Confidential Print, 1995 **The Great Treks** Norman Etherington, 2014-06-06 The mass migration of the Boer farmers from Cape Colony to escape British domination in 1835-36 the Great Trek has always been a potent icon of Afrikaner nationalism and identity For African nationalists the Mfecane the vast movement of the Black populations in the interior following the emergence of a new Zulu kingdom as a major military force in the early 19th century offers an equally powerful symbol of the making of a nation With their parallel visions of populations on the move to establish new states these two stories became part of divided South Africa's separate mythologies treated as unconnected events taking place in separate universes For the first time in this groundbreaking book accounts of both migrations are brought together and examined In uniting these separate visions of African and Afrikaner history Norman Etherington provides a fascinating picture of a major turning point in South African history and points the way for future work on the period

Saving the Zululand Wilderness

Donal P. McCracken, 2008 Chartering the dire cultural and environmental impact of poachers and the export of Africa's incredibly diverse wildlife this compelling account describes how Zululand's rich natural heritage was rendered nearly extinct due to generations of greed and abuse Documenting the steady decline of wild game from the slaughter of 20 000 elephants so that 1 000 tons of ivory could be shipped from Durban Bay between 1820 and the 1880s to the indiscriminate global export of rhino and buck horns hides from lions leopards and other wildcats and live wild animals this staggering documentation bears witness to the careless depletion of the last surviving great African kingdom Meticulously researched with emphasis on celebrating the heroic and eventually successful attempts to enforce environmental protection policies
