Duke Ellington released the influential album *A Drum Is a Woman*. This musical allegory revealed the implicit truth about the role of women in jazz discourse, jilted by the musician and replaced by the drum. Further, the album's cover displays an image of a woman sitting atop a drum, depicting the way in which the drum literally obscures the female body, turning the subject into an object. This objectification of women leads to a critical reading of the role of women in jazz music. If the drum can take the place of a woman, then a woman can also take the place of a drum. *The Drum Is a Wild Woman: Jazz and Gender in African Diaspora Literature* challenges that image but also defines a counter tradition within women's writing that involves the reinvention and reclamation of a modern jazz discourse. Despite their alienation from bebop, women have found jazz music empowering and have demonstrated this power in various ways. *The Drum Is a Wild Woman* explores the complex relationship between women and jazz music in recent African diasporic literature. The book examines how women writers

from the African diaspora have challenged and revised major tropes and concerns of jazz literature since the bebop era in the mid 1940s Black women writers create dissonant sounds that broaden our understanding of jazz literature By underscoring the extent to which gender is already embedded in jazz discourse author Patricia G Lespinasse responds to and corrects narratives that tell the story of jazz through a male centered lens She concentrates on how the Wild Woman the female vocalist in classic blues used blues and jazz to push the boundaries of Black womanhood outside of the confines of respectability In texts that refer to jazz in form or content the Wild Woman constitutes a figure of resistance who uses language image and improvisation to refashion herself from object to subject This book breaks new ground by comparing the politics of resistance alongside moments of improvisation by examining recurring literary motifs cry and response the Wild Woman and the jazz moment in jazz novels short stories and poetry comparing works by Ann Petry Gayl Jones Toni Morrison Paule Marshall Edwidge Danticat and Maya Angelou with pieces by Albert Murray Ralph Ellison James Baldwin and Ellington Within an interdisciplinary and transnational context Lespinasse foregrounds the vexed negotiations around gender and jazz discourse

Dictators, Democracy, and American Public Culture Benjamin L. Alpers, 2003-10-16 Focusing on portrayals of Mussolini's Italy Hitler's Germany and Stalin's Russia in U.S. films magazine and newspaper articles books plays speeches and other texts Benjamin Alpers traces changing American understandings of dictatorship from the late 1920s through the early years of the Cold War During the early 1930s most Americans' conception of dictatorship focused on the dictator Whether viewed as heroic or horrific the dictator was represented as a figure of great masculine power and effectiveness As the Great Depression gripped the United States a few people including conservative members of the press and some Hollywood filmmakers even dared to suggest that dictatorship might be the answer to America's social problems In the late 1930s American explanations of dictatorship shifted focus from individual leaders to the movements that empowered them Totalitarianism became the image against which a view of democracy emphasizing tolerance and pluralism and disparaging mass movements developed First used to describe dictatorships of both right and left the term totalitarianism fell out of use upon the U.S. entry into World War II With the war's end and the collapse of the U.S. Soviet alliance however concerns about totalitarianism lay the foundation for the emerging Cold War **Racism in the United States** Meyer Weinberg, 1990-05-21 This volume represents the most comprehensive book length bibliography on the subject of racism available in the United States Compiler Meyer Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles books congressional hearings and reports theses and dissertations research reports and investigative journalism Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail In addition to works that fit the narrow definition of racism as a mode of oppression or group

denial of rights based on color Weinberg includes references dealing with sexism antisemitism economic exploitation and similar forms of dehumanization References are grouped under a series of subject headings that include Civil Rights Desegregation Housing Socialism and Racism Unemployment and Violence against Minorities Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced Also included is one section of carefully selected references on racism in countries other than the United States Unlike the remainder of the book this section is not comprehensive but rather provides an opportunity to view racism comparatively The volume concludes with an author index This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism sociology and black history
