

FIVE THEMES OF GEOGRAPHY

The five themes of geography are location, place, region, movement, and human-environmental interaction.

- **Location:** According to Natoli (1994), the first theme of geography is location because it is vital for understanding world climatic patterns and cartography.
- **Place:** If the theme of location answers the question of where something is, the theme of place answers the question: what's it like?
- **Human-environmental interaction:** a theme of geography that deals with how people and their environments interact (Alliance, 1990).
- **Movement:** The theme of movement addresses the question of how and why places are connected.
- **Region:** A region can be defined as an area that displays unifying characteristics given some criteria.
