into building people's resilience to climatic risks This book also pays delicate attention to the factors fueling epistemic injustice towards Indigenous knowledge which hampers it from featuring in climate governance schemes across sub Saharan Africa The key insights shared in this book illuminate the issues that contribute meaningfully towards the actualisation of the UN SDG 13 and promote mechanisms for raising capacity for effective climate change related planning and management in sub Saharan Africa **Les jeunes non scolarisés d'Afrique subsaharienne** Keiko Inoue, Emanuela di Gropello, Yesim Sayin Taylor, James Gresham, 2015-07-14 The economic and social prospects are daunting for the 89 million out of school youth who comprise nearly half of all youth in Sub Saharan Africa Within the next decade when this cohort becomes the core of the labor market an estimated 40 million more youth will drop out and will face an uncertain future with limited work and life skills Furthermore out of school youth often are policy orphans positioned between sectors with little data low implementation capacity lack of interest in long term sustainability of programs insufficient funds and little coordination across the different government agencies This report provides a diagnostic analysis of the state of out of school youth in Sub Saharan Africa focusing on the 12 to 24 year old cohort This report also examines the decision path youth take as they progress through the education system and the factors that explain youth's school and work choices It finds that individual and household characteristics social norms and characteristics of the school system all matter in understanding why youth drop out and remain out of school In particular six key factors characterize out of school youth i most out of school youth drop out before secondary school ii early marriage for female youth and iii rural residence increase the likelihood of being out of school iv parental education level and v the number of

working adults are important household factors and vi lack of school access and low educational quality are binding supply side constraints Policy discussions on out of school youth are framed by these six key factors along with three entry points for intervention retention remediation and integration This report also reviews policies and programs in place for out of school youth across the continent Ultimately this report aims to inform public discussion policy formulation and development practitioners actions working with youth in Sub Saharan Africa *India & World Geography* YCT Expert Team, 2021 22 UPSC IAS All PCS India World Geography **Doctoral Training in Engineering** Wilson R. Nyemba, Keith F. Carter, 2024-03-07 The book provides a comprehensive analysis of Engineering Education in industrialising countries with Southern Africa as the case study benchmarked on institutions from the industrialised world with UK institutions as the reference This was motivated by the perennial shortage of engineers and engineering skills to drive industry in Southern Africa compounded by the mismatch of skills between those produced by tertiary institutions and those required by industry This book focuses on the insufficiencies in training through addressing the gap where the majority of engineering academics qualifications at MSc MEng level fall short of the internationally acceptable PhD DEng DTech In order to address such insufficiencies the book proposes and advocates for reskilling and doctoral training of engineering academics through the proposed and established DTCs within the region The book is targeted at graduate students engineering academics researchers university administrators foreign aid agencies captains of industry and policy makers in governments To all these readers the book offers *Regenerating Africa* Mammo Muchie, Vusi Gumede, 2017-04-11 It has been long overdue to address the principal problems that Africa continues to have How to bring real African solutions to these problems remains unresolved Palaeontologists have discovered that Africa is the origin of humanity Africa has also experienced the commodification of its humanity through slavery colonialism and apartheid The African continent has been influenced by a m lange of races cultures religions ethnic nationalities making the project of how the differences can be managed to forestall conflict and promote the unity of the current 54 states to turn the cacophony of noises into a single voice that can protect Africa a difficult challenge This book on Regenerating Africa Bringing African Solutions to African Problems addresses why Africans must come together and try to address their own problems They must look back to the spiritual struggle and knowledge heritage to re imagine and innovate a new Africa with leadership governance systems and institutions that can address the security and well being the employment social inclusion poverty eradication and the equality of the people In fact the key problem to find a solution is how to Africanise those that originated from Africa and those that became settlers with different racial cultural religious linguistic and ethnic variations How to manage inter African relations How the settlers from the colonial legacy the apartheid legacy the Arabs in Africa and the varied tribes within Africans can all share being Africanised above all else is a real challenge to bring lasting solutions to Africa s enduring problems This book is one of the few books that addresses the real problems Africa continues to face by suggesting solutions which policy makers and all

Africans must learn and never ignore but use to advance a free united renascent proud and dignified independent Africa in this unpredictable time the world is going through The contributors address in the book how African solutions to African problems in the current global context to create a sustainable African future can be thought designed and engineered to advance the well being of people and nature for all The African Unity for Renaissance series of conferences that over 10 partners contributed to run is the true source for generating the quality papers that have been peer reviewed to constitute the contributions in the book to make African solutions to African problems in reality and not just in talk

**Aid and Authoritarianism in Africa** Tobias Hagmann, Professor Filip Reyntjens, 2016-03-15 In 2013 almost half of Africa's top aid recipients were ruled by authoritarian regimes While the West may claim to promote democracy and human rights in practice major bilateral and international donors such as USAID DFID the World Bank and the European Commission have seen their aid policies become ever more entangled with the survival of their authoritarian protégés Local citizens thus find themselves at the receiving end of a compromise between aid agencies and government elites in which development policies are shaped in the interests of maintaining the status quo Aid and Authoritarianism in Africa sheds light on the political intricacies and moral dilemmas raised by the relationship between foreign aid and autocratic rule in Africa Through contributions by leading experts exploring the revival of authoritarian development politics in Ethiopia Uganda Rwanda Cameroon Mozambique and Angola the book exposes shifting donor interests and rhetoric as well as the impact of foreign aid on military assistance rural development electoral processes and domestic politics In the process it raises an urgent and too often neglected question to what extent are foreign aid programmes actually perpetuating authoritarian rule

**Agrometeorological Applications for Climate Resilient Agriculture** Nabansu Chattopadhyay, Robert Stefanski, S. D.
